PLEASE BE ADVISED

Consent Items are reviewed in the David Gebhard Public Meeting Room at 630 Garden Street in a sequential manner as listed on the Consent Calendar Agenda. Applicants are advised to approximate when their item is to be heard and should arrive 15 minutes prior to the item being announced. If applicants are not in attendance when the item is announced for hearing the item, the item will be moved to the end of the calendar agenda.

The applicant's presence is suggested so that the applicant can answer questions and discuss potential conditions of approval, thereby avoiding project continuances. If an applicant cancels or postpones an item without providing advance notice, the item will be postponed indefinitely and will not be placed on the following Historic Landmarks Commission (HLC) agenda.

Actions on the Consent Calendar agenda are reported to the Full Board. The Full Board has the discretion to ratify or not ratify the Consent actions. The Consent Calendar reviewing member of the HLC may refer items to the Full Board for review.

Decisions of the HLC may be appealed to the City Council. For further information on appeals, contact the Planning Division Staff or the City Clerk's office. Appeals must be in writing and must be filed with the City Clerk at City Hall, 735 Anacapa Street within ten (10) calendar days of the date the action is ratified.

(This structure is on the City's List of Potential Historic Resources and is eligible for City Landmark status: "St. Anthony's Seminary." The original seismic and safety upgrade project approved under application MST2005-00241 has been revised to include the following changes: Proposal for the demolition of 1,803 square feet of floor area and stair at the south elevation, courtyard side, of the Infirmary Wing to create an accessible outdoor classroom with tiered seating and to extend the existing arcade roofline to cover an accessible path. The project will also include new accessible restrooms on the lower level, a technical mezzanine on the upper level, and the integration of handicapped access at the main level. Adjustments will be made at grade to the adjoining courtyard and walkways to meet accessibility, utility, and life safety standards. Portions of the roof above the south courtyard facade of the Infirmary Wing will be removed with the remaining to be upgraded to meet structural and seismic requirements, with the overall roof height to be lowered by 4.5 feet. An existing brick chimney and roof penetrations are also proposed to be removed. A partial demolition of the south-facing courtyard will allow the restoration of five original windows on the Main Building. An existing opening between the Main Wing and Infirmary Wing will be infilled with a new window to match the existing on this 12.3 acre parcel.)

(Review After Final of the deconstruction and like-for-like reconstruction of a portion of the north wall of the Infirmary. Exterior windows and doors will be stored and reused.)
