Planning Commission Public Hearing. The purpose of this hearing is for the Planning Commission to review the draft Scope of Work to be used in the hiring of a consultant to assist in the development of the New Zoning Ordinance (NZO). The public is welcome to comment on the draft Scope of Work for consultant services.

The City is updating its Zoning Ordinance, Title 28 of the Municipal Code that establishes the zone classifications and permitted uses, development standards, and the permitting process for development. The zoning regulations affect land use, design, parcel size, building heights, density, setbacks, parking, landscaping, fencing and other aspects of property development and use.

The City's current Zoning Ordinance was first adopted in 1957, and has been amended many times over the years. At this time, a comprehensive update is needed to bring it up to date to reflect current uses and practices. It is expected that the work on the NZO will begin in the fall of this year and culminate in the adoption by the City Council in the fall of 2016.
