CITY OF SANTA BARBARA

COUNCIL AGENDA REPORT

AGENDA DATE: April 27, 2010

TO: Mayor and Councilmembers

FROM: Treasury Division, Finance Department

SUBJECT: March 31, 2010, Investment Report And March 31, 2010, Fiscal

Agent Report

RECOMMENDATION: That Council:

A. Accept the March 31, 2010, Investment Report; and

B. Accept the March 31, 2010, Fiscal Agent Report.

DISCUSSION:

On a quarterly basis, staff submits a comprehensive report on the City's portfolio and related activity pursuant to the City's Annual Statement of Investment Policy. The current report covers the investment activity for January through March 2010.

While the economy continued to exhibit clear signs of improvement this quarter, financial news was mixed, indicating the road to recovery will likely be both gradual and prolonged. The National Bureau of Economic Research (NBER), the official research organization that determines business cycles, said that despite positive growth in the economy, a formal determination that the recession has ended based on the current data "would be premature." The NBER makes its determination on a variety of factors including gross domestic product (GDP), employment levels, industrial production cycles and household incomes.

The Consumer Price Index (CPI) is a general measure of inflation showing the average change over time in prices of goods and services purchased by households. The seasonally adjusted CPI for all items remained basically flat in March at 0.1 percent. Economists remain divided on whether the economy will enter an inflationary cycle in the near future, but most do not see much risk with continued high unemployment levels and gradual economic recovery. The national unemployment rate in March was 9.7%.

Without fears of immediate inflation in the U.S. economy, the Federal Reserve Bank's Open Market Committee held the federal funds rate unchanged at a target range of 0-1/4 percent. Economists expect the Federal Reserve to increase rates no sooner than November 2010 and it probably will not do so until unemployment levels ease.

Although unemployment remained high, retail sales and industrial production were both up this quarter (1.6% in March and 0.1% in February, respectively), due in some part to higher household incomes and pent-up demand, fueling growth in equity markets. Markets posted strong quarterly gains with all of the major indexes realizing double-digit growth. The Dow Jones Industrial Average (DJIA) index, which measures stocks from 30 industrial "blue-chip" companies, was up 4.11% from the previous quarter; S&P 500, composed of 500 "large-cap" companies across various sectors, was up 5.38%; and NASDAQ, which largely measures technology stocks, was up 5.68%. This quarter marked the strongest first quarter results for the DJIA since 1999 and the strongest for the S&P 500 since 1998.

While short term treasury yields were higher at the end of the quarter, longer term yields were lower by 6 to 12 basis points as shown in the table to the right. Investors continued to demand the safety of U.S. Treasuries, driving up prices slightly (and therefore yields

lower). This is attributable to the federal government's continued phase-out of special lending programs and termination of its program on March 31, 2010 to purchase mortgage-backed securities (MBS). Other factors include investor concerns over the impact of the federal budget deficit (now estimated at over \$1.75 trillion) on economic recovery and the \$940 billion cost of Health Care Reform Act signed near the end of March. Industry analysts remain sharply divided on the direction of treasury yields over the next year indicating continued murkiness of short term economic forecasts.

Investment Activity

As shown in the table on the next page, the City invested \$18 million during the quarter. The purchases consisted of \$11 million in "AAA" rated Federal Agency callable securities and \$7 million in "AAA" rated Federal Agency bullets (non-callable securities). During the quarter, \$12 million of "AAA" rated Federal Agency securities were called and \$10.25 million securities matured, including two corporate notes (Berkshire Hathaway Financial and Toyota Motor Credit Corp).

The weighted average yield to maturity measures the average yield for securities with varying interest rates to help provide a measure of the future rate of return on the investment portfolio. The weighted average yield to maturity on the quarter's purchases totaled 2.301 percent, compared to 4.091 percent on the quarter's called and matured investments, reflecting lower market rates.

The average rate at which the City earned interest at the Local Agency Investment Fund (LAIF), the State's managed investment pool, was 0.56 percent for the quarter ended March 31, 2009. Staff expects to reinvest a portion of the City's LAIF balances in short-term securities during the next quarter.

Summary of Cash and Investments

The book rate of return, or portfolio yield, measures the percent return of actual interest earnings generated from the portfolio. During the quarter, the City's book rate of return decreased by 19.7 basis points from 2.735 percent at December 31, 2009 to 2.538 percent at March 31, 2010. The book rate of return continues to decline

through the attrition of higher-yielding securities, and reinvestment at considerably lower market rates. The portfolio's average days to maturity increased by 26 days from 893 to 919 days which includes the 20-year Airport promissory note authorized by Council in March 2009 and added to the portfolio in July 2009. The portfolio's average days to maturity excluding the Airport note is 627 days, reflecting reinvestment of maturities and calls during the quarter in the one to five year range for regular day-to-day investment activities in accordance with the City's Annual Statement of Investment Policy.

Credit Quality on Corporate Notes

Over the quarter ended March 31, 2010, there were no credit quality changes to the two corporate issuers of the medium-term notes held in the portfolio (i.e., General Electric Capital Corp and Wells Fargo & Company). All ratings remain within the City's Investment Policy guidelines of "A" or better.

Portfolio Market Gains/Losses

As shown on the Investment Yields below, the City's portfolio continued to reflect unrealized market gains during the quarter due to the low interest rate environment relative to the rate of interest earned on each security held in the portfolio. At March 31, the portfolio had an unrealized market gain of \$1.317 million.

On a quarterly basis, staff reports the five securities with the largest percentage of unrealized losses as shown in the table below. Note, however, since securities in the portfolio are held to maturity, no market loss will be realized.

On a quarterly basis, staff also reports all securities with market declines of greater than 1 percent compared to the prior month. At March 31, there are 2 securities reported due to the relative rise in Treasury yields which caused a corresponding decline in market value. Note that both securities shown below have a book-to-market gain, as shown in the column to the far right in the table, in spite of the monthly market decline of greater than 1%.

Additional Reporting Requirements

The following confirmations are made pursuant to California Code Sections 53600 et seq.: (1) the City's portfolio as of March 31, 2010 is in compliance with the City's Statement of Investment Policy; and (2) there are sufficient funds available to meet the City's expenditure requirements for the next six months.

Fiscal Agent Investments

In addition to reporting requirements for public agency portfolios, a description of any of the agency's investments under the management of contracted parties is also required on a quarterly basis. Attachment 2 includes bond funds and the police and fire service retirement fund as of March 31, 2010.
