COMMISSION/STAFF COMMUNICATIONS

- Mick Kronman, Harbor Operations Manager, said the Department of Fish and Wildlife closed parts of the lobster fishery on Santa Cruz and Anacapa Islands due to higher-than-tolerable levels of domoic acid.

ADJOURNMENT

Approved Adjournment at 8:15 p.m.
Bill Spicer/ Betsy Cramer 5-0

Over the past four years the City of Santa Barbara has worked closely with the California Coastal Commission to develop a Coastal Land Use Plan (LUP) that aligns with the California Coastal Act and the local priorities of the City. The Draft Coastal LUP demonstrates the City's continued commitment to providing access for all to the beach and protection of our natural resources, built environment, and our vibrant public waterfront, all of which make our community so special. The Draft Coastal LUP modernizes the existing 1981 Coastal LUP, building upon the 2011 General Plan to document the criteria and interpretations already being used today for the review and approval of Coastal Development Permits, clarify development standards for complicated topics such as development near coastal bluffs and creeks, and address new and emerging issues for the City, such as sea level rise.
