You can Hear the water flowing,
The birds chirping,
The trees Swaying in the wind,

You can see the sun Shining on the water,
the ducks in the water,
the drift wood,
the leaves falling,
And the water.

From my place, I can hear the MESA Creek. And the nectar that's being sucked out of me by a small, sunset butterfly. As I feel the sun shining on me I look my best. Hopefully, someone will pick me, if someone picks me I grow again. Not only butterflies visit me, also bees. To polinate me Ofcourse. I like living here because it's so peaceful. The birds chirping, the wind howling, the bzzzz's of the bees. My job at the creek is letting my roots grow for the soil. But most of all, my job at the creek is just being beautiful for the creek.
