

Cabrillo Boulevard Bridge Replacement

Project Update: July 2016

Crews have finished removing the old bridge deck and support walls on the beach-side replacement of the Cabrillo Boulevard Bridge. Crews will not work on Monday, July 4th in observance of Independence Day.

Upcoming Work:

Throughout July, crews will continue installing piles to support the new bridge. Excavation and rock placement will occur near bridge support walls and downstream creek restoration. Large cranes and equipment will be onsite throughout the month.

Closures:

Throughout Stage 3, the beach-side of Cabrillo Boulevard will remain closed near the bridge. One lane in each direction remains open during daytime construction on the new mountain-side of the bridge.

To accommodate the work area, the left turns from Cabrillo Boulevard to Stearns Wharf (westbound) and on to Helena Avenue (eastbound) are prohibited. Businesses on Helena Avenue remain open with both pedestrian access and vehicle access from westbound Cabrillo Boulevard. Motorists can enter Stearns Wharf from State Street and eastbound Cabrillo Boulevard. Detour signs are in place to highlight access around the closures.

Other Projects:

As part of the Entrada de Santa Barbara project, street and sidewalk improvements on State Street and

Helena Avenue are now open for use.

Fall 2014 - Spring 2017:

The Cabrillo Boulevard Bridge Replacement Project includes a new bridge, enhanced Mission Creek banks, and improved pedestrian areas. Cabrillo Boulevard, surrounding businesses, parks, Stearns Wharf, and the Arts and Crafts Show will remain open throughout construction.
