Commissioner La Voie stated that if he came in later, the Commission would take a break to hear the update. (Richard Redmond, applicant for the Arlington Tower, arrived after the announcement period to update the Commission on the current status of the repairs. He reported that he contacted the National Center for Preservation Technology, which is currently testing the existing stucco in hopes of recommending an appropriate solution to the cracking of the tower.)
3. Ms. Hernández announced that regarding the continued item of the Historic Structures/Sites Report for the Mission Canyon Intermodal Corridor Plan, after the project has had a concept review, the report can be revised with an expanded scope, including a more detailed analysis of project impacts.
4. Commissioner La Voie requested an update on the site visit to the MOXI children's museum. Ms. Kaufman reminded the Commissioners that the site visit was scheduled for Thursday, September 10 at 3 p.m. Commissioner Drury indicated that he would attend and bring back a report.
5. Commissioner Murray inquired about the status of the Franceschi House pertaining to a letter that was sent from David Gerrity, a member of the public. Ms. Hernández stated that the City Council has granted a six-month consideration period for the public and the Pearl Chase Society to propose alternatives to demolition, or for the Parks and Recreation Department to present a detailed plan and budget for demolition and future plans for the site. As the house is a Structure of Merit under the jurisdiction of the HLC, this letter was addressed to the HLC members and the City Council. If the City Council decides to pursue demolition, the demolition and the Environmental Impact Report will have to be reviewed by the HLC.
6. Commissioners Orías and Drury requested an update on the enforcement and landscaping issue surrounding the Transmission tower near the Bird Refuge. Commissioner La Voie asked that it be added to the agenda of the next meeting.
