No reported violations.

DISCUSSION ITEM:**(3:40) PLAN SANTA BARBARA UPDATE**

Long Range Planning Staff: John Ledbetter, Principal Planner.

Mr. Ledbetter provided a Community Input Summary Report evaluating results of comments received from the public at Plan Santa Barbara presentation meetings. Mr. Ledbetter responded to questions from the Board.

PRELIMINARY REVIEW**1. 1642 SHORELINE DR****E-3/SD-3 Zone**

Assessor's Parcel Number: 045-172-020
Application Number: MST2004-00713
Owner: Robert Whitehead
Applicant: Joaquin Ornelas
Agent: Green and Associates

(Proposal to construct a 1,017 square foot second-story addition and a 250 square foot interior remodel to an existing 1,733 square foot single-family residence located on a 7,753 square foot lot in the Appealable Jurisdiction of the Coastal Zone)

(Sixth Review Hearing.)

(PROJECT REQUIRES NEIGHBORHOOD PRESERVATION ORDINANCE FINDINGS AND CONFORMANCE TO PLANNING COMMISSION RESOLUTION NO. 014-06.)

Item 1 was postponed indefinitely at the applicant's request.

****** THE BOARD RECESSED FROM 4:13 P.M. UNTIL 4:24 ******

PRELIMINARY REVIEW**2. 601 E MICHELTORENA ST****C-O Zone**

Assessor's Parcel Number: 027-270-030
Application Number: MST2003-00827
Owner: Santa Barbara Cottage Hospital Foundation
Agent: Ken Marshall
Architect: Cearnal, Andrulaitis, LLP

(The Santa Barbara Cottage Hospital Foundation Workforce Housing Project will remove the former St. Francis Hospital complex, including the main hospital, convent, central plant, and other ancillary structures and construct 115 residential condominiums that will cover approximately 5.94 acres of the 7.39 acre site. Eighty-one of the units will be sold to Cottage Hospital employees at prices within the City's structure for affordable units and 34 units will be sold at market rates. The project will provide approximately 265 parking spaces, including 254 parking spaces for the 115 condominium units and 11 spaces for the Villa Riviera facility. **THE PROJECT WAS APPROVED BY THE PLANNING COMMISSION ON SEPTEMBER 21, 2006 AND BY THE CITY COUNCIL ON DECEMBER 19, 2006.**)

(Review of K units and Landscaping.)

(4:25)

Present: Brian Cearnal, Architect; Joe Andrulaitis, Architect; Katie O'Riley-Rogers, Landscape Architect.

Public comment opened at 4:46 p.m. The following individual(s) spoke in favor or opposition:

Cheri Rae: opposed; concerns with buildings, shuttle, and landscaping.

Tony Fisher, representing St. Francis Friends & Neighbors: opposed. Documents submitted: Planning Commission Resolution for Villa Riviera, City of Santa Barbara solar photovoltaic pamphlet, photographs of several height elevations. Concerned with building height incompatibility.

Jan Winford: requested the board conduct a site visit. Documents submitted: photographs of vehicles in Villa Riviera entrance.

Sydney Siemens: opposed; concerns with exterior lighting.

Public comment closed at 4:58 p.m.

Mr. Cearnal requested that discussion focus on the new construction as repeated discussion of Villa Riviera is time consuming. Mr. Manson-Hing agreed that discussion will be confined to the ABR's purview as the Villa Riviera CUP is the Planning Commission's purview.

Motion: Continued two weeks to the Full Board with the following comments:

- 1) The preliminary landscaping plan appears to be going in right direction.
- 2) Further development of fences, guardrails, additional planting pockets at the base of retaining walls, exterior lighting, and refinement of the hardscape surfaces is encouraged.
- 3) Planting more significant trees at the northern perimeter of the upper lot is encouraged (at the central portion where the upper lot accesses the lower lot) to help mask the adjacent buildings. Study having a planter at the midway point of the central area stairs. Provide evidence that landscaping work has been coordinated with civil work to allow installation of significant trees.
- 4) Provide facilities enabling individual owners to install landscape irrigation.
- 5) Study consolidating the narrow landscape planters adjacent to parking areas for greater efficiency.
- 6) Return to Full Board for review of the upper lot architecture.

Action: Sherry/Mudge, 6/0/0. Motion carried. (Zink absent. Wienke stepped down.)

3. 3885 & 3887 STATE ST

C-2/SD-2 Zone

Assessor's Parcel Numbers: 051-022-012 & 051-022-033

Application Number: MST2004-00801

Owner: George Armstrong for Cleo Purdy Trustee

Architect: Barry Berkus

(This is a revised project reducing the amount of commercial space and number of residential units. The project consists of a merger of two parcels, demolition of an existing 4,990 square foot motel and 22,250 square foot office building and the construction of new mixed-use three-story buildings. The project includes three commercial spaces (totaling 6,234 net square feet) and 44 residential units on a proposed lot of 62,331 square feet (1.43 acres). The residential units consist of thirty-one market rate one-bedroom units, one market rate studio unit, nine middle-income and one upper-middle income affordable one-bedroom units. A total of 109 parking spaces are proposed (82 underground and 27 surface spaces).

(COMMENTS ONLY; PROJECT REQUIRES ENVIRONMENTAL ASSESSMENT AND PLANNING COMMISSION APPROVAL OF THE TENTATIVE SUBDIVISION MAP.)

(5:45)

Present: Barry Berkus, Architect; Doug Singletary, Architect.

Public comment opened at 6:16 p.m. The following individual(s) spoke in favor or opposition:

Chair Wienke read written comments submitted by Judy Orias.

James Kahn: concerned about density, narrow street, massive project.

Public comment closed at 6:28 p.m.

Straw vote: how many Board members believe the second living area requires additional study, or think of it as 2 bedroom unit? 4/0/0.

Straw vote: how many Board members feel the project is too massive? 4/0/0.

Motion: Continued indefinitely to the Full Board with the following comments:

- 1) The overall massing and density appears too large.
- 2) The Board likes the direction of the new mixed design styles and appreciates the project being set back from the property corners.
- 3) The size and layout of units A and C are potentially problematic with the extra living room area. This layout could be interpreted as two bedroom units which may lead to potential problems with the parking design.
- 4) The applicants are encouraged to look for design solutions that may require removal of roof covers for the third level decks to reduce the scale and massing.
- 5) There is some concern with the commercial parking. Study the location and number of centrally located commercial parking spaces and consider more commercial parking in the center as opposed to rear of the lot,
- 6) Study the building separation and the widths of the walkways between the units to increase window privacy.
- 7) Study increased use of "skyways" to reduce the appearance of a single continuous building.
- 8) Applicants are encouraged to study an increased setback of the front arcade to maximize the amount of landscaping area of State Street.
- 9) The applicant is to return with a landscape plan showing planting along the western property driveway/street and incorporating the existing trees on neighboring property. The board looks for a more street/alley tree design in that location.
- 10) There is concern with the number of office space. Study mixed uses other than commercial to incorporate uses by residents.
- 11) Study making the plaza more pedestrian friendly.

Action: Blakeley/Aurell, 7/0/0. Motion carried. (Zink absent.)

(This is a revised project. Proposal to demolish an existing 705 square foot house and 168 square foot garage and construct and new two-story duplex. The project will consist of build two new three-bedroom units totaling 2,339 square feet on a 5,625 square foot lot. Unit A is proposed to be 1,201 net square feet and will include an 84 square foot second-story deck and a 39 square foot porch. Unit B is proposed to be 1,138 square feet and will include an 84 square foot second-story deck and a 15 square foot porch. Each unit will include an attached two-car garage. A modification is requested for the garage encroachment into the side-yard.)

(COMMENTS ONLY; PROJECT REQUIRES ENVIRONMENTAL REVIEW AND STAFF HEARING OFFICER APPROVAL OF MODIFICATION.)

(7:30)

Present: Jose Esparza, Architect.

Public comment opened at 7:44 p.m. As no one wished to speak, public comment was closed.

Motion: Continued indefinitely to the Full Board with the following comments:

- 1) Provide a landscape plan.
- 2) Study the following details: a. recessed and better proportioned doors and windows; b. elimination of the long roof ridge on the second level to break up the mass; c. the attic ventilation louvers are too close to window surrounds; d. study the west elevation balconies of the second story to look better and to not have the heavy plaster end conditions as shown on drawings.
- 3) Provide photographs of the eastern and western neighboring properties from the proposed second story. Study the location and size of the second floor windows on the east and west elevations with regard to privacy considerations and avoid large looming windows over the adjacent properties.
- 4) The Board is still concerned with the large relentless second story roof ridge. Provide roof articulation.
- 5) The Board is concerned with the lack of street presence of the front façade. The proposal lacks the charm giving elements of the neighborhood. Provide greater charm giving elements at the unit entries. Study window placement, and window light divisions.
- 6) There is concerned with the large private outdoor spaces that cantilever over the garage, as they appear too massive for the building size.
- 7) The applicant is to return with a design showing various sizes of modulation of plane and massing to the facades, especially on the east and west elevations.
- 8) There is concern with the east elevation three foot garage setback and the lack of architectural design on the garage elevation which could appear relentless to the neighboring property.
- 9) When returning with a landscape plan, pay particular attention to the property line on the western edge where the three foot setback modification is requested.

Action: Sherry/Blakeley, 7/0/0. Motion carried. (Zink absent.)

(Proposal for remodeling and a 1,200 square foot addition to an existing two-story 2,707 square foot residence on a 17,116 square foot lot in the Hillside Design District. Existing parking is provided in a 460 square foot two-car garage and an attached 189 square foot one-car carport at the lower level. These areas will be converted to habitable space as a part of the 1,200 square foot addition - after remodeling, there would be a new 432 square foot attached two-car garage at the upper level. A modification is requested for a 30 square foot encroachment of the proposed garage into the interior-yard setback and for relocation of the front door which is currently located within the front-yard setback.)

(Project received Preliminary Approval on May 29, 2007. Final Approval is requested.)

(8:17)

Presenters: Jason McCann, Designer; Allen McCloud, Project Architect.

Motion: Final Approval of the project with the following conditions.

- 1) The under-story lattice siding shall be recessed six inches from the plane of the stucco wall above.
- 2) Spark arrestors shall be noted on the exterior fire place as required.
- 3) Specification for material colors as shown on drawings (Davis colors).
