

City of Santa Barbara

ARCHAEOLOGICAL CONSULTANTS LIST

The following alphabetical list has been compiled by the Community Development Department of the City of Santa Barbara to assist applicants to the City's permit process in carrying out Phase 1, Phase 2 and Phase 3 Cultural Resources Studies in compliance with the City's Master Environmental Assessment (MEA) document and the California Environmental Quality Act (CEQA). The consultants on this list may have the capability to carry out one or all components (i.e., field survey, excavation, documentary research, photo analysis, report writing, etc.) of Phase 1-3 level investigations. For projects requiring monitoring of Native American sites, please use the City's separate Native American Monitors list. Placement on this list of archaeological consultants does not imply endorsement or recommendation of these consultants by the City of Santa Barbara. It is the responsibility of the applicant to contract for services which will fulfill the City's Phase 1-3 report requirements as specified in the MEA. Costs for any Phase 1-3 reports are not determined by the City of Santa Barbara but are to be negotiated by the consulting archaeologist and the contracting applicant. To be considered for placement on this list, please send a corporate vita or statement of qualifications which describes the academic credentials and Santa Barbara work experience of all principal investigators to: City Environmental Analyst, P. O. Box 1990 (630 Garden Street), Santa Barbara, CA 93102. (Consultants are listed alphabetically by business name.)
