Straw vote: How many Board Members can support the project with fiber-glass doors? 5/2 Passed

**Motion:** Project Design Approval with return to Full Board with comments:
1. The detail list shall include, but not be limited to, the following details.
2. Provide fully detailed cable railing with special attention paid to corners, stair transitions, and any connections to the building.
3. Coordinate the cap railing detail so that it matches the sample.
4. Provide typical door window details.
5. Provide second-floor walkway edge detail and clarify if the existing surface is to be replaced.
6. Provide stair tread detail.
7. Provide typical roof detail, including the ridges, eaves, gutters, downspouts, and specifications for the roof material.
8. Provide a more decorative vent cover for the air conditioning units in each room.
9. The trash enclosure’s horizontal wood slats shall cover the posts completely, and coordinate that detail between the plan elevation and gate detail.
10. Provide soffit lighting and any recess lighting detail.
11. Clarify and coordinate pool fencing elevations and details.
12. Provide pool equipment enclosure details.
13. The Board finds that the Compatibility Analysis Criteria generally have been met (per SBMC 22.68.045.B.) as follows:
   a. The project fully complies with all applicable City Charter and Municipal Code requirements. The project’s design is consistent with design guidelines applicable to its location within the City because it is within an eclectic neighborhood and the project is a hotel with a specific design and color palette.
   b. The design of the project is compatible with desirable architectural qualities and characteristics that are distinctive of Santa Barbara and of the particular neighborhood surrounding the project. The project is part of an eclectic collection of buildings in the area and is the first hotel in a chain of hotels.
   c. The size, mass, bulk, height, and scale of the project are appropriate for its location and neighborhood because they are not being changed.
   d. The design of the project is appropriately sensitive to adjacent Landmarks or other nearby designated historic resources.
   e. The design of the project does not impact established scenic public vistas.
   f. The project includes an appropriate amount of open space and has added additional landscaping.
14. The Board is supportive of the parking lot landscape design waiver.

Present: Kirk Gradin, Applicant

**Staff comments:** Mr. Ozilymaz clarified that the vote taken at the June 3, 2019 meeting was invalid due to lack of four voting members, and therefore the project has returned to today’s meeting for Project Design Approval.

Public comment opened at 6:35 p.m.

The following individuals spoke:
1. Matthew Gradias spoke on behalf of Nancy Cohen and Mark Weinke, opposed.
2. Jack Zehren, opposed. Monica Jeffus, Darlene Zehren, Lucia Davis, and Stephanie Poole ceded time to Mr. Zehren.
3. Anna Marie Gott

Written correspondence from Stephanie Poole, Kathie Denlinger, Nancy Cohen, and Mark Weinke was acknowledged.

Public comment closed at 6:54 p.m.

**Motion:** Continue two weeks with comments:

1. Address the issues with regards to the adjacent tree, and other tree located on the property. Further, take suitable measures to preserve the trees on the neighboring property.
2. Study the south elevation of the rear building with regards to the possibility of incorporating a deck on the west elevation, and removing the open balcony along the south side.
3. Study breaking up the symmetry of the north elevations, specifically the front building and to lesser extent the rear building.
4. Provide at least 4 feet of planting space for any proposed trees along the driveway which may include tree grates.
5. Study entry element on the west elevation to provide for a more human scale. Reduce both the entryway and the mirador window to some degree.
6. The reduction of the grade on the site and the lowering of the overall height of the project is greatly appreciated. The Spanish colonial architecture is acceptable.
7. Sills on the north elevation windows shall be as high as possible for both buildings in order to mitigate privacy concerns with the northern neighbor.
8. On the east elevation of Unit C, the majority of the second floor patio railing shall be solid.
9. Add more variety to the landscape tree selection, with at least one more species, and provide as many trees as possible while still respecting the views of future tenants.

**Action:** Cunningham/Moore, 6/1/0. (Watkins opposed.) Motion carried.

Individual comments: Board Member Watkins stated that he is opposed because would like to see more done to reduce the scale on the north elevations.
