PROJECT DESCRIPTION: Review After Final is required for in-field changes to the approved landscape plan for the Montecito County Club. Changes include retaining 10 trees scheduled for removal, removal of 78 existing trees originally scheduled to be retained, planting of 300 additional new trees, and relocation of 8 trees. The Montecito Country Club designed in 1918 by Bertram Goodhue and remodeled in the 1920s is on the City's List of Potential Historic Resources as it is eligible for designation as a Structure of Merit. A Substantial Conformance Determination is required to be made for this revision by the Community Development Director.
