Commissioner Adams stated that he plans to attend the Ordinance Committee meeting and suggested Commissioner Hausz be informed about it as well.

2. Jake Jacobus, Associate Planner/Urban Historian, commented about citizens' concerns with regard to the removal of stones at the former St. Anthony's Seminary. It was determined that the large stones were not removed from the foundations of any former buildings on the site. David Stone, Archeological Consultant, has been actively monitoring the excavation work on site. The monitoring report that will be prepared by Mr. Stone will include a sketch indicating where the stones were excavated from and the known location of buried foundations.  Application Number: MST2008-00333  
 Owner: Phillip Larson  
 Designer: Eric Swenumson

(Proposal to demolish and reconstruct the existing unit B, a two-bedroom 898 square foot, one-story residential unit, located at the rear of the property. The proposal includes slightly relocating the new unit to conform to the required setbacks. The site is currently developed with a three-bedroom 1,408 square foot, two-story, single-family residence (unit A), the existing two-bedroom 898 square foot unit (unit B) and a 307 square foot legal non-conforming garage on a 11,109 square foot lot in the R-2 Zone. No changes are proposed to the existing garage or the existing 1,408 square foot residence. A total of 16 cubic yards of grading is proposed.)

**(Review of Historic Structures/Sites Report prepared by Fermina B. Murray, Consultant Historian.)**

Present: Fermina Murray, Historical Consultant  
 Phillip Larson, Owner

Staff comment: Jake Jacobus, Associate Planner/Urban Historian, stated that the house is an early Craftsman style with unusual windows that has been allowed to deteriorate. Much work is needed in order to rehabilitate it. The mitigation measures recommended in the report would reduce impacts to be less than significant. Staff has read the report and agrees with its conclusions and recommendations.

**Motion:** To initiate the process to place this structure on the City's List of Potential Historic Resources.

Action: Boucher/Adams, 5/0/0. (Murray stepped down. Drury/Hausz/Sharpe absent.) Motion carried.

**Motion:** To accept the report as submitted.

Action: Boucher/Curtis, 5/0/0. (Murray stepped down. Drury/Hausz/Sharpe absent.) Motion carried.

**HISTORIC STRUCTURES REPORT**

2. 710 ANACAPA ST

C-2 Zone

(2:13) Assessor's Parcel Number: 031-081-013  
 Application Number: MST2008-00362  
 Owner: Adame Trust  
 Agent: Shelley Bookspan  
 Architect: Peikert Group Architects

(Previous project on this site has been withdrawn and this is a revised project. This structure is on the City's List of Potential Historic Resources: "Myers Cottage." Proposal to demolish 985 square feet of the non-historic portion of an existing mixed-use building (currently 162.5 square feet of commercial space and 1,399 square feet of residential duplex space) resulting in a 418 square foot commercial space and 337 square foot commercial basement storage area. Also proposed is to construct a new, three-story, 3,035 square foot mixed-use building with 448 square feet of commercial space and a 1,941 square foot, three-bedroom residential unit. This will result in an increase of 1,040 square feet for commercial use, which will require Development Plan Approval findings. Two residential parking spaces and one commercial parking space will be provided in a ground level garage, as well as one uncovered handicapped accessible parking space. The project will include permeable paving, landscaping, irrigation, and drainage improvements of the site. There will be 514 cubic yards of grading, of which 86 cubic yards will be exported off site.)

**(Review of Historic Structures/Sites Report prepared by Shelley Bookspan, Ph.D.)**

Present: Shelley Bookspan, Historical Consultant  
 Carlos Adame, Owner

Staff comment: Jake Jacobus, Associate Planner/Urban Historian, stated that Staff, including Debra Andaloro, City Environmental Analyst, has reviewed the report and agrees with its conclusions and recommendations.

Public comment opened at 2:16 p.m. but, as no one wished to speak, it was closed.

Straw votes: How many Commissioners feel the need to state that this building is Landmark-Worthy?  
 4/2. (Adams/Pujo opposed.)

How many Commissioners would agree in accepting the report, but disagreeing with its findings? 1/5. (Adams/Boucher/Curtis/Murray/Sharpe opposed.)

How many Commissioners would disagree with two particular findings found in the report that: 1) the existing building is only a Structure of Merit; and 2) the new building is compatible with the existing building? No vote.

How many Commissioners would accept the report, but require further analysis of the impact of the new building on the exiting building? No vote.

**Motion:** Continued indefinitely to allow for the following augmentations: 1) Elaborate in Section 7 as to the Evaluation of Potential Project Effects. 2) Include the 1892 Sanborn map. 3) Clarify the language to reflect correct CEQA terminology. 4) Include further investigation as to the potential impacts of the new building on the existing historic building.

**Action:** Boucher/Sharpe, 6/1/0. (Pujo opposed. Drury/Hausz absent.) Motion carried.

**Amended**

**Motion:** **Continued indefinitely to allow for additional elaboration with respect to CEQA Standard 9 and Section 7 of the report.**

**Action:** Adams/Curtis, 7/0/0. (Drury/Hausz absent.) Motion carried.

Commission comments: 1) It should be clarified that the project is preserving a portion of the structure as opposed to the entire structure as existed in 1892. 2) The original 1892 Sanborn map should be included to correspond with the statements in the report referring to the restoration of a portion of the existing structure to its 1892 configuration. 3) It was suggested that the word “rehabilitation” be used instead of “restoration.” 4) Referring to the phraseology “change to the relocation of the site is unfortunate”, the word “unfortunate” is not a CEQA term. Determining whether moving the existing structure would have a significant adverse effect would be preferred. 5) The Secretary of Interior Standard 9 should be addressed, specifically in the analysis of the size, proportion, scale, compatibility, and visual effects of the new building in relation to the existing. 6) On page 35, Item C, “foreground landscaping” should be used in place of “lawn.” 7) At least two Commissioners believe that the proposed new building is not compatible with the existing building. 8) At least four Commissioners did not agree with the determination that the existing building should have a Structure of Merit status and felt that it should be determined to be Landmark-Worthy. 9) The new structure should be described as a mixed-use building. 10) It should be clarified that there is a portion of the new building that will be three-stories.

**(Comments only: Project requires Environmental Assessment and Development Plan Approval findings.)**

Present: Carlos Adame, Owner  
 Detlev Peikert and Lisa Plowman, Peikert Group Architects

Public comment opened at 3:28 p.m.

Willard Thompson, on behalf of Kellam de Forest, commented that this structure is one of two Carpenter Gothic Revival style houses in the city as indicated in historical records. Its presence in El Pueblo Viejo Landmark District indicates a substantial historical significance. It was probably a build-out from adobes as the original families upgraded from Hispanic style to more Victorian style buildings.

Pamela Jameson Boehr, neighboring building owner, commented that the structure is a highly visual reminder of how the Santa Barbara Hispanic community adapted to the prevailing Victorian Anglo design by building their own Victorian homes. It is an iconic part of the streetscape on Anacapa Street. There is a need for its context to be kept low and modest. Ms. Jameson Boehr does not support moving the cottage and erecting a three-story building.

Public comment closed at 3:35 p.m.

Straw votes: How many Commissioners would agree to review the project at a concept level (bulk, mass and scale), disregarding previous review of the withdrawn application? 1/5. (Adams/Boucher/Curtis/Pujo/Sharpe opposed.)

How many Commissioners would agree to include previous comments made on the withdrawn application and consider the applicant's response to those comments as a continued preliminary review of the project? 2/4. (Boucher/Curtis/Murray/Sharpe opposed.)

- Motion:** **Continued two weeks with the following comments:** 1) The majority of the Commission find that the proposed size, bulk, and scale is acceptable at a conceptual level. 2) Consider continuing to diminish the elevator tower and the plates of the second floor. 3) The massing could be reduced by eliminating the elevator to the roof. It was suggested that a handrail mechanism be used for ADA access. 4) The visual separation between the existing and the new building is of great concern. Suggestions were made to create that separation for there to be a better balance in terms of size, scale, and proportion: a) Major landscaping could be incorporated at the west elevation. b) The eastern wing of the existing building could be reconstructed and the proposed commercial space moved into it instead of being placed in the new building. 5) The following landscaping suggestions were made: a) Explore providing a planting strip along the edge of the driveway. b) Instead of a grass lawn, study incorporating better drought-tolerant alternatives. c) Provide vine pockets, and Jacarandas or olive trees. d) Soften the roof deck with plants on a stucco wall.
- Action:** Pujó/Curtis, 4/3/0. (Boucher/Murray/Sharpe opposed because they do not believe that the size, bulk, and scale of the new building is compatible with the old building. Drury/Hausz absent.) Motion carried.
