Save Water and Get A Rebate ***New Smart Landscape Rebate Program Launched***

SANTA BARBARA, CA – June 2, 2009

The City of Santa Barbara and Goleta Water District are offering rebates toward the cost of installing efficient irrigation equipment and water-wise plants. Up to 50 percent of any combination of irrigation equipment and planting costs may qualify for a one-time rebate of up to \$1,000. The program covers approved irrigation equipment, water-wise plants, mulch, and smart irrigation controllers.

Make an appointment for a pre-qualification visit from a representative of one of the water districts. Owners of projects that qualify will receive a list of items eligible in the rebate program.

For more information on saving water, go to www.SantaBarbaraCA.gov/water.
Save water now, it's the right thing to do!
