DISCUSSION ITEM – NEW ITEM: PUBLIC HEARING**1. LOWER RIVIERA SPECIAL DESIGN DISTRICT GUIDELINES**

Main Documents: Revised Draft of the Lower Riviera Special District Guidelines

Location: Lower Riviera Special Design District

Applicability: The Design Guidelines will assist property owners, architects, contractors, and design review boards to design projects that will be appropriate, compatible, and beneficial to the Special Design District.

Staff: Jack Jacobus, Associate Planner/Urban Historian

(The purpose of the establishment of the Special Design District and of these Guidelines is the preservation of the unique character and style of the Bungalow Haven Neighborhood, while the historic district proposal is being considered by the City.)

(RECOMMENDATION FOR CITY COUNCIL ADOPTION OF THE GUIDELINES AND INCORPORATING ABR COMMENTS IS REQUESTED.)

(3:27)

Present: Jake Jacobus, City's Urban Historian, provided an update of the Lower Riviera Special District, and offered clarification about the pending historic district's noncontiguous boundaries. Jaime Limon, Design Review Supervisor, was also available to provide further clarification and answer questions from the Board.

Public comment opened at 3:30 p.m.

Joseph Rution, Bungalow Haven Neighborhood Association, in favor.

Cheri Ray, resident, in favor.

Public comment closed at 3:33 p.m.

Board Comments (condensed):

(Wienke) Portions of the document do not provide leeway for the flair of artistic elements.

(Manson-Hing) The document is helpful, staff's efforts are appreciated.

(Mosel) If the document is to become a part of the Ordinance, the language of the document should be stronger regarding required architectural styles to preserve neighborhood character.

(Sherry) The document should be open to interpretation in order to allow opportunities for architectural creativity.

(Bartlett) The document illustrates only 5 architectural styles for reference; however, the district is comprised of many styles and combinations of styles. The document does acknowledge that the special district is different from the historic zone.

(Mudge) A check list, similar to the hillside design guidelines checklist, would be beneficial in determining whether projects are in compliance with parameters.

Motion: Recommend City Council adoption of the Lower Riviera Design Guidelines as presented, with the comment that staff shall develop applicant and Board compliance check lists.

Action: Wienke/Manson-Hing, 7/0/0. Motion carried. (LeCron absent.)

1) The applicant is to further study offsetting the wall planes, especially on the west elevation, so that the plan reflects the vertical wall breakups on the exterior elevation. 2) Provide a true off-set where the stair is flush with the wall and with the siding underneath, to provide a true offset. 3) The break up of the main roofs is mostly successful; however, the applicant is to study simplifying the lower eyebrow entry-roof

elements of the entry. Consider a post at the corner to simplify the roof connection. **4)** Study the window proportions so that the windows appear more vertical, rather than horizontal, in keeping with the style. **5)** Increase the dimension of the upper level of the second floor bedroom at the east elevation. **6)** Increase the mass of the wing wall at the far south side of the west elevation at the reveal of the living room of Unit #1. **7)** Maximize landscape opportunities, especially in the front yard setback, by reconfiguring the front entry from the street, and eliminating the lateral sidewalk connection to the driveway.

David Tait, neighbor, opposed to the project as presented.

Robert Pretsch, neighbor, opposed to the lack of back yard open space.

Public comment closed at 8:20 p.m.

Motion: Continued three weeks to the Full Board with the following comments:

1) The Board carried forward the following comments from the meeting of July 10, 2006*: *1. Restudy the mass, bulk, scale and square footage as they appear to be excessive given the small corner lot configuration; *2. The Board can not support a modification having all of the open yard space within the front setback along Fellowship; *4 The Board is in support of legalizing the existing nonconforming duplex, but is concerned with the relationship of the two-story residence located 6-feet from the adjacent structure which will remain; *6. Study building second-story components into apparent attic space to reduce the height and mass of the building. **2)** The Board finds that the architecture is handsome, although the program and apparent mass, bulk, and scale are excessive for the corner lot. **3)** The applicant is to: **a.** Reduce the overall scale and study the relationships such that it has an entry apparent off the street front. **b.** Provide more open yard space beyond front setback lines; **c.** Continue to study the interrelationship of the house and remaining structure to the east side; and **d.** Provide a north elevation.
