Presenters: Michael Holliday, Architect; Steve Fedde, Seris Regis; Karen Ramsdell, Landscape Architect, Van Atta Architects; Dave Osborne, Architect.

Public comment opened at 3:45 p.m. As no one wished to speak, public comment was closed.

The Board discussed the proposal and had the following individual or collective comments:

1) The LEED Silver Certification, the low building heights, the pedestrian walkability, and landscaping were appreciated; 2) There was concern with the appearance of excessive hardscape. It was suggested reduce the overall building footprint by having some two-story buildings, to gain more landscaping; 3) There was concern with the green screen concept; 4) Installing solar panels on more or all units was suggested; 5) Restudy the tower elements; 6) Consider different colors or materials for the "box" features of the buildings; 7) Study the feasibility of using permeable paving; 8) Consider using more regional materials such as stone and wood; 9) The galvanized pipe water retention feature is not suited to the new architectural style; 10) It was suggested that a soil study be conducted.

No action taken.

(Appeal of Denial at Sign Committee. The proposal presented to the Sign Committee was for three new aluminum wall signs with halo lit channel letters: one 32.63 square foot wall sign on the front entrance north elevation, one 24.16 square foot wall sign on the east elevation, and one 24.16 square foot wall sign on the north elevation. The building frontage at main point of entry is 122 linear feet. The maximum allowed sign area is 90 square feet. The proposed signage is 80.95 square feet. )

**(Sign Appeal)**

(4:25)

Present: Neil Dipaola, Applicant; Mike Shotsberger, Ruth's Christ Steak House.

Staff comments: The requested exception for over-height letters appears to be over the maximum height according to new guidelines. The total requested signage of 80.95 square feet is allowed per the City Sign Ordinance; however, it is over the maximum 75 square feet allowed by the La Cumbre Plaza Tenant Design Guidelines.

Sign Committee Representative Zink: Neither the City Ordinance nor the La Cumbre Plaza Guidelines allow neon signs.

Sign Committee Representative Aurell: At the last meeting, the Sign Committee's main concern was that the two corner signs are not way finding signs as they do not relate to the entrance, they appear to be advertising.

Public comment opened at 4:45 p.m. As no one wished to speak, public comment was closed.

Straw vote: how many Board members have a problem with the logo as part of the sign? 4/1/0.

**Motion: Final Approval of the project with the following conditions:**

- 1) Relocate wall sign C to the center of the parapet above the awnings, at the interior of the mall, as documented on the plans (Sign C does not have the "US Prime" logo).
- 2) Remove wall sign B.
- 3) Sign A, without the "US Prime" logo, is approved as submitted; the logo is not approved as submitted. The applicant may return for Review After Final if the logo is designed in a material other than plastic.

Action: Mudge/Mosel, 4/0/0. Motion carried. (Aurell and Zink stepped down. Manson-Hing and Sherry absent.)
