

CABRILLO BOULEVARD BRIDGE
REPLACEMENT

Cabrillo Boulevard Bridge Replacement

Project Update: September 2015

Work on the mountain side of the Cabrillo Boulevard Bridge continues with emphasis on creek transition walls and bridge foundations.

Upcoming Work:

Throughout September, crews will continue excavations, construction of creek bank transition walls, and construction of center bridge supports and abutments. On September 7th, crews will not work in celebration of Labor Day. There will be Saturday work as needed.

Large equipment will be visible and trucks hauling excavated materials will be leaving the site throughout the month.

On the beach side of the project, materials deliveries with flagmen will occur as needed. Large equipment will be on site to work on the supports for the temporary pedestrian bridge. Exploratory work for upcoming utility relocations will also occur. There are construction closures in this area, but beach multipurpose paths will remain open.

Closures:

Throughout Stage 2, the mountain side of Cabrillo Boulevard will remain closed near the bridge. One lane in each direction remains open on Cabrillo Boulevard during daytime construction for vehicular use. Helena Avenue is closed to vehicles at Cabrillo Boulevard, but access will remain for pedestrians, bikes, and segways.

To accommodate the work area, the left turn lane from westbound Cabrillo Boulevard to Stearns Wharf is closed. Motorists can enter Stearns Wharf from State Street and eastbound Cabrillo Boulevard. Detour signs are in place to highlight access around the closures.

Fall 2014 - 2016:

The Cabrillo Boulevard Bridge Replacement Project includes a new bridge, enhanced Mission Creek banks, and improved pedestrian areas. Cabrillo Boulevard, surrounding businesses, parks, Stearns Wharf, and the Arts and Crafts Show will remain open throughout construction.
