Comments:
 October 2014 saw the strongest round and revenue performance in comparison to prior year since April 2014. Rewards card sales (an indication of customer loyalty), were up 14 sales (42%) on October 2013 and for the first time, it seems that round volume matched 2013 for a month.
 Revenue per round was better than last year given reduced promotional rounds (2013 had Axcess deals) leading to a 3% increase in revenue year over year.
 While this is encouraging, revenue was still 2% below budget for the month meaning a 9% cumulative adverse variance of (\$60,819) and (\$33,695) 5% below last year after 4 months.
