The 42,623 square-foot site is currently developed with 3,954 square foot, two-level, single family dwelling and an attached 361 square foot, two-car garage. The proposed project involves construction of 430 square feet of additions to the dwelling, 211 square feet of additions to the garage, a new 1,155 square foot porch and covered terrace at the rear of the dwelling, alterations to the roof, new windows and doors, an interior remodel, new landscaping and 604 cubic yards of cut and fill grading. The proposal also includes permitting an "as-built" retaining wall that exceeds 3 ½ feet in height within 10 feet of the front lot line. The proposed total of 4,956 square feet on a 42,623 square foot lot in the Hillside Design District is 100% of the guideline maximum floor-to-lot area (FAR). An Administrative Height Exception is requested for the over height wall. This project will address violations in a Zoning Information Report (ZIR2015-00062).

The discretionary application required for this project is a Front Setback Modification to allow an addition to the garage with a new opening and an increased roof height within the required 30-foot front setback (SBMC § 28.15.060 and SBMC § 28.92.110).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15301 and 15305 (Existing Facilities and Minor Alterations to Land Use Limitations).
