<b>Status: Pending</b>				
<b>401 &amp; 409 E HALEY STREET</b>	<b>031-212-018</b>	<b>MST2016-00508</b>	<b>27</b>	MEA
<p>Proposal for a new mixed-use development using the Average Unit Density Incentive Program (AUD), in the C-M, Commercial zone. The project will include a voluntary lot merger of Assessor parcels 031-212-017 and 031-212-018 which will result in one parcel of 22,500 square feet. All existing residential and commercial structures totaling 5,828 square feet will be demolished. The proposal will include construction of a three-story, mixed-use building with 29 residential units totaling 22,497 square feet and three commercial spaces totaling 3,306 square feet. A ground level parking garage will provide 58 parking spaces. Roof decks are also proposed. The residential unit mix will include six studios, nine, 1-bedroom units and 14, 2-bedroom units, with an average unit size of 775 square feet. The proposed density on this parcel will be 56 dwelling units per acre on a parcel with a General Plan Land Use Designation of Commercial, Industrial, Priority Housing, 37-63 dwelling units per acre. No grading is proposed. This project requires Planning Commission comments.</p>

<p>Proposal for a multifamily residential project using the Average Unit Density Incentive Program (AUD) and a voluntary lot merger of the parcels at 1220 and 1222 San Andres Street (APNS 039-151-010 and -011). The proposal includes the demolition of an existing duplex and three single-family dwellings totaling 4,831 square feet, and construction of seven new buildings comprising five duplexes and two single-family dwellings, for a total of 12 new dwelling units. Six buildings will have two stories and one building will have three stories. The unit mix will include 10, 3-bedroom units, one, 2-bedroom unit, and one, 1-bedroom unit, ranging in size from 673 to 1,184 square feet with an average unit size of 995 square feet. The proposed density on this 29,291 square foot merged parcel will be 20 dwelling units per acre on a parcel with a General Plan land use designation of Medium-High Residential, 15-27 dwelling units per acre. There will be 18 uncovered and three covered parking spaces, for a total of 21 spaces, and 12 covered and secured bicycle parking spaces. Grading excavation and fill of 1,196 cubic yards will be balanced on site. Also proposed is the removal of nine trees. Total development on site will be 13,313 square feet. This project will address zoning violations identified in Zoning Information Reports ZIR2016-00211 and ZIR2015-00389 and Enforcement cases ENF2014-000621, ENF2015-00771, and ENF2016-00718.</p>

This is a revised project description: Proposal for a new 1,326 square foot, 3-story affordable dwelling unit and a 523 square foot, 2-car attached garage on a 7,405 square foot lot. There is currently an existing 2-story, 2,159 square foot dwelling unit and garage on site which will be altered to remove a fireplace and add a 529 square foot rooftop deck. Total development on site will be 4,008 square feet. Staff Hearing Officer review is requested for a lot area modification and a zoning modification to encroach into the required front setback.

This is a revised project description. Proposal to construct a new 5,126 square foot two-story single family residence with a 393 square foot basement, 440 square foot detached garage and 499 square foot detached accessory structure on a previously undeveloped site. Proposed site improvements include 978 square feet of decks, a 22'x12' swimming pool, spa and new site landscaping including the removal of one palm tree. Approximately 711 cubic yards of cut and 677 cubic yards of fill will occur with 34 cubic yards to be balanced on-site. The proposed total of 5,625 square feet on 1.72 acre lot located in the Hillside Design District is 105% of the guideline maximum floor to-lot-area ratio (FAR). Project requires Staff Hearing Officer Review for a requested Zoning Modification to allow an accessory building to be located in the remaining front yard.

Proposal for a new mixed-use project using the Average Unit-Size Density Incentive Program (AUD). Project is comprised of the adaptive re-use of an existing 6,392 square foot mixed-use building and an existing 4,548 square foot commercial building; demolition of three commercial buildings, three residential buildings, a storage yard, and a shop canopy totaling 7,389 square feet, and the construction of two new 8-unit apartment buildings measuring 16,221 and 24,425 square feet. Unit mix will include 8 one-bedroom units, and 8 two-bedroom units ranging in size from 722 to 955 square feet with an average unit size of 839 square feet. The proposed density on those lots being developed with residential units (APNs:031-201-021 and 031-201-017) is 34 dwelling units per acre on parcels within the Priority Housing Overlay, which allows for 37-63 dwelling units per acre. Also proposed are 16 uncovered parking spaces and 45 covered parking spaces, a lot line adjustment for APNs 031-201-031 and 031-201-021, and roof mounted photovoltaic paneling. Project requires Planning Commission review and Development Plan Approval findings.

Project site contains twin Queen Anne Free Classic style homes constructed in 1905 that are eligible to be designated as Structures of Merit. Proposal for a new mixed-use apartment/commercial structure using the Average Unit-Size Density Incentive Program. The project will comprise a voluntary lot merger of eight parcels (APNs 029-162-006, 029-162-007, 029-162-008,-029-162-009, 029-162-010, 029-162-012, 029-162-020, 029-162-021). Proposal includes demolishing all existing improvements, except the twin Queen Anne Free Classic style homes, which will be relocated to the Garden Street frontage to provide better context for the early 19th century buildings, and constructing a new four-story apartment/commercial building. The unit mix will be 24 one-bedroom apartments, 22 two-bedroom apartments, and 6 three-bedroom apartments, for a total of 52 residential units, and an average unit size of 809 square feet per unit. Also proposed are 87 parking spaces provided in a new 34,079 square foot, two-level basement parking garage, and 52 bike parking spaces. Project is within the Priority Housing Overlay (37-63 du/ac). A Historic Structures/Sites Report will be required to evaluate all structures on the site and to evaluate the impacts of the proposed project on the potential historic resources. Project also requires review by Planning Commission.

Proposal for a new residential project using the Average Unit Density Incentive Program. The project comprises the conversion of an existing 653 square foot garage and a 702 square foot storage area into separate apartment units to bring the total number of units on site to seven, with the proposed new units averaging 642 square feet. The proposed density on this 12,147 square foot parcel will be 25 units per acre on a parcel with a General Plan land use designation of Medium-High Density, 15-27 dwelling units per acre. Also proposed is the relocation of a 180 square foot driveway and the replacement of landscaping near the street-side of the parcel. No excavation or additional floor space is proposed.

PRT Application: Existing development on site consists of two single-story detached residential units, one 8-unit apartment building, and 20 uncovered parking spaces. The proposal would demolish the two detached residential units and the parking lot, maintain the 4,574 square foot 8-unit apartment building, and construct a new 27,167 square foot four-story building. This building would consist of 28 studio apartments, 10 single occupancy studio apartments with communal living/kitchen/dining areas, a tenant communal space, laundry, offices for staff and small medical/dental clinic. One accessible on-site parking space, and 12 off-site parking spaces are proposed. The project requests a Parking Modification, a Lot Area Modification, Community Benefit findings for 47 foot building height, as well as City vacation of a public alley. A parking demand study was submitted with the application.

Proposal to permit the "as-built" change of use for the existing 1,495 square foot building at 21 W Arrellaga Street from residential to nonresidential. The project includes the following associated site work to be conducted over two existing parcels at 21 W Arrellaga Street (APN: 027-231-003) and 1530 Chapala Street (APN: 027-231-021). Proposed project creates a total of six uncovered parking spaces to serve 21 W. Arrellaga. The existing legal non-conforming, one-car garage serving 1530 Chapala will remain unaltered. This project will address violations in enforcement cases (ENF2014-01017 and ENF2012-00036). The building at 21 W Arrellaga is on the City's Potential Historic Resources List and the State Historic Resources Inventory: Philip Raffour Residence; Craig Residence; c. 1890. The building at 1530 Chapala is a designated Structure of Merit: Hiscock Residence.

Proposal for a mixed-use development using the Average Unit-Sized Density Incentive Program (AUD). Project is comprised of the renovation of an existing 8,794 square foot mixed-use building containing two residential units and four commercial spaces to include nine residential units and one commercial space. Unit mix will include 3 two-bedroom units, 5 two-bedroom units, and 1 studio unit ranging from 400 to 1286 square feet. The proposed density on this 15,105 square foot lot will be 26 dwelling units per acre on a parcel within the Priority Housing Overlay, which allows for 37-63 dwelling units per acre. Also proposed are 13 new uncovered parking spaces, 2,253 square feet of private outdoor living space, and nine covered bike parking spaces. Project requires Planning Commission review and Development Plan Approval findings.

The project contains the Louise Ygnacio Residence, an Italianate house constructed in 1875, and scheduled to become a designated City Landmark in the spring of 2017. The proposal consists of a 26-unit mixed-use development to be developed on three parcels under the Average Unit-Size Density (AUD) Program. The project proposes to demolish an existing two-story, 2,464 square foot four unit apartment complex (226 E. De La Guerra St.), three sheds, and a surface parking lot. The project proposes to construct a four-story (subterranean parking plus three stories fully above grade), 30,835 square foot mixed-use building that includes 14,004 square feet of residential area and 4,749 square feet of commercial floor area. 44 parking spaces will be provided by a partially subterranean parking garage. The residential component comprises 26 AUD rental apartments with an average unit size of 539 square feet. The three parcels have a General Plan Land Use designation of Commercial/High Residential (28-36 dwelling units per acre). The proposed density on the total of .44 acres will be 60 units per acre, as allowed by the AUD Priority Housing Overlay. The project includes Planning Commission review for a proposal under the AUD Priority Housing Overlay with a combined net lot area of more than 15,000 square feet, and a Development Plan. The Louisa Ygnacio Residence and duplex at 214 E. De La Guerra, will be preserved and renovated. The existing residences are part of the 26 unit count.

The building at 113 W. De La Guerra Street is on the City's Potential Historic Resources List, eligible as a Structure of Merit: W.D. Smith Building, constructed in 1928. Pre-Application Consultation Review of a proposal for a 23-unit mixed-mixed use project to be developed on two parcels under the Average Unit-Size Density (AUD) program. The project proposes the demolition of two existing 1,113 and 923 square foot commercial buildings, two outdoor patios, 15 surface parking spaces, and the near complete demolition of a 4,455 square foot commercial building, of which the historic façade and tile roof will be preserved. The project proposes to construct an 18,298 square foot, two- and three-story mixed-use building that includes 16,669 square feet of residential area and 1,629 square feet of commercial area. Twenty-seven parking spaces will be provided by an at-grade parking garage. The residential component comprises 23 residential units with an average unit size of 724 square feet. The two parcels have a General Plan Land Use designation of Commercial/High Residential (28-36 du/ac). The proposed density on the lots totaling 16,325 square feet will be 61 units per acre, as allowed by the AUD Priority Housing Overlay. The project requires Planning Commission review for a proposal under the AUD Priority Housing Overlay with a combined net lot area of more than 15,000 square feet, and will require a voluntary lot merger.

The parcel at 815 De La Vina includes a Queen Anne style building constructed in 1888 that is eligible to be designated a City Landmark. Proposal for a new residential project using the Average Unit-Size Density Incentive Program. The project will comprise a voluntary lot merger of three parcels (APNs 037-041-008, 037-041-009, 037-041-010). Proposal includes demolishing all existing improvements, except the historic Queen Anne building, and constructing 2 new, three-story apartment buildings. The unit mix will be 4 studio apartments, 21 one-bedroom apartments, and 9 two-bedroom apartments, with an average unit size of 647 square feet. Also proposed are 34 parking spaces to be housed in two first-floor parking garages, and 34 bike parking spaces. The proposed density on this 29,375 square foot parcel is 51 units per acre on a parcel within the Priority Housing Overlay (37-63 du/ac).

The residence is eligible for inclusion on the City's List of Potential Historic Resources as an example of the Craftsman Style, constructed in 1922. Proposal includes conversion of an existing accessory structure into a new residential unit under the Average Unit Density Incentive Program (AUD). The unit mix will be one 2-bedroom unit and one studio with an average unit size of 599 square feet. The proposal will also address violations in ENF2016-01616 by permitting as-built improvements including: replacement of the front windows, door, and two side windows. Interior alterations with the addition of a second master bath, reconfiguration of an existing bath, and reconfiguration of the bedroom closets in the existing residence. Project includes conversion of an existing 2-car garage to a 1-car garage, addition of one uncovered parking space, and two bike storage lockers.

Proposal for a new residential building using the Average Unit-Size Density Incentive Program (AUD). Project consists of the demolition of a 1,100 square foot single family dwelling and detached 220 square foot garage, and the construction of 7,142 square foot, three-story building containing seven residential units. Unit mix will consist of 6 two-bedroom units and 1 one-bedroom unit ranging from 625 to 974 square feet with an average unit size of 815 square feet. The proposed density for this 7,050 square foot lot is 44 dwelling units per acre on a parcel within the Priority Housing Overlay, which allows 37-63 dwelling units per acre. Also proposed are nine covered parking spaces, and seven covered bike spaces.

Proposal for a new residential unit using the City's Average Unit-Size Density Incentive Program (AUD). The project consists of the demolition of an existing two-car garage, as well as 58 square feet at the rear of the existing duplex and construction of a 1,290 square foot addition to the rear of the existing duplex containing a 630 square foot three-car garage and a 660 square foot second story residential unit. Unit mix will include 3 one-bedroom units ranging in size from 648 to 836 square feet with an average unit size of 715 square feet. The proposed density for this 5,234 square foot lot is 27 dwelling units per acre on a parcel with a General Plan Land Use Designation of Medium High Density Residential, which allows for 15-27 dwelling units per acre. Also proposed is a new trash enclosure, new private outdoor living spaces to be enclosed with fences and gates, and replacement and reconfiguration of the existing driveway.

Proposal for a four-story, mixed-use development with a tentative subdivision map for apartments and commercial condominiums. The residential portion of the project consists of 125 apartments with an average unit size of 577 square feet, including 14 units affordable to low income households. The proposed density is 166% greater than the base density of 47 studios provided by the Variable Density Program. The 21,319 square foot non-residential portion of the project includes 3,492 square feet of restaurant use, 5,384 square feet of retail and 12,443 square feet of light industrial/manufacturing arts-related uses. The project would provide 75 residential parking spaces and 76 commercial parking spaces on site, for a total of 153 parking spaces, of which 138 would be provided as stacked parking. The project includes requests for two concessions/incentives per State Density Bonus Law: (1) to provide 61 additional apartments beyond the 17 required under State Density Bonus Law, and (2) to allow for additional bedrooms. The project also requests the following development standard reductions per State Density Bonus Law: (1) to allow a four story development; (2) to increase the maximum height limit from 45 feet to 56 feet; (3) to allow the required common outdoor living space to be located above grade; and (4) to waive the 70% limitation on residential uses in the OC Zone.

Proposal for a three-story mixed-use development consisting of a boutique hotel, commercial space, and public art gallery. The project will comprise a voluntary lot merger of two lots at 302 & 308 W. Montecito Street (APNs 037-232-011 & 037-232-002). All existing development on the two lots, consisting of four residential apartments totaling 2,540 square feet and 517 square feet of office space, will be demolished. New development on this merged 18,927 square foot parcel will be a 56,302 square foot, three-story building containing a 16,447 square foot, 32-room hotel; 1,869 square foot commercial component; an 847 square foot public art and a 24,266 square foot subterranean parking garage with 52 parking spaces (42 spaces for on-site use and 10 spaces for a new development project to be constructed at 311 W. Montecito Street). 18 covered bicycle parking spaces will also be provided. There will be approximately 7,900 cubic yards of grading excavation. Planning Commission approval is required, as this project involves a Transfer of Existing Development Rights from the Sandman Hotel located at 3714-3744 State Street for 29 hotel rooms, and a Development Plan for commercial square footage allotments from the Minor and Small Additions categories on both parcels.

The structure is on the City's Potential Historic Resources List as contributing to the Castillo Street Historic District. Proposal for additions and alterations to an existing four-unit apartment building using the Average Unit-Size Density Incentive Program (AUD). The project proposes the demolition of an existing 760 square foot detached four-car garage, and the construction of 2,017 square feet of first- and second-story additions comprising four new dwelling units. The project also proposes a 1,538 square foot attached garage that will provide eight covered parking spaces using mechanical parking stackers, and includes new landscaping, and 20 cubic yards of cut and fill grading to be balanced on site. The eight units on the property will have an average unit size of 660 square feet, and the proposed density will be 37 dwelling units per acre using the Priority Housing Overlay on a 9,375 square foot parcel with a General Plan Land Use Designation of High Density Residential 28-36 dwelling units per acre. The total residential floor area is 4,791 square feet. The project includes Staff Hearing Officer review for requested Zoning Modifications to allow a second-floor deck to encroach into the interior setback and for a common open yard area that does not meet minimum 20' x 20' dimensions.

Proposal for a new residential project using the Average Unit-Size Density Incentive Program. The project will comprise the demolition of an existing one-story single-family dwelling, detached garage, and a shed totaling 1,453 square feet and the construction of a 2,871 square foot multi-family apartment building housing three residential units. The unit mix will be three, two-bedroom units ranging from 622 to 955 square feet with an average unit size of 800 square feet. The proposed unit density on this 5,750 square foot parcel will be 23 units per acre on a parcel with a General Plan land use designation of Medium High Density 15-27 dwelling units per acre. Also proposed are three one-car garages totaling 648 square feet. There will be approximately 15 cubic yards of grading excavation.

Proposal for one new dwelling unit using the Average Unit Density Incentive Program (AUD). The proposal is to demolish an existing 270 square foot detached garage and construct a new 318 square foot detached one-car garage with workshop and 92 square foot entry and stair leading to a 310 square foot studio apartment on the second floor. Total square footage of this new structure would be 720 square feet. Also proposed is one uncovered parking space. An existing 926 square foot 1-story dwelling unit at the front of the parcel would only have a very minor alteration at the rear. There will be 17 cubic yards of grading excavation and 11 cubic yards of gravel fill, with two small fruit trees removed. The residential mix will be one 2-bedroom unit and one studio unit, with an average size of 664 square feet. The proposed density on this 4,200 square foot parcel will be 27 dwelling unit per acre on a parcel with a General Plan land use designation of Medium-High Residential 15-27 dwelling units per acre. Staff Hearing Officer approval is required for zoning modifications to encroach into the interior and rear required setbacks.

This is a revised project description. Proposal for a revision to a previously approved residential project (MST2016-000174) using the Average Unit-Size Density Incentive Program. This proposed revision consists of the conversion of an approved 400 square foot garage into an additional dwelling unit. The revision will add one additional unit, bringing the total number of units to 12 with an average unit size of 1,231 square feet. The proposed density on this 41,479 square foot parcel will be 13 dwelling units per acre on a parcel with a General Plan designation of Medium-High Density Residential (15-27 dwelling units per acre). This project will address violations identified in enforcement case ENF2014-00343.

Proposal to convert an existing single family dwelling unit to a two-sleeping unit hotel on a 5,025 square foot parcel in the C-M Zone. Existing development on the site consists of a two-story, 1,568 square foot, two-bedroom residence with two uncovered parking spaces. There will be no new floor area and no changes to the exterior of the building. This project will require Development Plan Approval findings for conversion of residential use to commercial use. Minor alterations are proposed to the existing fence to improve parking visibility on the site.

This is a revised project description using the Average Unit Density Incentive Program [AUD] project. The proposal still includes 24 residential apartments comprising 20,275 sq. ft. of living area, 9,170 sq. ft. of subterranean garage area, and 1,504 sq. ft. of private garage space, for a total of 30,949 sq. ft. The unit mix includes 19, one-bedroom and five, two-bedroom apartments ranging from 649 to 1,411 sq. ft., with an average unit size of 833 square feet. The revisions to the project include changes to the floor plan, exterior fenestration of Building 1, building footprint, and building height. The parking garage size was increased to provide additional parking, including accessible parking spaces and added storage for residents. The building footprints of Buildings 2 & 3 have not changed. Building 2 has a reduced unit count, from three to two. There will be 2,970 cubic yards of grading excavation and 19 trees will be removed, with five trees to be relocated on site, 16 trees to remain, 35 new oak trees [seventeen on-site and 28 off-site], and 50 new ornamental trees. Under AUD, the proposed residential density is 27 dwelling units per acre, with an average unit size of 833 sq. ft. A maximum density of 27 dwelling units per acre is allowed on this 40,055 sq. ft. parcel with a Medium-High Density Residential General Plan Land Use Designation.

Proposed conversion of an existing 10-unit three-story apartment complex to an eight unit condominium development by combining four of the existing units into two new units. The project will not change the square footage of 9,465 square feet of living space, 3,557 feet of carport, and approximately 1,844 square feet of deck area on the 14,356 square foot lot. Project also includes accessibility improvements for the ground floor and installation of new landscaping. No grading is proposed. A modification is requested to not allow the required two guest parking spaces.

Proposal to convert one (500 s.f.) unit of an existing residential duplex to a "vacation rental" commercial use. The resulting project will be a mixed use project involving one, 1300 s.f. residential unit (to remain) and one 500 s.f. commercial unit. No exterior alterations are proposed to the existing buildings. Parking is provided by a two-car garage to remain. Minor patch and repair work is proposed to the existing driveway and expansion of the curb-cut. Proposal will address violations of the enforcement case ENF2015-00572.

This is a revised project description. Proposal for a new multifamily development using the Average Unit Density Incentive Program (AUD). The project includes a 1,577 square foot, one-story addition to an existing 1,136 square foot, one-story single-family dwelling, resulting in a 3-unit apartment building. An existing carport and shed foundation will be removed, the existing driveway will be replaced with permeable pavers, and three uncovered parking spaces will be provided at the rear. Also proposed are new decks and six covered bicycle parking spaces. The unit mix will comprise two, one bedroom units and one, three bedroom unit, with an average of 518 square feet. The proposed density on this 5,000 square foot parcel will be 26 dwelling units per acre with a General Plan land use designation of 37-63 dwelling units per acre in the Priority Housing Overlay. There will be no grading. One tree is proposed to be removed from the rear yard.

The project has been revised in response to concerns expressed by the City Council at the December 8, 2009 appeal hearing. The project consists of the demolition of an existing 392 square foot single-family residence, and the construction of a sustainable, 4,320 square foot, three-story, mixed-use building. The proposal will result in two residential condominiums and two commercial condominiums, with an on-grade parking structure, including 6 parking spaces. Bicycle parking and a changing room are provided within the garage structure. The residential units are 1,257 square foot, two-bedroom, and three-story units at the rear of the lot. The commercial units total 958 square feet and are located on the first and second floor adjacent to the street. The proposal includes 2,015 square feet of green roof and upper level landscape plantings.

The proposed project involves interior and exterior alterations to convert an existing commercial complex to a mixed-use project. The proposal includes an interior remodel and alterations to the rear portion of the building including converting 1,240 square feet commercial space on the second-floor to two residential units; a one bedroom and a studio unit, and exterior alterations including window and door changes and new Juliet balconies. The proposal also includes an interior remodel and alterations to the one-story portion of building at the front of the property, including the removal of two existing trellises, exterior alterations including window and door changes and new private patios over the existing rooftop of the breezeway for the residential units. Site alterations proposed include a new trash enclosure, new covered bicycle storage, a revised parking layout, landscape changes, removal of two trees and removal of an existing driveway gate. No new square footage is proposed. Staff Hearing Officer review is requested for zoning modifications to allow the alterations in two required interior setbacks.

This is a revised project description. Project has been revised as follows: Proposed height of project has increased from 35'-6" to 36'-7", units have been reconfigured and reduced in number from six to five, outdoor space has been reconfigured, and the exterior façade has been altered. The entire proposal consists of the demolition of the existing gas station and service bays and the construction of a new three-story, mixed-use building on an 18,196 square foot lot. The 18,595 square foot building would include 4,800 square feet of commercial space on the ground floor and 13,795 square feet of residential space on the second and third floors. The residential component includes two, three-bedroom units, and three, two-bedroom units. A total of 36 parking spaces are proposed. A total of 11,000 cubic yards of cut and fill is proposed. The project requires compliance with City Council Resolution No. 08-084.

This is a revised project description for a project using the Average Unit Density Incentive Program (AUD): Proposal for a new four-story mixed-use building on a 10,865 square foot vacant parcel adjacent to Plaza Vera Cruz. The project includes 15 two-bedroom, two-bathroom residential units and approximately 988 square feet of commercial space. Sixteen covered parking spaces will be provided on the ground level. Residential units will be on the second, third, and fourth floors. The proposed building height is 45 feet, with a 457 square foot rooftop deck. The proposed residential density is 61 dwelling units per acre, with an average unit size of 827 square feet. A maximum density of 63 dwelling units per acre is allowed on this parcel with a General Plan Land Use designation of Medium-High Density within the Priority Housing Overlay area.

Proposal for a multifamily residential project using the Average Unit Density Incentive Program (AUD). The proposal includes a legal change of use and the conversion of 1,249 square feet of second floor garage office space (addressed at 232 Cottage Grove Avenue) to a new residential unit. An existing half bathroom in the garage for 232 Cottage Grove Avenue will be converted to a 25 square foot laundry room. A new uncovered outdoor living space on the second floor will connect the front existing structure with newly-converted rear structure. Units A and B at 228 Cottage Grove Avenue will remain unchanged at 579 square feet and 375 square feet, respectively. Five legal, covered detached parking spaces will remain. The proposed density on this 6,241 square foot parcel will be three dwelling units per acre on a parcel with a General Plan Land Use designation of Medium-High Density 15-27 Dwelling Units per acre. The average unit size will be 734 square feet. No grading or new square footage is proposed. This project requires a Waiver to not screen the private outdoor living space within the remaining front yard.

-----------------------	--------------------	----------------------	----------	------------

Proposal for a change of use of the existing non-conforming 428 square foot single-story building located within the required 35 foot front setback from accessory to single-family use. A portion of the building was permitted as a workshop and storage building at 402 square feet but is actually 428 square feet. Construction of a new 361 square foot two-car carport is also proposed. Zoning Modifications are requested to allow the conversion of the workshop/storage to be converted to a single-story residential unit and for the construction of a new two-car carport located within the required front setback. Other site improvements include the demolition of structures within the required setbacks. The proposal will address violations listed in ENF2015-00314 and ZIR2015-00535. The proposed total of 809 square feet on a 25,177 square foot lot in the Hillside Design District is 18% of the guideline maximum floor to-lot-area ratio (FAR).

Proposal for conversion of seven existing residential apartment units to six condominium units. The two parcels totaling 19,836 square feet contain five one- and two-story buildings consisting of three duplex apartment buildings, one single-family apartment above a four-car carport, and a detached two-car carport. This would be reconfigured by combining two apartments in the westernmost building into one unit, constructing a new two-car carport attached to the existing four-car carport, conversion of the existing detached two-car carport to storage for three units and constructing attached storage spaces for the other three units. Proposed are five two-bedroom units ranging from 839 to 989 square feet and one 1,132 square foot three-bedroom unit. New landscaping is proposed and parking would be provided in the six carport spaces and six existing uncovered parking spaces plus one new uncovered guest space. Planning Commission approvals are requested for a Tentative Subdivision Map, a Condominium Conversion Permit, and modifications for front and interior yard encroachments.

This is a revised project description. Proposal for a new mixed-use building using the Average Unit Density Incentive Program (AUD). The project includes the demolition of an existing 8,368 square foot non-residential building and construction of 41,187 square feet of development, including a 45-foot tall four-story mixed-use building with an underground parking garage and one detached two-story residential unit, all on a 33,910 square foot lot. The project consists of 631 net square feet of commercial floor area and 46 residential units (comprising 13 studio units, 30 one-bedroom units, and 3 two-bedroom units) totaling 36,502 square feet plus ancillary space (lobby, office, storage, community room). Parking would consist of 11 spaces at-grade and 40 spaces underground for a total of 51 parking spaces; 48 bicycle parking spaces are also proposed. Vehicular access would be provided from Hope Avenue, and a four-foot sidewalk dedication would be granted. Approximately 6,900 cubic yards of grading excavation is anticipated for the underground garage. The project proposes a 45-foot setback from the top-of-bank of Arroyo Burro Creek to the first floor of the development, with the second, third and fourth floors cantilevering out up to 13 feet beyond that (closer to the creek). The project also includes creek restoration and more than 13,000 square feet of open space. The proposed density will be 60 du/ac with an average unit size of 794 square feet.

Proposal by the Housing Authority of the City of Santa Barbara for a new, four-story affordable housing development for very-low and low income senior residents on a vacant 1.76 acre lot adjacent to Arroyo Burro Creek. The proposal would be developed under the City's Average Unit-Size Density (AUD) Incentive Program and the City's Density Bonus Program with a proposed density of 51 dwelling units per acre. The project includes 89 studio apartments, one-bedroom manager's unit, kitchen, dining facilities, storage, and common areas (lobby/reception area, conference room, offices, gift shop, salon, and gym). The total building area is 52,516 square feet (gross). The average unit size is 347 square feet. The proposal includes 30 uncovered vehicular parking spaces and 5 bicycle lockers. The Planning Commission approved a Front Setback Modification to allow the building to encroach into the required front setback (based on AUD requirements for R-3); an Interior Setback Modification to allow uncovered parking to encroach into the required interior setback (based on AUD requirements for R-3); a Lot Area Modification to allow 90 residential units instead of 47 residential units on the subject property; and a Parking Modification to allow 34 vehicle and 5 bicycle parking spaces instead of the required 90 vehicle and 90 bicycle parking spaces required for AUD projects. Council approved the Amendment to the Rancho Arroyo Specific Plan to allow Community Benefit Housing and Recreation/Open Space as the uses in Area A-2, a Zone Change to Rancho Arroyo Specific Plan Area A-2 from E-3/PD/SP-4/SD-2 (One-Family Residence, Planned Development, Rancho Arroyo Specific Plan and Upper State Street Area Overlay) Zones to R-3/SP-4/SD-2 (Limited Multiple-Family Residence Zone, Rancho Arroyo Specific Plan and Upper State Street Area Overlay) Zones), and a further reduction in the number of parking spaces.

Proposal to construct a new 2,994 square foot, one-story, single-family residence with a 500 square foot, detached, two-car carport. The project includes a pool, spa, patios, new driveway and site paving, and landscaping. It also includes 750 cubic yards of cut and fill grading of which 150 cubic yards will occur outside of the building footprint. All grading will be balanced on the site. The proposed total of 3,290 square feet on a 1.37 acre vacant lot in the Hillside Design District is 62% of the guideline maximum floor-to-lot area ratio (FAR).

This is a revised project description. Proposal to construct a new three-level, 2,895 square foot, single-family residence including an attached, 442 square foot, two-car garage and basement located on a 10,145 square foot vacant lot in the Hillside Design District. The proposal includes a total of 498 cubic yards of grading, new site walls, a new pool, a covered loggia, and future ground-mounted solar system. The proposal is 77% of the maximum required floor-to-lot area ratio (FAR). The proposal for the new residence received Project Design Approval on December 1, 2014. The scope has been revised to include an expanded driveway area and new retaining wall of up to 11 feet tall in the front yard. The project includes an Administrative Exception to allow the new retaining wall to exceed 8 feet in height within the interior setback.

Proposal to demolish an existing 887 square foot single-family residence and 400 square foot garage and construct three new residential condominiums consisting of two one-bedroom units (1,318 and 1,090 s.f.) and one two-bedroom unit (1,448 s.f.). The project will result in a three-story 3,856 square foot structure with 1,143 square feet in garages on a 6,000 square foot lot located in the Non-Appealable Jurisdiction of the Coastal Zone. A design waiver is requested to allow a garage to be located within three feet of the interior property line. The project received Planning Commission Approval on 9/3/09 for a Tentative Subdivision Map, Coastal Development Permit, and requested zoning modification to allow an encroachment into the required front setback (Resolution No. 033-09).

THIS IS A REVISED PROJECT: The Planning Commission approved a 13 unit condominium project which included a lot merger; demolition of a duplex and detached garage; demolition of a single-family residence and attached garage; construction of nine new three-bedroom units and one new two-bedroom unit in three new buildings; addition to the existing apartment building; and remodel and conversion of the apartment building into two, three-bedroom and one, two-bedroom condominiums. Westmont College is proposing a revision to the approved project. The project has been changed to demolish the existing four unit apartment building that was to be converted and build three new condominiums in two separate buildings, with the same bedroom count as the approved project. Parking for the converted apartment building will be provided with one uncovered and five covered spaces in the existing carport, and parking for the 13 newly-constructed units would be provided with two-car garages attached to each unit. Three guest parking spaces will also be provided. The proposed development will total 26,418 square feet on the 32,550 square foot lot. Two of the two-bedroom units would be provided to middle income households using a target income of 130% of Area Median Income (AMI), consistent with the Inclusionary Housing Ordinance. Requires Planning Commission approval of a revised Tentative Subdivision Map.

Proposal for a new multi-family development using the Average Unit Density Incentive Program (AUD). The proposal will include the demolition of 1,408 square feet of impermeable paving and 158 lineal feet of fencing and the construction of a two-story duplex with an attached, 743 square foot, three-car garage at the rear of the site. An existing 1,428 square foot, one-story, three bedroom dwelling unit at the front of the site will remain unaltered. The unit mix will include one, 3-bedroom unit and two, 2-bedroom units totaling 3,097 square feet, with an average unit size of 1,032 square feet. The proposed density on this 6,664 square foot parcel will be 20 dwelling units per acre on a parcel with a General Plan land use designation of Medium-High Density Residential, 15-27 dwelling units per acre. The proposal also includes removal of one 47' tall palm tree, one 12' tall Pittosporum tree, and a 64 foot long hedge encroaching onto the public alley. Grading will comprise 10 cubic yards of excavation and 60 cubic yards of fill dirt. This parcel is located within the Lower Riviera Special Design District.

Proposal to construct a mixed-use condominium development in three three-story buildings on a 21,756 square foot lot in the C-2 Zone. The proposal includes a 1,138 square foot commercial condominium unit, five live-work units with commercial square footage, and three residential-only units, for a total of 8 residential units. The five live-work units include a range of 328 to 349 square feet of commercial area per unit. Square footages for the project include 3,195 square feet of commercial space, 13,745 square feet of residential space, 3,599 square feet of garage space, and 2,566 square feet of deck area. Total building footprint area is 9,545 square feet. 26 parking spaces are proposed, with 16 residential and 10 commercial spaces. Project requires Planning Commission Approval for a Tentative Subdivision Map and a parking modification to provide 10 commercial parking spaces rather than the 11 required commercial spaces and for the two required residential guest parking spaces to be shared with the 10 commercial spaces.

01/27/10 - Applicant requested a substantial conformity determination to remove the curb extension @ the corner of Milpas and De la Guerra Streets. This is a Level III SCD.

This is a revised proposal. Proposal for two new uncovered parking spaces to serve a 497 square foot accessory space to be converted into a secondary dwelling unit. No exterior changes are proposed for the accessory space. The proposed parking and new dwelling unit are located on a 17,583 square foot lot in the Hillside Design District with an existing 3,463 square foot single-family residence and detached 1,073 square foot accessory building. The accessory building consists of a 576 square foot two-car garage and the aforementioned accessory space. The project requires Staff Hearing Officer review for a requested zoning modification. The proposal for the accessory dwelling unit requires a Performance Standard Permit and includes a voluntary lot merger with an adjacent 3.74 acre vacant lot.

Proposal to add a 937 square foot second story single-family dwelling on an existing 942 square foot single-family dwelling with attached new 376 square foot two-car carport. An existing 908 square foot three-car garage will be demolished. Also proposed on this 5,300 square foot parcel is a 112 square foot deck on top of a portion of the new carport, two uncovered parking spaces, and minimal grading to be balanced on site. The maximum building height will be 29.5 feet and the total floor area will be 1,895 square feet. This project requires Staff Hearing Officer review of a zoning modification.

Proposal for a five-unit condominium development consisting of two 3-story buildings. The project includes five, 3-story one- and two-bedroom residential condominium units ranging from 1,800 to 2,100 square feet in size. Each unit has an attached two-car garage and there are three uncovered parking spaces and a central auto court. A Voluntary Lot Merger is proposed to combine two parcels for the 11,761 square foot site. The project includes demolition of the two existing single-family dwellings at 927 and 933 Olive Street and 800 cubic yards of grading. Project received Planning Commission Approval on 9/13/07 (Resolution No. 037-07).

This is a revised project description. Proposal to demolish an existing 409 square foot detached 2-car garage and construct a one story, 750 square foot dwelling unit and 540 square foot 3-car carport. The carport will connect an existing 1,574 square foot dwelling unit at the front of the parcel to the new one at the rear, resulting in a duplex, on a 7,500 square foot parcel. A total of three onsite parking spaces will be provide. The project includes Staff Hearing Officer review for a requested zoning modification to provide three instead of the required four parking spaces. This structure is eligible for inclusion on the City's Potential Historic Resource List.

Proposal to demolish an existing 816 square foot single-family residence and detached garage and construct a three story five-unit apartment building under the Average Unit Density (AUD) Incentive Program. The project will consist of two studio units, two two-bedroom units, and one three-bedroom unit, all totaling 4,807 square feet, with an average unit size of 961 square feet. A total of five covered parking spaces will be provided in a ground level garage. All existing trees will be removed including a 30' tall Jacaranda in the front yard and six 8' to 12' fruit trees in the rear yard. No grading is proposed. The 5,000 square foot parcel is designated medium-high density, and is within the priority housing overlay area with a maximum average unit size of 970 square feet. This project addresses violations identified in Zoning Information Report ZIR2014-00421 and Enforcement Case ENF2014-00954.

This is a one-time, pre-application consultation for a revised residential project using the Average Unit-Size Density Incentive Program. The project will include the demolition of two existing residential units and an accessory structure totaling 1,636 square feet, and the construction of a 3,249 square foot building containing four residential units. The unit mix will be four, three-bedroom units ranging from 1,034 to 1,214 square feet with an average unit size of 1,108 square feet. The proposed density on this 10,000 square foot parcel will be 18 dwelling units per acre on a parcel with a General Plan land use designation of Medium-High Density, 15-27 dwelling units per acre. Also proposed are five covered parking spaces and a total of 225 cubic yards of cut and 25 cubic yards of fill, of which 95 cubic yards will be outside of the building footprint and 50 cubic yards will be exported off site. A Substantial Conformance Determination is requested for an interior setback modification previously granted under Planning Commission Resolution No. 01-08.

Proposal for a new residential project using the Average Unit Density Incentive Program (AUD). The proposal includes demolition of an existing, detached, 720 square foot garage and 176 square foot shed and construction of a new 1,629 square foot two-story duplex. An existing single-family dwelling on site will remain unchanged and a new 2,108 square foot duplex will be constructed. The residential unit mix will include three, 2-bedroom units ranging in size from 675 to 909 square feet with an average unit size of 763 square feet. The proposed density on this 6,880 square foot parcel is 19 dwelling units per acre on a parcel with a General Plan land use designation of Medium-High Density 15-27 dwelling units per acre. There will be a total of three parking spaces provided, two in a 494 square foot, attached two-car garage, and one uncovered space. No grading is proposed. This project will address violations identified in Zoning Information Report ZIR2016-00345.

Proposal to construct three new 1,294 square foot, 3-bedroom condominium units and three new 282 square foot one-car garages within a new two-story building. Also proposed is to rehabilitate an existing 1,152 square foot, one-story, 2-bedroom dwelling unit and existing detached garage, and add a 300 square foot ground floor bedroom addition. The existing 302 square foot one-car garage will remain unchanged. Also proposed is 921 square feet of first- and second-story decks and patios. Total development for the site will be 4,884 square feet of residential floor area. Approximately 125 cubic yards of grading will be balanced on site. This project requires Staff Hearing Officer review for a tentative subdivision map and zoning modification.

This is a revised project description: Proposal for alterations to an existing low-income multifamily housing development on a 56,000 square foot parcel. The proposal includes permitting an as-built trash enclosure, adding 476 linear feet of new 7'-0" tall black vinyl chain link fence at the north and east property lines, and 494 linear feet of new wood fence at the interior of the site. Also proposed is parking lot asphalt repair and restriping of 594 square feet, three new ADA-accessible parking spaces and path of travel, restoration of the required common open space, and the conversion of an 875 square foot dwelling unit to a community room. Landscaping improvements will include the removal of two Canary Island pines trees, one Schefflera, one Ash tree, and one Privet tree ranging in height from 50' - 70'. A total of 44 parking spaces are required, with 54 proposed including three ADA spaces. This project addresses violations identified in enforcement case ENF2014-00633 and requires Staff Hearing Officer approval for encroaching into the required rear setback. An Administrative Fence Height Exception is required for an over-height fence.

Proposal to construct a 2,537 square foot, two-story single-family dwelling with an attached 471 square foot two-car garage. The proposal will add a third dwelling unit on a site currently developed with a 3,686 square foot duplex and 719 square feet of garage space. The project includes one additional uncovered parking space, a new driveway, alterations to a sandstone boundary wall, site work, new landscaping, addition of two new storage sheds totaling 110 sq. ft., and 10 cubic yards of grading excavation and fill to be balanced on site. The proposal will result in a total of 6,942 square feet of development on a 20,900 square foot parcel, with the three dwelling units proposed to be condominiums. Staff Hearing Officer review is requested for a Tentative Subdivision Map to create the condominiums. The original 1904 dwelling unit, which was approved to be changed to a duplex under application MST2014-00469, qualifies for designation as a Structure of Merit and is on the City's List of Potential Historic Resources. The sandstone boundary site walls, a Canary Island date palm, and a ficus tree have also been found to be historically significant. The Phase 2 Historic Structures/Sites Report prepared by Post/Hazeltine Associates determined that the proposed project would meet Secretary of the Interior's Standards for Rehabilitation and project impacts would be Less than Significant (Class III). Therefore, the project does not warrant review by the Historic Landmarks Commission.

Proposal to construct 13 new apartment units in a 13,323 square foot two-story building at the rear of the site near Via Lucero. The project consists of the demolition of 2,152 square feet of commercial structures from an existing nursery. The existing two-story commercial building fronting State Street will remain unchanged. The new apartment building will be attached to the existing 5,442 square foot one-story office building at the center of the site. The project includes two attached carports for 13 spaces, and a 262 square foot trash enclosure. Parking on the site will be reconfigured with 117 total spaces with 39 of the spaces provided on an adjacent parcel to the west with an off-site parking agreement. The entire site will be made accessible with a new ramp at State Street, a pedestrian lift at the center of the site, and right-of-way improvements at Via Lucero. Pedestrian sidewalk improvements were required at Via Lucero resulting in the proposed building and private outdoor living space for two units being too close to the right-of-way.

Revision to an 11 unit development currently under construction including the addition of a 2-car garage with 336 square foot second story bedroom and bathroom to be attached to Unit 6. The original project description is as follows: Proposal to construct five new 2-story and 3-story buildings for a total of 11 new residential units on two separate parcels: Lot 2: This 7,290 square foot parcel at 1120 Indio Muerto [APN 017-291-004] will be developed with two, 2-story buildings: Building B, a duplex with attached 1-car garage, and Building C, a 3-car garage with a second-story dwelling unit. Four covered and two uncovered parking spaces are proposed. Lot 3: This 34,189 square foot parcel at 1122 Indio Muerto [017-291-027] will be developed with three, 3-story duplexes and one 2nd-story duplex above an existing 12-car garage. These buildings D, E, F, and G, will range in size from 2,500 - 3,000 square feet. An existing duplex, concrete driveway, and storage shed will be demolished. There will be 11 covered and five uncovered parking spaces. Over both parcels, 46 trees are proposed to be removed, with 23 of them being non-native and located within the creek setback. Trees to be removed include five Mexican fan palms ranging from 24" to 36" in diameter, one Brazilian pepper at 6" diameter, five Avocados from 8" to 24" diameter, 13 Tipuana ranging from 8" to 18" diameter, three Redwoods from 8" to 14" diameter, three Queen palms at 14" diameter, one Fruit at 6" diameter, two Myoporum at 8" & 10" diameter, three Eugenia ranging from 8" to 10" diameter, one Olive at 30" diameter, six Pittosporum ranging from 10" to 14" diameter, and three Grevillea Robusta at 24" diameter. There will be 1,500 cubic yards of grading excavation and 200 cubic yards of fill dirt. This project will address violations identified in enforcement case ENF2014-00343.

The project site is 7.66 acres in size located in the Alta Mesa Neighborhood of the City. The project includes two components: the "Single Family Project" and the "Duplex Project" (MST2003-00620). The Single Family Project would merge and subdivide 5.73 acres into six (6) single-family residential parcels. Of the 5.73 acre site, 3.33 acres would be dedicated as open space. The residences would range from 3,525 to 4,517 square feet in size, with three-car garages, and swimming pools. A total of five (5) guest parking spaces are proposed. Estimated grading for the single family project would consist of 3,050 cubic yards (cy) of cut and 5,100 cy of fill outside the main building footprints. Grading within the building footprints is estimated at 4,705 cy of cut and 1,650 cy of fill.

This project has been revised to have a greater setback from the creek and one covered parking space is proposed to be uncovered and encroach into the interior setback. Proposal to demolish an existing single-family residence and construct a new three-story four-unit condominium building totaling 7,410 square feet including seven parking spaces in attached garages, and one uncovered space. Mission Creek crosses the rear of the property and the building is proposed to encroach into the front setback. Planning Commission approval of zoning modifications and a Tentative Subdivision Map was granted on July 17, 2014.

Proposal to construct a new one-story, 2,100 square foot single-family residence with an attached 400 square foot two-car garage, located on a 14,601 square foot vacant lot in the Non-Appealable Jurisdiction of the Coastal Zone. The proposal includes new site fences, walls, and retaining walls, and a total of 800 cubic yards of grading to be balanced on site. The proposed total of 2,500 square feet is 58% of the required floor-to-lot area ratio (FAR). This is a new parcel created as part of a recent subdivision application (MST2009-00083) approved by City Council (Ord. No. 5580) on February 14, 2012. A separate application (MST2012-00268) was recently approved for alterations to the existing single-family residence.

Proposal for new dwelling units, addition, and alterations using the Average Unit-Size Density Incentive Program (AUD) which will result in a total of eight dwelling units. The project comprises the demolition of an existing 840 square foot, 4-car carport, paving, and fencing, and the construction of three new dwelling units on a multi-family parcel. Five existing dwelling units located in Buildings A, B, and C [Units 1-5] will remain unaltered, with the exception of a 194 first story addition to Unit 2 in Building B. New Building D [Unit 6] will be a two-story dwelling unit with a 561 square foot, 2-car garage, 318 square feet of living area on the ground floor, 846 square feet on the second floor, and a 30 square foot second floor deck. New Building E [Units 7 & 8] will be a two-story duplex totaling 1,888 square feet with a 97 square foot second floor deck. There will be six covered parking spaces, two uncovered parking spaces, and eight bicycle parking spaces. Site work will include new walkways, fencing, the removal of an existing 40' tall Mexican fan palm tree, and new landscaping. This project will result in a total of 9,832 square feet of development on a 16,686 square foot parcel. Under the AUD program, the proposed residential density is 21 dwelling units per acre, with a maximum of eight dwelling units having an average unit size of 1,040 square feet.

The proposal includes subdividing an existing 13,500 square foot vacant parcel into three new lots and to construct a new three-story sustainable mixed-use building on each new parcel. The proposal includes a total of 4,074 commercial square feet and 7,113 residential square feet. Lot one includes 1,374 square feet of commercial area and a 1,658 square foot residential unit on a 4,760 square foot lot. Lot two includes 1,344 square feet of commercial area and a 1,616 square foot residential unit on a 5,070 square foot lot. Lot 3 includes 538 square feet of commercial area and a 2,552 square foot residential unit on a 3,670 square foot lot. A total of 10 parking spaces (four covered and six uncovered) are proposed for the project. The project requires Staff Hearing Officer review of a Tentative Subdivision Map and Development Plan Approval.

Proposal to demolish two existing commercial buildings totaling 5,520 square feet and an existing 1,850 square foot single-family residential unit and detached garage to construct a new three-story mixed-use building on two lots (630 and 634 Anacapa St.) totaling 28,145 square feet. The new project consists of 4,955 square feet (net) of ground-level commercial space. Residential space is comprised of 8 studios, 13 one-bedroom units, and 9 two-bedroom units for a total of 30 units. A parking garage accessed from Ortega Street will provide 32 parking spaces. This is an Average Unit Density (AUD) Incentive Program Priority Housing project with a proposed density of 63 dwelling units per acre (du/ac) and an average unit size of 733 square feet. The project includes Staff Hearing Officer review for a zoning modification to allow the project to exceed the allowed density.

This structure is on the City's Potential Historic Resources List as a contributing resource to the proposed West Beach Historic District, formerly the 7-Up Bottling Plant. Proposal is to demolish 9,909 square feet of an existing 11,211 square foot commercial building and construct a 12,277 square foot addition, resulting in 13,579 square feet of residential floor area. The building would change use from commercial to residential, resulting in seven new three-bedroom residential condominiums. Zoning Modifications were approved for the encroachment of the existing structure into the front setback on Yanonali St. upon the change of use, and the encroachment of the van-accessible parking access aisle into the front setback on Los Aguajes. The maximum building height is proposed to be 33'-0". Sixteen parking spaces are proposed in seven private garages, two carports, and two uncovered surface guest spaces.

This is a revised project description. Proposal for a new, three-story, 41'-5" tall mixed-use development on a 91,000 square foot parcel located at the corner of W. Sola and Chapala Streets. The project will comprise 33 residential apartments (totaling 28,049 square feet) and two commercial units (895 square feet). The new building will total 61,456 square feet, including a 665 square foot exercise room and a 13,884 square foot partially below-grade parking garage. The parking garage will contain 41 spaces, and a surface lot will contain 50 spaces for a total of 91 spaces, with 33 spaces allocated to the residential units, two spaces allocated to the commercial units and 56 spaces allocated to the Arlington Theatre. Also proposed is the removal of nineteen mature trees, with twelve existing trees to be protected on site and six mature palm trees to be relocated on site. Grading excavation will total 3,400 cubic yards. A detached trash enclosure for the theater is proposed to replace an existing trash enclosure and will be constructed near the northwest corner of the Arlington Theatre. A waiver of parking lot interior planter requirements is requested. This parcel is within the 10% Parking Zone of Benefit and contains a designated Structure of Merit: "Arlington Hotel Garden Arch."

Proposal to add a new residential unit beneath, and to the rear, of an existing two-story single-family dwelling on a 7,174 square foot parcel. The new lower level floor area of 319 square feet will be attached to 483 square feet of remodeled existing basement space, resulting in an 819 square foot attached unit. The existing 1,629 square foot residence at street level will be altered at the rear to demolish an as-built deck and construct a new 281 square foot, partially-covered deck. The proposal includes two new uncovered parking spaces, permeable turf block paving, fencing, stairs, gate relocation, and minor door and window alterations. There will be 10 cubic yards of grading excavation.

Revised project. Proposal to construct a two-story, 2,006 square foot, single-family residence and an attached 440 square foot two-car garage. The previous residence was destroyed in the Tea Fire. The proposal includes the removal of five (5) existing trees, new site walls and decks, 264 cubic yards of site grading. The proposal includes Staff Hearing Officer review for requested zoning modifications. The proposed total of 2,446 square feet, located on a 6,880 square foot parcel in the Hillside Design District, is 84% of the maximum floor-to-lot area ratio (FAR). The prior design was three-stories and 79% FAR.

This is a revised project description: Proposal to demolish all existing buildings on the lot and construct a new, 20,426 square foot [net], 3-story mixed-use project. Buildings to be demolished include 1,682 square feet of commercial space and 6,189 square feet of residential space. New commercial floor area on the first floor will total 2,028 square feet, with a net gain of 346 square feet in the Minor Addition category. There will be 29 residential units on all three floors, with 1,409 square feet on the first floor, 8,780 square feet on the second floor, and 7,077 square feet on the third floor, for a total of 17,266 square feet of new residential floor area. A total of 37 parking spaces and 34 bike parking spaces will be provided on the ground floor. The maximum height of the building is 43'-2". Grading excavation of 20 cubic yards is also proposed. Under the Average Unit-Size Density Incentive Program [AUD], the proposed residential density is 63 dwelling units per acre, with a maximum of 63 units per acre [29 units] allowed on this 20,670 square foot parcel within the Priority Housing Overlay. The average unit size of the apartments is 595 square feet.

Proposal for a new 17,475 square foot, three-story six unit apartment building. The building consists of one 3-story, 3-bedroom unit and 20 parking spaces on the ground level. Above the parking level are four two-story five-bedroom units. Attached storage units and bicycle parking are provided on grade. A tree removal, bioswale, and retention basin are proposed. The 20,247 net square foot vacant project site was created through a lot split approved by the Planning Commission in 2005 with a development envelope and a limit of ten units. A 10-foot wide bike path easement, 25-foot creek setback, and a 50-foot railroad setback apply to this project. Preliminary Approval by the ABR in 2008 for a similar building containing nine units has expired. Minor architectural changes have been made by the new architect.

The proposed project includes a new two-story, six-unit affordable senior apartment building in the existing Second Baptist Church parking lot. Each new unit would have one-bedroom and 540 square feet of floor area. The lot is currently developed with a 2,265 square foot church and an existing two-story 2,319 square foot residential duplex. The project includes converting the 1,599 square foot ground floor duplex unit to church use. The existing 720 square foot second floor "care taker's unit" would remain. The seven resulting rental dwelling units would be price restricted for low income seniors. The project would result in 3,864 square feet of non-residential use and 3,960 square feet of residential use on the 24,872 square foot lot. Twenty (20) automobile parking spaces and four bicycle spaces would be provided. State Density Bonus concessions and incentives were requested to allow a six-unit building in the R-2 Zone, outdoor living space consistent with the R-3/R-4 Zone requirements, and parking in the front setback.

Proposal to convert an existing five-unit multi-family apartment complex into a new six-unit Average Unit Density Incentive Program (AUD) project. One existing 1,423 square foot residential unit will be converted into two units on a 10,221 square foot parcel with a Medium-High Residential Density General Plan designation. The unit sizes will be 907 square feet for Unit E and 516 square feet for Unit F. The maximum allowed average unit size is 925 square feet, and the proposed maximum average unit size is 648 square feet. Site alterations include a new 3'-0" tall, 4'-0" linear foot long garden wall and six new covered and secured bicycle parking spaces. A total of six parking spaces will be provided, with two spaces in an existing garage and four uncovered spaces. No exterior alterations are proposed to the existing building and no new floor area is proposed.

This is a revised project to include the addition of a new two-story 746 square foot garage and convert the existing, attached one-car garage at the existing residence to habitable space. Proposal for a lot line adjustment and modification of required lot area (due to slopes on the property) from existing parcels of 0.07 acres and 2.5 acres in size to parcels of 1.0 acre and 1.57 acres in size located in the Hillside Design District. Proposed Lot 1 is developed with a 5,426 square foot residence and (2) two car garages totaling 982 square feet. Proposed Lot 2 is currently developed with a one-car garage with a pool cabana of 540 square feet above and swimming pool. The revision to the project on Lot 2 includes enclosing 66 square feet of porch area on the existing cabana and the conversion of the existing 300 square foot garage below to habitable area resulting in a residence, construction of an 8' tall, 64' long privacy wall along the motor court, an 8' tall, 72' long retaining wall along the western property line and the construction of a 746 square foot garage.

Revised proposal to construct a new 525 square foot second story accessory dwelling unit above a new 623 square foot three-car garage on a 5,000 square foot lot. The proposal includes the demolition of the existing 317 square foot non-conforming garage, and a 25 square foot covered porch to the existing main residence, and a 32 square foot addition to the main residence. The project will result in an 876 square foot main residence, a 525 square foot new accessory dwelling unit and a new 623 square foot three-car garage. The project requires Staff Hearing Officer review for a requested zoning modification to provide less than the required 600 square feet of open yard and to allow the garage to encroach into the required 20 foot front-yard setback.

Proposal to construct a new seven unit apartment complex on an 11,375 square foot vacant parcel. The project comprises two, 2-story buildings. Building 1 will be 2,433 square feet in size and will house three units and Building 2 will be 3,248 square feet in size and will house four units. Seven uncovered parking spaces and seven bicycle parking spaces are proposed, as well as new site utilities and a landscape plan. Two 20 foot tall pepper trees and one 20 foot tall palm tree will be removed. There will be 250 cubic yards of grading, which will be balanced on site. Under the Average Unit-Size Density (AUD) Incentive Program, the density of the proposed project is 27 dwelling units per acre with an average unit size of 812 square feet.

This is a revised project description. Proposal to construct a new two-story attached 719 square foot, three-car garage with a 687 square foot residential unit above. The proposal includes the addition of a new one-story, 457 square foot master bedroom and additions to the first and second floor of the existing single-family residence totaling in 200 square feet. The site is already developed with an existing, 2,301 square foot, two-story residence. The proposal will include a total of three-covered parking spaces. A modification has been granted to allow for a parking reduction of one space for a total of three (3) parking spaces. The proposed site development is 4,405 square feet, located on a 20,900 square foot lot. The proposal includes the relocation of the driveway and a new curb cut. This structure is a potential historic Structure of Merit.

Proposal to demolish an existing church and two-story building and construct an affordable senior rental housing development on a 45,195 square foot lot. The project consists of a new 44,029 square foot (gross), three-story residential building with 57 one-bedroom units, a manager's unit, a 1,920 square foot community room, administrative office, and laundry facilities. The project site is located in the Priority Housing Overlay; therefore, under the AUD program a maximum of 63 units per acre is allowed. The average unit size is 489 square feet (net). Staff Hearing Officer review is requested for a zoning modification to allow less than the required number of parking spaces.

----------------------	--------------------	----------------------	-----------	------------

The proposed project consists of demolition of the existing 4,990 square foot motel at 3885 State Street and the 22,250 square foot existing two-story office/commercial building at 3887 State Street; and construction of a new four-story building with 4,469 square feet of new commercial office and retail space; 89 new apartment units with an average unit size of 804 square feet; and a new partially-subterranean 44,691 square foot parking garage with 134 parking spaces. The building would be approximately 136,077 square feet in area (including parking garage) and 45 feet tall. The project proposes a density of 63 dwelling units per acre, as allowed in the Average Unit-Size Density Incentive Program (AUD) Priority Housing Overlay. The project also includes 13 surface commercial parking spaces, 92 bicycle parking spaces, a swimming pool, roof deck, landscaping, grading consisting of 15,094 cubic yards of cut, and merger of the two existing parcels.

Proposal to convert an existing duplex into a new 3,454 square foot, three-story single-family residence with an attached 462 square foot two-car garage. The proposal includes an interior remodel of the existing 552 square foot basement and converting 54 square feet of existing basement crawl space into a new habitable floor area. Exterior alterations include eliminating the gable roof element at the front elevation, demolish and rebuild the 68 square foot front porch, demolish the existing 225 square foot second story deck and replace with a new 396 square foot second story deck, addition of new Juliette balconies, and door and window alterations. The proposed development total of 3,916 square feet, located on a 10,704 square foot parcel, is 103% of the floor-to-lot-area ratio (FAR) guideline for an (R-2) two-family residentially zoned parcel.

-------------------------	--------------------	----------------------	----------	-----

This is a revised project description. Proposal to demolish an existing 324 square foot two-car garage, an "as-built" 134 square foot building and an "as-built" outdoor fireplace at the rear of a 7,500 square foot parcel. Also, proposed is construction of a new 430 square foot two-car garage with a 591 square foot, one bedroom dwelling unit above with a 123 square foot deck on the second-level, 226 square feet of detached accessory space and an uncovered parking space. The existing 1,443 square foot single family dwelling at the front of the property is proposed to remain. This project will result in two dwelling units and 2,690 square feet of development. Staff Hearing Officer review is requested for a zoning modification to allow two covered and one uncovered parking spaces instead of the two covered and two uncovered parking spaces required. This project will address violations identified in Zoning Information Report (ZIR98-00088).

Proposal to demolish an existing 1,095 square foot, one story dwelling unit and construct a new 1,441 square foot, two story duplex (Building A) and new 935 square foot, two story dwelling unit (Building B) under the Average Unit Density Incentive Program. Three existing buildings, Building C, an 866 square foot, one-story dwelling unit, Building D, a 2,180 square foot, three story dwelling unit with attached one car garage, and a detached two car garage will remain unchanged. Two new uncovered parking spaces are proposed, resulting in a total of three covered and two uncovered parking spaces. One mature avocado tree will be removed. The average unit size will be 1,084 square feet, with a maximum average unit size allowed of 1,090 square feet. The 11,250 square foot parcel has a General Plan Land Use Designation of Medium-High, 15-27 dwelling units per acre. This project addresses zoning violations identified in enforcement cases ENF2015-00024 and ENF2015-00517.
