

SBA's Website FIDS

The new, responsive website FIDS for SBA is ready to be installed on your website. Note you can specify the number of rows using the "rows=#" parameter.

The Airport website should also have meta tags to support mobile devices and style iframe appropriately with adequate dimensions and padding, no border, and background color.

We suggest you include buttons for "More Arrivals" or "More Departures" below the Combo webfids on SBA's main page that link to the Full Webfids for Arrivals and Departures, respectively. This will allow passengers to access the day's arrivals and departures with search functionality

For any questions, please email engineering@prodigiq.com

COMBO WEBFIDS:

```
<iframe style="width: 500px; height: 270px; overflow: hidden" scrolling="no" frameBorder="0" src="http://webservice.prodigiq.com/wfids/SBA/small?rows=5"></iframe>
```

DEPARTURES WEBFIDS:

```
<iframe style="background: #ffffff; padding: 2%; width: 96%; height: 1000px; overflow: hidden" scrolling="no" frameBorder="0" src="http://webservice.prodigiq.com/wfids/SBA/full?type=departures&rows=15"></iframe>
```

ARRIVALS WEBFIDS:

```
<iframe style="background: #ffffff; padding: 2%; width: 96%; height: 1000px; overflow: hidden" scrolling="no" frameBorder="0" src="http://webservice.prodigiq.com/wfids/SBA/full?type=arrivals&rows=15"></iframe>
