Present: Detlev Peikert, Peikert Group Architects
Gordon Brewer, Peikert Group Architects
Rob Fowler, Landscape Architect

Public comment opened at 2:45 P.M.

Kellam De Forest, a local resident, stated that the Commission has the power to deny projects and feels that they should deny this project because it is inappropriate for the surrounding area and it should be forwarded to the City Council to decide.

Tony Fischer, attorney, spoke on behalf of Karen McFadden, and stated that someone needs to look at the drawings closely and have them be submitted prior to the meetings. This would allow one to see how much surplus space could be taken out so that the building could be more. Additionally, he said that his client does not want large trees in their front yard. Lastly, he stated that the Applicant needs to refer to the Chapala Street Guidelines. Overall, he sees progression in the project.

Karen McFadden, a neighboring resident to the project, stated that the south elevation should be reduced and said that she has an issue with not knowing accurate square footage. She stated that she needs to know the accurate dimensions of the project in order to know if it can be reduced. However, she said that, overall, she was happy with the design, but that there are still some issues that need to be dealt with before it gets final approval.

Kathryn Dole, a neighboring resident to the project, stated that she approved the building itself but that this specific location is inappropriate for the building and asked the Commission to consider a denial of the project. She also expressed concern for the power lines and wanted them to be undergrounded. If that is not possible, the canopy trees would work.

Tony Vassallo, a local resident, commented about the questionable accuracy of the height and setbacks of the project.

Public comment closed at 2:58 P.M.

Motion: Preliminary approval of the project as submitted.
 Action: Curtis/Pujo, 2/7/0. (Adams/Boucher/Hausz/LaVoie/Murray/Naylor/Sharpe opposed.)
 Motion failed.

Substitute

Motion: To deny the project with the following findings:

- 1) The project is inconsistent with the Neighborhood Preservation Ordinance.
- 2) The project is inconsistent with the Chapala Street Design Guidelines.
- 3) The project is inconsistent with El Pueblo Viejo Design Guidelines.
- 4) The project is inconsistent with the Urban Design Guidelines.
- 5) The project is inconsistent with the preservation of, and has unmitigable impacts to, the adjacent Brinkerhoff Landmark District.
- 6) Applicant has not provided the requested additional increase in landscaping along Chapala Street.
- 7) Applicant has not increased the landscape buffer at the south elevation between the proposed project and the adjacent Victorian structure.
- 8) Applicant has not reduced the three story element on the south elevation.
- 9) There were concerns about the differential in square footage statistics on the drawings versus what was previously reviewed by the Planning Commission.
- 10) Some Commissioners continued to be concerned about the roof decks and fourth story elements and tower.
- 11) Air conditioning equipment and solar panel locations need to be shown on the plans as hidden from public view.

Action: Boucher/Sharpe, 7/2/0. (Pujo/Curtis opposed.) Motion carried.
