- A. P. N. 031-202-008
- A. P. N. 031-202-014
- A. P. N. 031-202-015

DEMOLITION NOTES:

1. Contractor shall consult with owner and all representatives for all aspects of the demolition. It is the obligation of the contractor to remove gravel, dirt, and any remaining trace of plants in the plan. All materials shall be removed at the conclusion of the project. Hardscaping, vegetation, and grading measures shall be completed as per the plan.

2. All construction, grading, vegetation, and hardscaping work to be completed by 10th of July, 2019. Completion of work will be measured by the measures as prescribed on the grading plan.

3. Contractor shall remove all trees and vegetation, including but not limited to Geraniums, Nicotiana, Acanthus, Agave, Senecio, Agapanthus, Washingtonia Robusta, and Syzygium Paniculatum. Ficus Carica shall be removed to the extent as prescribed on the grading plan. All utilities and water lines on site shall be protected at all times and removed by the 10th of July, 2019.
