GENERAL BUSINESS (1:30):

- A. Public Comment:

Kellam de Forest, local resident commented that the Street Tree Ordinance will be presented to the City Council on July 28. He stated that in Title 15, Chapters 20 and 24 omit the requirement that the HLC should review proposed tree removals on sites within El Pueblo Viejo Landmark District, on City Landmarks and Structures of Merit.

Jaime Limón, Senior Planner, responded that the proposed amendments to the Tree Preservation Ordinance will actually be part of the Council Agenda Report and will be considered during the Ordinance Committee meeting to be held at 12:30 p.m. on July 28. The amendments would give the City additional enforcement capabilities on tree removals and major landscaping changes, and would mandate the property owner responsible for the maintenance of those elements. The communication process between boards will be clarified as well as the purview, such as whether the Parks Department or the HLC should determine the replacement specimens for trees that are to be removed.

Mr. Limón explained that a new fine system will also be introduced to the City Council, separately from the Tree Preservation Ordinance amendments, and the HLC will have the opportunity to review that proposed system ahead of time. This will allow the City to fine the property owner and the company that removes trees of a certain size without a permit.

- B. Approval of the minutes of the Historic Landmarks Commission meeting of July 8, 2009.

Motion: Approval of the minutes of the Historic Landmarks Commission meeting of July 8, 2009.

Action: Boucher/Curtis, 6/0/2. (Pujo/Sharpe abstained. Drury absent.) Motion carried.

- C. Consent Calendar.

Motion: Ratify the Consent Calendar as reviewed by Donald Sharpe; with the exception of Item E, which was reviewed by Susette Naylor, and Item G, which was reviewed by Robert Adams.

Action: Pujo/Murray, 8/0/0. (Drury absent.) Motion carried.

D. Announcements, requests by applicants for continuances and withdrawals, future agenda items, and appeals.

1. Ms. Gantz made the following announcements:

- a) Commissioner Drury would be absent from the meeting.
- b) Gary Robinson of the Santa Barbara Museum of Natural History requested a group site visit by the HLC to review the location of the temporary Butterfly Pavilion and consider whether that site is appropriate for a permanent structure and how it will fit into a master plan for future campus development. The Commission requested that the site visit be held as early as possible on Thursday, July 30.
- c) The Commission was reminded that on August 4, the Ordinance Committee will discuss and consider a draft ordinance to implement the Mills Act, as well as other incentives such as zoning and parking relief. Staff will email the staff report sometime around the end of the month.

2. Jaime Limón, Senior Planner, announced he would like the Commission to begin discussions on a five year goals and strategy plan to help establish a long term vision for the Commission. This would be the opportunity to communicate what the Commission would like to see in the preparation of a Conservation Element during the General Plan update. A better process for establishing historic districts could also be addressed. Chair Naylor and Commissioners Murray and Pujo volunteered to participate in the formation of draft language and structure to be presented to the Commission and later proposed for City Council consideration.

3. Commissioner Boucher announced that a sign-up sheet will be circulated for the August 16th HLC Summer party.

4. Commissioner Murray announced she would be stepping down from Item 1, 421-425 E. Cota Street.

E. Subcommittee Reports.

No subcommittee reports.

F. Possible Ordinance Violations.

Commissioner Boucher expressed concern with a building that is being constructed at the parking lot of the 1100 block of State Street. Ms. Gantz responded that the trash enclosure was approved by the Commission and a building permit was issued.

ARCHAEOLOGY REPORT

1. 421-425 E COTA ST C-M Zone

(2:07) Assessor's Parcel Number: 031-160-010
 Application Number: MST2009-00250
 Owner: Transition House
 Architect: Mark Wienke

(Proposal to demolish the existing 7,566 square foot two-story mixed-use building and construct a new 9,142 square foot two-story mixed-use building, comprising of 8 affordable residential apartments (six two-bedroom and two three-bedroom units, totaling 7,208 square feet) and a 1,934 square foot day care center. The existing 14,080 square foot, two-story mixed-use building, comprised of 8 residential apartments (6,175 square feet) and 7,905 commercial square feet, will remain. A total of 715 cubic yards of grading is proposed. The parcel will result in two two-story mixed-use buildings, with a combined total of 16 affordable apartments (13,383 residential square feet) and 9,839 commercial square feet, on a 42,221 square foot lot. A total of 37 uncovered parking spaces are proposed. The project requires Staff Hearing Officer review for a requested zoning modification for a reduction of the required parking.)

(Review of Phase I Archaeological Resources Report prepared by David Stone, Stone Archaeological Consulting.)

Present: Mark Wienke, Architect

Staff comments: Susan Gantz, Planning Technician, stated that Dr. Glassow reviewed the report and concluded that the archaeological investigation supports the report's conclusions and recommendations that, as the proposed project would not have the potential to result in significant impacts on either historic or prehistoric archaeological resources, no mitigation measures are required.

Public comment opened at 2:08 p.m. and, as no one wished to speak, it was closed.

Motion: To accept the report as presented.

Action: Boucher/Sharpe, 7/0/0. (Murray abstained. Drury absent.) Motion carried.

CONCEPT REVIEW - NEW

2. 34 W VICTORIA ST C-2 Zone

(2:09) Assessor's Parcel Number: 039-131-016
 Application Number: MST2009-00266
 Owner: Victoria Street Partners, LLC
 Architect: Cearnal Andrulaitis, LLP
 Landscape Architect: Arcadia Studio

(Proposal to demolish an existing 20,125 square foot commercial building (Vons grocery store) and 61 surface parking spaces on a 1.4 acre lot. The proposal includes the construction of 23,125 square feet of commercial/retail space, 38 residential condominium units (of which five would be affordable to middle-income homebuyers) and 87 parking spaces in a subterranean garage. Buildings would be two and three stories in height. Planning Commission approval is requested for a tentative subdivision map and a zoning modification for the residential units to encroach into the interior yard setback.)

(Project requires Environmental Assessment, Compatibility Criteria Analysis, and Planning Commission approval.)

Present: Brian Cearnal and Joe Andrulaitis, Architects
Martha Degasis, Landscape Architect
Margaret Caparelli, Property Owner
Dr. Pamela Post and Timothy Hazeltine, Historical Consultants

Staff comments: Jake Jacobus, Associate Planner/Urban Historian, commented that the mural on the building by Joseph Knowles has been the issue of concern by several members of the public. A historic structures report is being drafted particularly addressing the mural.

Public comment opened at 2:37 p.m.

Kellam de Forest, local resident, commented that there should be unity in design and the monumentality of the Arlington Theater should be retained.

Public comment closed at 2:39 p.m.

A letter from Randall Fox was received expressing concern with adequate parking.

Motion: **Continued four weeks with the following comments:** **1)** The project was found to be acceptable within the overarching guidelines of the General Plan in terms of sustainability and the Urban Design Guidelines: **a)** The salient aspects include the underground parking, the mixed-use character of the buildings, the commercial aspect on Victoria Street, its paseos, and general articulation of the architecture. **b)** The proposal is in compliance with zoning and the general mass, bulk and scale standards. **c)** The sensitivity to the history of the site and the adjacent City Landmark is appreciated. **2) Density:** **a)** The large areas of white stucco that give the feeling of mass and thick walls should remain as part of the proposal. **b)** The variation with the two-story buildings is appreciated. **c)** Allowing the possibility of better views by starting at a lower level at the street is appreciated. **d)** There should be more of a sense of openness so that the Arlington Theater does not feel crowded. At least two Commissioners were concerned with the size, bulk and scale of the proposed three-story buildings near the Arlington. Maintain some view to the rear entryway of the Arlington along Chapala Street. **e)** There should be more variation in the building frontages from the back of the sidewalk. **3) Market building:** **a)** It would be preferred that the Safeway market not be replicated. **b)** Restudy the proposed market so that it is less contemporary and does not feel like a box that would crowd every inch of the site. **c)** The market should enhance the monumentality of the Arlington on the Chapala Street side. **d)** The windows on the Victoria Street elevation and near the entrance are too large. **e)** The concept of “eyes upon the street” should be part of the design with coffee shops and live/work activity on top of the work spaces on Victoria Street. **f)** Provide elements that break the scale of the major building, such as cues or small spaces that would articulate the pedestrian experience. **4) Green roof:** **a)** The effort to incorporate a workable green roof is appreciated. **b)** The way the green roof would impact the view of the Arlington should be analyzed so that it enhances, but does not take away from the theater’s monumentality. **5) Landscaping:** **a)** The general palette is appreciated. It was suggested that Canary Island date palms be incorporated into key spots as a framing device to relate to the beauty of the Arlington. **b)** Soften the edges of the property and the walls with more

landscaping. **c)** One Commissioner believes that the large skyline trees would interfere with the distance views to the Arlington and that trees between 15 and 20 feet would be more appealing. **6) Mural:** **a)** The majority agreed that the orientation of the mural will be commented on once the historic structures report is prepared and reviewed. **b)** Two Commissioners believe it should blend with the pedestrian experience and locating it on Chapala Street would not achieve this. **7) Streetscape:** It would be helpful to have a complete elevation from Victoria Street to Sola Street of this project with the proposed project to the north. This would give an idea of what both projects will look like with the Arlington Theater as a backdrop.

Action: Boucher/Adams, 7/0/0. (Shallanberger stepped down. Drury absent.) Motion carried.
