

August 2008

**STREET TREE MASTER PLAN
SPECIES DESIGNATION CHANGE
FOR ADOPTION**

Date: July 30, 2008

Location: 3700 Block San Remo Dr.

Present Species Designation: *Jacaranda mimosafolia*, Jacaranda

Proposed Change to:

1. *Arbutus 'Marina'*, Marina Strawberry Tree
2. *Prunus cerasifera*, *Krauter Vesuvius*, Krauter Vesuvius Purple Plum

Existing Species Profile:

A mixture of Purple Leaf Plums, one Brachychiton, and Jacarandas on the south side, Liquidambar trees on the north side.

Reasons for Recommended Change:

The existing Jacaranda trees are located under high voltage lines and have been repeatedly and severely topped. The existence of overhead wires warrants a smaller species.
