PROJECT DESCRIPTION: Proposal for renovation and alterations to Dwight Murphy Field, including conversion of an existing grass soccer field to artificial turf with new fencing and lighting, replacement of existing buildings with restrooms at a new location, and accessible pathways. Additional new amenities include a fitness area, youth baseball field, picnic areas, and a universally accessible playground. The project will also involve the conversion of Park Road to primarily one-way circulation with angled parking, and redesigned park entries. Planning Commission review is required for a Coastal Development Permit.
