

Cabrillo Boulevard Bridge Replacement

Project Update: September 2016

Crews are making good progress building the bridge supports for the new beach-side of the Cabrillo Boulevard Bridge.

Upcoming Work:

Throughout September, crews will continue building concrete and steel support walls. Excavation of temporary fill dirt will also continue. Large cranes, concrete trucks, and equipment will be onsite throughout the month.

Later in October, the bridge deck will be delivered and craned into place for the new beach-side of the bridge.

Closures:

Throughout Stage 3, the beach-side of Cabrillo Boulevard will remain closed near the bridge. One lane in each direction remains open during daytime construction on the new mountain-side of the bridge.

To accommodate the work area, the left turns from Cabrillo Boulevard to Stearns Wharf (westbound) and on to Helena Avenue (eastbound) are prohibited. Businesses on Helena Avenue remain open with both pedestrian access and vehicle access from westbound Cabrillo Boulevard. Motorists can enter Stearns Wharf from State Street and eastbound Cabrillo Boulevard. Detour signs are in place to highlight access around the closures.

Fall 2014 - Spring 2017:

The Cabrillo Boulevard Bridge Replacement Project includes a new bridge, enhanced Mission Creek banks, and improved pedestrian areas. Cabrillo Boulevard, surrounding businesses, parks, Stearns Wharf, and the Arts and Crafts Show will remain open throughout construction.
