Assessor's Parcel Number: 035-180-009
Application Number: MST2005-00021
Owner: King Heirs, LLC.
Owner: The Mesa at Santa Barbara, LLC.
Agent: Brent Daniels
Architect: Zehren and Associates

(See MST2003-00227 for master case. Proposal to construct a 3,525 square foot single family residence at 1706 LaVista Del Oceano (Lot 5) with a 704 square foot two-car garage on a 45,064 square foot lot in the Hillside Design District

(Preliminary Approval is requested for the architectural details and overall landscape plan.)

3:25

Mark Lloyd, Agent; Brent Daniels, Agent; Louis Robinson, Architect; Francis Racioppi; Architect and Laurie Romano, Landscape Architect, present.

Public comment opened at 3:37p.m.

Anthony Bladon, neighbor, stated that he is concerned with the visibility of the post and rail and believes it would be advantageous to move the pool back, which would create more privacy.

Public comment closed at 3:39p.m.

Motion: As to the Architecture: Preliminary Approval and continued indefinitely with the following comments and conditions: 1) The Board finds that the significant recess at the entry element and reduced roof plane height will create a significant shadow line creating a sense of two separate masses. 2) The stone material helps ground the architecture. 3) The site work and architectural undulation on the south east corner helps to mitigate the two story mass balcony portion of the kitchen. 4) The proposed color board is acceptable. As to the Site plan: 1) Continued indefinitely to the Full Board for Preliminary Approval. 2) The Board is concerned with the associated grading with the location and level of the proposed pool. Suggested alternatives are as follows: a) pull the pool closer to the house. b) eliminate the infinity pool edge. c) reduce the width of the pool. d) add additional low site walls. The goal is to help round off the top of the slope to create a planting edge at the southern end of the pool. 3) Provide additional canopy trees close to the house to bracket views. 4) The Board appreciates the hammerhead turnaround. As to the Fence: 1) The Board finds the fence to be acceptable.

Action: Wienke/Bartlett, 6/2/0. Manson-Hing, Mudge opposed.

Mark Lloyd, Agent; Brent Daniels, Agent; Louis Robinson, Architect; and Laurie Romano, Landscape Architect, present.

Public comment opened at 4:24p.m.

Ben Short, neighbor stated that having large trees, he will lose his ocean view. The ordinance for this zone requires smaller trees and Mr. Short is also concerned with the amount of trees being planted, as the area is in a high fire zone.

Anthony Bladon, neighbor, stated that he concurs with Mr. Short.

Public comment closed at 4:27p.m.

Motion: As to the overall landscape plan for the subdivision: Continued indefinitely with the following comments: 1) Introduce more trees to screen and mitigate the graded fill slope area. 2) Placement of the additional trees should be planted at least 15 feet from the building to soften the architecture and to bracket views. 3) The Board appreciates any additional trees between the layers of architecture to help layer the landscaping and the architecture. 4) The Board is concerned with the 2:1 grading of Lot 5. 5) The Board looks forward to natural undulation of the grading. 6) Introduce significant shrubbery and ground cover within the fenced areas.

Action: Mudge/LeCron, 6/0/0.

(Proposal to install 10 - 75 watt low level lights along the existing access road and electrical conduit for future electronic entry gates on a 5 acre lot located in the Hillside Design District.)

(PROJECT REQUIRES NEIGHBORHOOD PRESERVATION ORDINANCE FINDINGS.)**6:40**

Richele Mailand, Designer, present.

Public comment opened at 6:44p.m.

Tony Fisher, Attorney read a letter from Mrs. Pedersen (neighbor) which stated that the work hours begin very early in the morning and continue late into the night; sometimes seven days a week. The lights for construction are very bright and glare into her bedroom, and she has been told not to use the road, which is blocked with equipment and materials.

Tony Fisher, Attorney, stated that there is concern with the lighting and questioned if the lighting would be within the extensive retaining walls. Mr. Fisher requested that the construction design does not disrupt the flow of water in the area.

Mike Cahill, neighbor, requested an inspection of the site. The lighting is problematic as well as the proposed electronic gate. There are concerns with the building having a pitch roof, the placement of the garage, two meters on the property and the electrical plans. Mr. Cahill questioned if the retaining walls have been properly engineered. The area is in a high fire zone.

Nelson Lichtenstein, neighbor, stated that the proposed lighting is acceptable; however, he is concerned that traffic up and down the street could be problematic.

Public comment closed at 6:59p.m.

Motion: Continued one week to the Consent Calendar with the following comments: 1) The Board supports the general placement of the light fixtures. 2) The light fixtures will be a maximum 18 inch, low voltage and should be set in one direction to avoid light cast. It is understood that the lights are on a motion sensor. 3) Document the trenching within the driveway. 4) The Board reserves comment on the electronic gate at this time. Future reviews of the gate will be seen at Full Board under separate review. 5) The Board has some concerns with the ongoing construction of the project site.
