

CITY OF SANTA BARBARA WATERFRONT DEPARTMENT

MEMORANDUM

Date: April 18, 2019
To: Harbor Commission
From: Scott Riedman, Waterfront Director
Subject: **Business Services Report**

BUSINESS ACTIVITY PERMIT UPDATE

The Waterfront Department established the Business Activity Permit (BAP) program in 1972. The BAP program establishes rules and guidelines for individuals who have no fixed place of business or lease space in the Harbor District, but wish to conduct marine-related business in that District. The BAP program provides these individuals the opportunity to promote and offer their services, in a safe, orderly, and professional manner.

It was the Department's intent to make sure that those working within the Waterfront District meet the following requirements:

1. Obtain a City Business License (available at City Hall);
2. Obtain Commercial Liability Insurance in an amount based on the type of business being undertaken and naming the City of Santa Barbara Waterfront Department as additionally insured; and,
3. Annual fee of \$20 for service businesses and \$250 for BAP six-passenger charters.

The type of commercial liability insurance is divided into three categories as follows:

Category	Type of Business Activity	Minimum Liability
I	6-Pack Charters	\$1,000,000
II	Major boat repair such as engine, hull & canvas repair. Commercial diving, salvage, and dredging.	\$500,000
III	Minor boat maintenance such as boat cleaning, detailing, stenciling, sanding, varnishing, minor painting. Minor engine maintenance such as oil, fluid and filter changes.	\$300,000

In addition, if a BAP holder has employees, the BAP holder must comply with the appropriate Workers Compensation insurance requirements as outlined by the State of California. If the BAP holder has independent contractors working under him/her, those individual contractors must carry the appropriate insurance and must also possess a City of Santa Barbara business license.

If the requirements are met by the proposed permittee and approved by the Department, they are provided with a BAP identification card and placed on the Waterfront Department's list of approved BAPs. Monthly, the Waterfront Department posts an updated list of BAPs with their type of service and contact information online at www.santabarbaraca.gov/gov/depts/waterfront/business/baps.asp which allows those seeking marine-related services an easy mechanism to find what they need. All BAPs are required to renew their permit annually by August 1, at which time their business license is checked as well as their insurance information.

Currently, there are 68 BAP holders operating in the Waterfront. The annual average number of BAP holders over the past four years has been 65. The current list of BAP holders is attached.

The BAP program continues to be an important program in the Waterfront. The BAP program provides piece of mind to slip permittees, boat owners and visitors, knowing that those legally conducting business in the Waterfront have a business license, the required insurance, and authorization to be working in the marinas.
