The City of Santa Barbara provides the opportunity for public and private use of City parks and parkland. Such use may include picnics, wedding ceremonies, and public or private gatherings, sporting events such as walks and runs, or large community special events. Fees are determined by the size, scope and duration of the event, except for group picnic sites, which are based on the site's area capacity. The following fee table describes categories and fee levels for various uses.

Set Up and Break Down Days: For larger outdoor events with extensive set up including canopies, stage, etc., set up and break down days will be assessed 25% of the daily reservation fee per day or any part of one day. Dumpsters and portable toilets are exempt from the break down day charge if they are removed by 9am the following day.

Utility Hook Ups for De La Guerra Plaza Events:

Utility hook ups for gas, water and electricity may be made available for large special events with multiple food vendors held in De La Guerra Plaza. The activation of these utilities can either be accomplished through licensed plumbing and electrical contractors, or the Parks and Recreation Department can facilitate the hook-up requests through the Public Works Department. If the former is chosen, a permit must be obtained from the Building and Safety Department, and a \$100 deposit is required to cover the estimated usage of the utilities. Additional information on how to obtain the permit will be provided.

If the latter is chosen, approval is dependent upon Public Works ability to schedule the necessary personnel to complete the required work for the event within the given timeframe. Requests must be submitted a minimum of four weeks in advance of the event. The base cost to activate/deactivate the plumbing is \$494 for the first box, plus \$84 per additional box. The base cost to activate/deactivate the electricity is \$123 for the first box and plus \$82 per additional box. A deposit of \$100 is also required to cover the estimated usage of the utilities.

VEHICLES IN PARK OR BEACH AREAS RELATED TO PERMITTED EVENTS

The use of vehicles in parks and beaches is strictly controlled and restricted to authorized uses only. Authorized passes will be limited to vehicles deemed essential to the operation of the permitted event, as determined by the Director or designated representative. This includes vehicles unloading or loading equipment, supplies or passengers, or other types of vehicles related to the event.

Unauthorized driving or parking of vehicles in park or beach areas related to permitted events will be cited and fined \$50 per vehicle. Unauthorized driving or parking may include vehicles without access permits or authorized vehicles, which do not comply with driving conditions as determined in the permit. Fines will be charged to the event and withheld from the security deposit. Excessive abuse of the vehicle policy by an event may affect future event permit consideration.

WATER AND SEWER BUY-IN FEES

Sections 14.08.050 and 14.48.010 of the Municipal Code authorize the establishment by resolution of fees to be paid for connections to the City water and sewer systems, respectively; and water and sewer buy-in fees are appropriately assessed on the basis of the flow capacity of the meter serving a given use.

The City Council, upon recommendation of the Water Commission, has determined the appropriate charges to be assessed for new connections to the City water and sewer systems for the purpose of buying into the existing assets of those systems.

1. BUY-IN RATES

Except as provided herein, the following water and sewer buy-in fees shall be collected prior to the Public Works Director’s approval to: 1) connect to the City water or sewer system, or 2) to commence a discharge into the City sewer system from new construction or from a newly created dwelling unit. Such buy-in fees shall be in addition to fees assessed under other resolutions for the labor, materials, equipment, and other City costs necessary to construct the actual connection to the water or sewer system.

|---|-------------|--------------------------|------------------|
| Multi-family Residential Dwelling Units, per dwelling unit: | | \$1,021 | \$710 |

| | 10" meter: | \$234,494 | \$163,099 |

2. REGULATIONS REGARDING ASSESSMENT OF BUY-IN FEES

The following regulations shall apply to the assessment of water and sewer buy-in fees:

- A. The term “multi-family residential dwelling unit” as used herein shall mean any attached dwelling unit, including attached condominiums and secondary dwelling units.
- B. Water and sewer buy-in fees shall not apply to:

1. Connections to serve facilities owned and operated by City programs funded by the General Fund; and
 2. Water system connections for public fire hydrants, private fire hydrants, and private fire lines.
- C. A sewer buy-in fee shall not apply to a water meter that is classified as "Irrigation" in the City billing system.
- D. A water buy-in fee shall not apply to a connection to the City's reclaimed water distribution system when such connection is made for the purpose of displacing existing usage of water from the City's potable water distribution system.
- E. In the case of an application for a water or sewer connection to serve a parcel where connections already exist, credit shall be given for existing connections such that the water and sewer buy-in fees shall be based on the net increase in meter capacity. EXCEPTION: There shall be no buy-in fee assessed for the installation of a meter to serve a legally existing residential dwelling unit that is already served by another City water meter when such installation is done for the purpose of providing separate metering to such dwelling unit.
- F. A reduction in meter size may be approved by the Public Works Director in accordance with applicable resolutions; however, there shall be no refund of buy-in fees upon such reduction.
- G. In a case where the buy-in fee cannot be reasonably determined using the meter capacity method contained herein, a water and/or sewer buy-in fee may be determined by estimating the net new usage of water, converting such usage to an equivalent number of 5/8" meters, and multiplying said equivalent number times the buy-in fee for a 5/8" meter.
- H. For the period from July 1, 2005 through June 30, 2007, the Public Works Director may approve a 50% reduction of the sewer buy-in fee for a sewer connection that results in the discontinued use and the abandonment, per City standards, of a functioning and legally existing septic tank or other on-site sewage disposal system. It shall be the responsibility of the property owner to apply for such reduction in accordance with procedures established by the Public Works Director and to perform such abandonment in accordance with City requirements, including but not limited to inspection of such abandonment.

WATER RATES AND FEES

Chapter 14.08 of the Santa Barbara Municipal Code authorizes the City Council to set fees for water meters and water service;

Section 14.12.010 of the Santa Barbara Municipal Code authorizes the City Council to set the rate for City water for private fire services when the use of a meter is not required; and

The City does currently and wishes to continue to have in effect a water rate structure that reflects an adequate supply of water and promotes the efficient use of such water by its customers.

- A. "Account holder" means the person or entity responsible for payment for water service at a particular property, as shown in the City's water billing records.
- B. "Base allotment" means the average monthly consumption on record with the City for the most recent complete off-peak period, or such other level of consumption determined by the Director to represent the average monthly off-peak water usage by a particular customer. An off-peak period for any given customer shall be a period comprised of the service periods charged on bills dated January through June.
- C. "Director" means the Director of the Department of Public Works or his designated representative.
- D. "Hcf" means one hundred cubic feet.
- E. "Service" or "water service" means water provided by or through the water distribution facilities of the City.

1. WATER SERVICE RATES

The following provisions shall govern all fees related to water service for metered connections to the City water system:

- A. **MONTHLY SERVICE CHARGE.** A monthly service charge shall be collected for all connections, without regard to actual water use, if any, as follows:

| <u>Size of Water Service Meter</u> | <u>Rate (\$/meter/month)</u> |
|------------------------------------|------------------------------|
| 5/8" | \$ 10.42 |
| 3/4" | \$ 15.64 |

A bona fide commercial agricultural enterprise is one that grows and sells one or more type of agricultural or horticultural products, for the purpose of producing income from the sale of these products. The amount of water made available in each block of metered water usage under this sub-classification shall be based solely on the area that is planted and irrigated as part of the enterprise. As a condition of the right to receive Irrigation-Agriculture service, the Director may require an Account holder to submit to the Director any documentary or other evidence necessary to establish to a reasonable degree of certainty that the property served by the meter is being used to conduct a bona fide commercial agricultural enterprise as defined above. Such evidence may include tax returns, bills of sale, or similar documents.

Where the Director has determined that use of recycled water is feasible at and on a particular property and has notified the account holder for the meter serving such property of this fact, and thereafter the user has failed to substitute recycled water use for potable water use, the charge for provision of potable water use shall be double the otherwise applicable charge for metered water.

E. GRANTING OF ADJUSTMENTS TO EXTRAORDINARY WATER CHARGES. Upon an account holder's application that is 1) received within 45 days of a relevant billing date, 2) submitted on a form provided by the Finance Director, and 3) supported by detailed written documentation, the Finance Director, or a designee of the Finance Director, shall have the authority to make adjustments to

extraordinary water charges in the event of hidden leaks, undetected line breaks, or other circumstances that are demonstrated to be beyond the reasonable control of the account holder. Such adjustments shall be made in accordance with guidelines approved by the City Administrator's Office. However, such adjustments shall in no case result in a cost per Hcf that is less than the lowest unit rate for residential customers located within the City limits. The decision of the Finance Director, or said designee, regarding any such adjustment shall be final. Adjustments shall be allowed under this section only once per account, per account holder.

F. MISCELLANEOUS SERVICES. The following miscellaneous fees related to water service shall be charged and collected upon demand:

3. WATER SERVICE CONNECTIONS

All determinations of the size and location of water service connections, water main connections, and meters shall be subject to the approval of the Director. The Director may waive the fee for a service connection or main connection to the recycled water system upon a finding that such connection will promote the efficient and beneficial use of recycled water and will displace existing usage of the City's potable water supply. Fees related to water service connection to the City water system are as follows and are in addition to buy-in fees established by the City Council in separate resolutions:

- A. Payable at the time of request, service fees for new service connections to the City water system and for water service relocations shall be as follows:

| 1" meters (up to 2 meters per manifold): | \$ 588 per meter |
| Over 2" service: | Cost, plus overhead, including meter |

A water service relocation of up to 10 feet or the addition of a meter to a service connection that has an existing meter, except as provided above, shall be charged at the cost of labor and materials plus overhead, provided that installation of a new service connection is not required.

For 1" and 2" service connections and manifolds, subject to the prior approval of the Director, a credit of \$ 824.00 against the otherwise applicable service connection fee may be applied when said service connection is to be installed by the City simultaneously with and in the same customer-excavated trench as a private fire line or private water main.

- B. Payable at the time of request, fees for water service main connections to the City water system, including private fire lines and other private mains, shall be as follows and shall be in addition to any applicable fees for trench inspections and encroachment permits:

| | 8" | \$ 2,501 |
| | 10" | \$ 3,685 |

Fees for other combinations shall be charged at the cost of labor and materials, plus overhead.
