Public comment opened at 3:18 p.m.

Kellam de Forest, local resident, commented on the Chapala Street elevation, elevator tower domes, and the market side entrance paseo.

Public comment closed at 2:20 p.m.

Motion: Continued four weeks.

Action: Sharpe/Murray 7/0/0. (Orías/Shallanberger stepped down.) Motion carried.

The Commission, either individually or collectively, had the following comments and/or suggestions:

1. Landscaping:

- a. The plant palette is diverse and very appropriate for the style of the building and the city's water requirements.
- b. The proposed street trees on Chapala Street are acceptable.
- c. Study thinning out every other tree on Victoria Street. The views to the Arlington Theater (Arlington) should be framed by landscaping rather than having a hedge of street trees.
- d. Study the amount of tall Washingtonian Fan Palms on the northeast corner that may begin to compete with the view of the tower. The tower should be the skyline element.
- e. Provide a smaller container than the proposed 48-inch box Sycamore.
- f. Study the massing of the Lemon Gum Eucalyptus tree on the northwest corner at the back-of-market with respect to the view to the Arlington.
- g. Study adding more pots in the paseos. There should be sparing use of the glazed pots; the terracotta pots will patina nicely. The pots in the paseos should be drawn on the plans to relative size, indicating their finish.

2. Architecture:

- a. The view of the west façade of the Arlington has been opened up satisfactorily, but study tree quantity and placement.
- b. The project will be a credit to the City and very much in keeping with the Andalucian style of architecture.
- c. Place the Arlington elevations behind the project's relevant elevations on the plans.
- d. One commissioner suggested that the details on the facades of the buildings on all sides be toned down to amplify the simplicity of the Arlington. At least three commissioners felt that the detailing has been beautifully and judiciously applied to the buildings with a delicate balance appropriate to the scale of the proposed buildings.
- e. The long rectangle of bay windows on the south elevation of the market should be broken up.
- f. The glass gateway on the north elevation of the lower court should be in a very restrained iron frame to make it look traditional.
- g. The gateway building should be restudied. The view of the Arlington through the main gateway building is important.
- h. Restudy the bridge behind the gateway.
