CEQA Guidelines §15183 Exemptions (Projects Consistent with General Plan). Under this California Environmental Quality Act (CEQA) Guidelines section, projects with new development (new nonresidential square footage or new residential units) qualify for an exemption from further environmental review documents if (1) they are consistent with the General Plan development density evaluated in the 2011 General Plan Program Environmental Impact Report, and (2) any potentially significant project-specific impacts are addressed through existing development standards. Section 15183 exemptions are determined by staff based on a preliminary environmental review process. A decision-maker CEQA finding is required for a Section 15183 exemption. City Council General Plan environmental findings remain applicable for the project.

(Proposal to construct 13 new apartment units in a 13,323 square foot two-story building at the rear of the site near Via Lucero. The project consists of the demolition of 2,152 square feet of commercial structures from an existing nursery. The existing two-story commercial building fronting State Street will remain unchanged. The project includes two attached carports for 13 spaces, and a 262 square foot trash enclosure. Parking on the site will be reconfigured with 117 total spaces with 39 of the spaces provided on an adjacent parcel to the west with an off-site parking agreement. The entire site will be made accessible with a new ramp at State Street, a pedestrian lift at the center of the site, and right-of-way improvements at Via Lucero. Pedestrian sidewalk improvements were required at Via Lucero resulting in the proposed building and private outdoor living space for two units being too close to the right-of-way. Staff Hearing officer review of zoning modifications is requested for the building to encroach into the SD-2 setback and for the private outdoor living space to be less than 10 feet from the front lot line.)
