(This is a revised project description. Proposal to permit the "as-built" construction of an 188 square foot ground floor bedroom addition and the "as-built" enclosure of the 147 square foot porch into a study room on a two-story, one bedroom single-family residence. The proposal includes the "as-built" conversion of the 140 square foot garage and 52 square foot storage area into a family room and full bath and an 82 square foot "as-built" shed. One uncovered parking space is proposed onsite. Two parking covered spaces are required. The proposal involves Staff Hearing Officer review for interior setback and parking reduction modifications. The proposal will address violations identified in ENF2015-00260 and ZIR2014-00517. The "as-built" total of 1,273 square feet of development on a 4,298 square foot lot is 56% of the guideline floor-to-lot area ratio (FAR). This residence is a designated City Landmark: El Caserío, Built c. 1930.)

(Second Concept Review; comments only. Project requires environmental assessment and Staff Hearing Officer review for interior setback and parking modifications. Project last reviewed May 6, 2015.)

Actual time: 3:29 p.m.

Present: Jill Stattler, Owner
Mark Morando, Applicant

Staff comments: Joanna Kaufman, Planning Technician, stated the following conclusions by the Zoning Modifications Staff, have been reached: 1) The parking modification is not supportable because the house size is greater than 700 square feet; 2) the southern interior setback modifications are supportable for the storage room conversion and the as-built bedroom; 3) the two interior modifications for the storage shed are not supportable; 4) the interior setback modification for the garage conversion is not supportable since the conversion of the garage to habitable space is also not supportable; and 5) parking in the front setback may be supportable.

Public comment opened at 3:38 p.m.

Wayne Ashcraft, neighbor, had previously expressed concern with the existing parking infringing upon the right-of-way, but the applicant has made adjustments to the design, and he is now in support of the new proposal. (An email was received from Lynn and Wayne Ashcraft that includes photographs.)

Kellam de Forest, local resident, commented that the site has been deemed a historic landmark and different rules should apply to protect it.

Public comment closed at 3:40 p.m.

Motion: Continued indefinitely to the Staff Hearing Officer with positive comments:

1. The project can be reviewed under the Consent Agenda as long as the Staff Hearing Officer does not request substantial changes.
2. The modification is aesthetically appropriate and does not pose consistency issues with El Pueblo Viejo Guidelines and the Neighborhood Preservation Ordinance.
3. The parking in the frontyard setback as submitted is acceptable and an improvement.
4. The existing enclosure modification request for the habitable space (converted garage) within the sideyard setback is supportable.
5. The existing encroachment of the building is supportable as it is somewhat historic and consistent with the historic characteristics of the neighborhood.
6. Clarify on the plan showing the landscape, proposed rock border edge and the material of the pavers (that shall be traditional, not concrete).

Action: Mahan/Winick, 6/0/2. (Murray/Veyna abstained. Shallenberger stepped down.) Motion carried.

CONCEPT REVIEW - NEW**7. 600 BLK STATE ST 1828 SEG ID****(2:55)**

Assessor's Parcel Number: ROW-001-828
 Application Number: MST2015-00192
 Owner: City of Santa Barbara
 Applicant: Marck Aguilar, Project Planner

(On behalf of the Neighborhood Improvement Task Force (NITF), the project proposes to remove and relocate the existing brick bench sculpture "Crescent Crossing" by Donald Davis from the sidewalk right of way fronting 628 State Street. The curb, gutter and brick sidewalk will be repaired to match the existing. A State Street style bench will be installed at this location to serve the Metropolitan Transit District bus stop. The relocation of the public art piece is being reviewed under a separate application (MST2015-00193).)

(Action can be taken if sufficient information is present.)

Actual time: 3:49 p.m. and again at 4:40 p.m.

Present: Marck Aguilar, Project Planner and NITF Representative
 Bryan Kerr, Police Officer, Patrol Division

Public comment opened at 3:54 p.m. and reopened at 4:06 p.m.

Chair Suding acknowledged receipt of a letter from Donald Davis and Wendy Wilton Davis expressing support for the proposal.

Ginny Brush, City Arts Advisory/VAPP, commented that fencing was put in place to allow restoration of the bench and, additionally, with the hope that this exercise would disrupt the unwelcome activity occurring there. Once the fence was removed, the same disruptive activities continued to occur. The design intent was to serve the public as well as those waiting for the MTD bus services, but it has not turned out to be used for such purpose. The artist intention and use of the bench function was not to be a negative zone for the city that is continually receiving derogative comments.

Public comment closed at 3:55 p.m. and reclosed at 4:10 p.m.

This item was tabled at 4:16 p.m. until after the review of the proposed project located at 209 State Street.

Motion: The proposal is denied with comments:

1. The preference is to leave the sculpture at its present location.
2. If an acceptable alternate location similar to the existing brick sidewalk location would be proposed, replacing the art piece with another would be supportable.

Action: La Voie/Mahan, 9/0/0. Motion carried.

CONCEPT REVIEW - NEW

8. 209 STATE ST

HRC-2/SD-3 Zone

(3:05)

Assessor's Parcel Number: 033-042-012
 Application Number: MST2015-00193
 Owner: City of Santa Barbara
 Applicant: Marck Aguilar, Project Planner

(On behalf of the Neighborhood Improvement Task Force (NITF), the project proposes to install the brick bench sculpture titled "Crescent Crossing," by Donald Davis, onto the existing lawn at the railroad depot with a hardscape surround. This project is adjacent to the designated City Landmark: Southern Pacific Railroad Station.)

(Concept review; comments only. Project requires environmental assessment.)

Actual time: 4:16 p.m.

Present: Marck Aguilar, Project Planner and NITF Representative
 Bryan Kerr, Police Officer, Patrol Division

Public comment opened at 4:18 p.m.

Ginny Brush, City Arts Advisory Committee/VAPP, commented that the committee found that the relocation of the bench sculpture would be appropriate since there is public art in the area, the new Santa Barbara Children's Museum will be across the street, it can be used by families and those waiting for the train, and due to its proximity to the entrance to the Funk Zone, the brick of the La Entrada project, and the Indigo Hotel that serves as a satellite for contemporary art. There is a lot of synergy in the area that tied into the contemporary nature of the art piece.

Kellam de Forest, local resident, expressed opposition to moving the bench sculpture to the railroad area as it does not tie-in well to the architecture of the railroad station. He suggested restoring the bench and having the police department work on preventing undesirable use from occurring.

Public comment closed at 4:22 p.m.

Motion: The proposal is denied for the following reasons:

1. The train station is not the appropriate location for this piece of art. The installation's proximity to a historic resource is not appropriate.
2. It would impinge upon the restoration of the historic resource, and would be taking away what was the restoration of a character-defining feature of the site.
3. The intended use of the piece of art was to be an interactive, pedestrian experience and not to be seen simply as a common sculpture.
4. The proposed new location of the bench would not be viewable by the public.

Action: La Voie/Winick, 6/3/0. (Drury/Suding/Mahan opposed.) Motion carried.

(Proposal to upgrade both landscape and hardscape areas in the plaza and around the perimeter of the Santa Barbara Public Library and the Faulkner Gallery. The improvements would include approximately 3,200 square feet of additional hardscape, 750 cubic yards of imported fill, a reduction in turf area, and a reduction in total trees from 75 to 56, a new water feature, artwork display areas, lighting, and an approximately 4,500 square foot activity space. An ADA-compliant access would be added to the south Library entrance and all other hardscape, both new and existing, would be ADA compliant. No changes to the buildings are proposed. The Central Library building, constructed in 1917, the Faulkner Gallery, constructed in 1931, and five Eucalyptus Citriodora trees planted in 1931 are designated City Landmarks. Also, the Central Library is listed on the State Historic Resources Inventory.)

(Final approval is requested. Project last reviewed on June 18, 2014.)

Actual time: 4:56 p.m.

Present: Irene Macías, Library Director
 Regula Campbell, Principal Architect, Campbell & Campbell
 Douglas Campbell, Landscape Architect, Campbell & Campbell

Public comment opened at 5:15 p.m. and, as no one wished to speak, it was closed.

Motion: Final Approval and continued indefinitely to the Full Commission for details with conditions:

1. The deco references for the light fixtures is an appropriate accent for the building. Derive inspiration from the Faulkner Gallery with respect to the protrusion of the cylinder shown without a cap. It makes it look contemporary.
2. The landscaping as proposed is acceptable.
3. It is recommended that the paving pattern be enlarged in scale, and perhaps add a border. The material and color of the pavers are acceptable.
4. The maintenance considerations of the paving material shall be taken into account with respect to graffiti and heavy use. The paving details on the plan shall include the recommended protection.
5. Restudy the rail to the library, perhaps making it a design element, avoiding the sloping pickets.
6. The bollards should not be plastic.
