Upcoming Construction Project

New Water Mains for Alameda Padre Serra Neighborhood

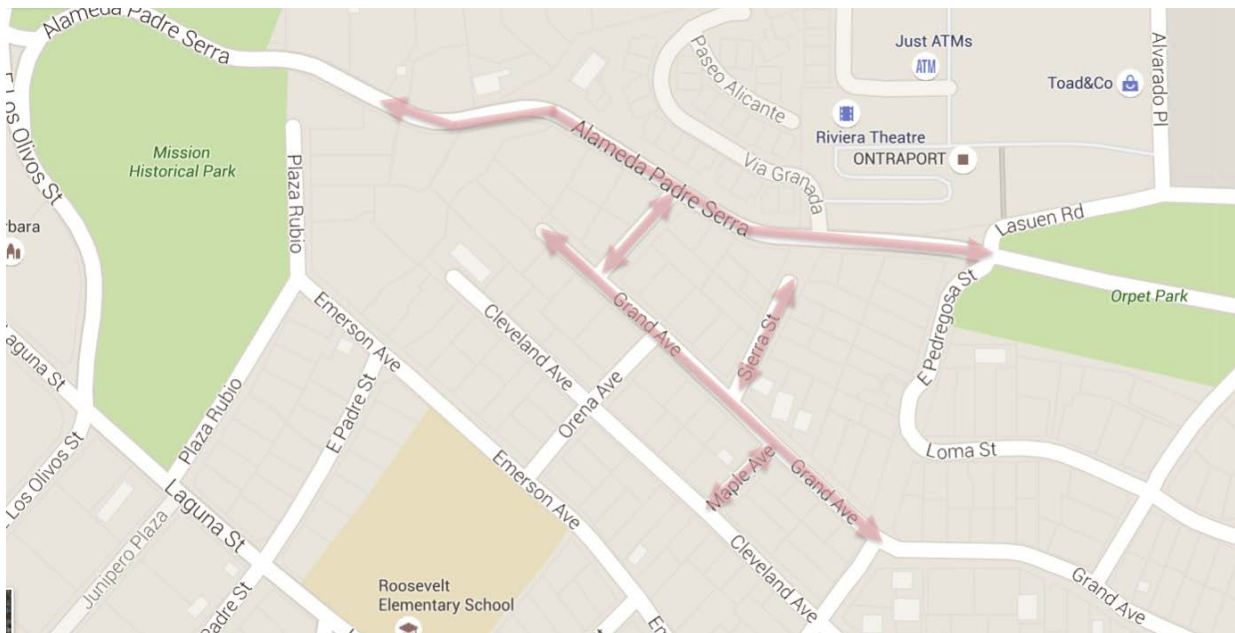

We are pleased to announce the following improvements in your neighborhood:

- PROJECT:** The City of Santa Barbara is replacing old water piping, valves, and hydrants to reduce water main breaks and conserve water.
- LOCATION:** Alameda Padre Serra, Maple Street, Grand Avenue, Sierra Street, Bonita Way
- PROJECT SCHEDULE:** June – August 2016
- WHAT TO EXPECT:** During construction, you will notice heavy equipment, construction workers, and traffic at the construction sites (see map). The City contractor will carry out necessary temporary traffic control measures, such as detours and reduced speed zones, to allow vehicles and pedestrians to safely pass the construction site.

You will be able to access your driveway, but there may be short delays as construction equipment is being moved. During construction hours, from 7:00 A.M. to 5:00 P.M., you can expect noise from construction vehicles and equipment. Your water service will be disrupted for a short time while you are being connected to the new water main. You will receive a letter or door hanger with details about the date and duration of the shutdown a minimum of three days in advance.

Project Contact: Mehdi Moussavian, Project Engineer, 805-897-2501, mmoussavian@santabarbaraca.gov
Información en Español: Laura Yanez, Ingeniera, (805) 897-2615, lyanez@santabarbaraca.gov

We appreciate your patience and cooperation while we are making these improvements.
