HISTORIC STRUCTURES REPORT

2. 2932 HERMOSA RD

RS-7.5/USS Zone

(1:50)

Assessor's Parcel Number:	051-194-017
Application Number:	MST2017-00668
Owner:	2932 Hermosa Rd, LP
Architect:	James Mayo Macari
Contractor:	Jacobsen Builders

(The Spanish Colonial Revival style residence, constructed in 1924, is eligible for designation as a Structure of Merit. Proposal for additions and alterations to the single-unit residence, including changes to the front façade and roofline. Project involves adding a new entry foyer, removing and adding a fireplace, addition of a 34 square foot kit patio, and reconfiguration of the non-conforming one-car garage. The proposed total of 2,152 square feet on a 7,358 square foot lot is 71% of the maximum required floor-to-lot area ratio.)

(Review of a Phase I Historic Structures/Sites Report, prepared by Roy Harthorn. The report concluded that the building, as it stood both in advance of the work recently undertaken and the alterations, does not maintain enough integrity to convey its original appearance, nor is there sufficient evidence to reconstruct the building to its original appearance. The building does not qualify as historic resource. Report was last reviewed on March 7, 2018.)

Actual time: 1:59 p.m.

Present: Ray Harthorn, Historical Consultant; Roy Jacobsen, Owner; and Barbara Shelton, Environmental Analyst

Staff comments: Ms. Hernandez, Urban Historian, clarified that the City Attorney's office directed the historic integrity analysis to evaluate the condition that the building would be in if the enforcement case were remedied, which would be to restore the building back to the state it was at the time of application submittal. Ms. Shelton, City Environmental Analyst, clarified that if the HLC agrees with the conclusion of the report that the building does not qualify as an historic resource, there is no need to go to the second step of reviewing impacts. The baseline for the integrity analysis is at the time of application.

Public comment opened at 2:11 p.m.

Kellam de Forest stated that the front façade looks like it remains close to original as it appeared in the advertisement, and its importance should be acknowledged as an original Spanish Colonial Revival cottage.

Public comment closed at 2:13 p.m.

Straw vote: How many Commissioners can support the report? 1/5/1 (Veyna abstained.) Failed

Motion: Accept the report and its findings.

Action: Lenvik/Veyna, 1/5/1. (Veyna abstained. Hausz absent.) Motion failed.

Motion: Continue indefinitely with comments:

1. As demonstrated in recent photographs, significant portions of the building, prior to the partial demolition, retained integrity.
2. The house is significant as a prototype of the housing type as seen in the early newspaper advertisement.
3. The house is important to Santa Barbara history as it is an early example of development of the Samarkand area.
4. There is enough graphic and photographic evidence to sufficiently reconstruct the house to the Secretary of the Interior's Standards.

Action: Mahan/Drury6/0/1. (Veyna abstained. Hausz absent.) Motion carried.

3. 809 DE LA VINA ST

C-G Zone

(2:10)

Assessor's Parcel Number:	037-041-009
Application Number:	MST2017-00017
Owner:	815 De La Vina, LLC
Agent:	SEPPS
Architect:	The Cearnal Collective, LLP

(This is a revised project description. The project site contains a Queen Anne historic building, Ott House, listed on the City's List of Potential Historic Resources. Proposal for a new residential project using the Average Unit-Size Density Incentive Program. The project will comprise a voluntary lot merger of three parcels (APNs 037-041-008, 037-041-009, 037-041-010), the demolition of 2 one-story buildings and 2 two-story buildings and the construction of 2 new three-story residential buildings, one of which includes a small fourth-floor portion, measuring 7,908.3 square feet and 32,765.4 square feet, and with the Ott House proposed to be relocated to the corner at De la Vina and De la Guerra Streets (addressed as 208 W. De la Guerra). The unit mix will be 16 studio apartments, 10 one-bedroom apartments, and 6 two-bedroom apartments ranging from 540 square feet to 1,200 square feet with an average unit size of 758 square feet. The proposed density on this 29,548 square foot parcel is 38 units per acre on a parcel within the Priority Housing Overlay (37-63 du/ac). Also proposed are 39 parking spaces to be housed in two first-floor parking garages and 39 bike parking spaces.)

(A. Review of a Phase I Historic Structures/Sites Report, prepared by Post/Hazeltine Associates. The report found that the property at 208 West De La Guerra Street does not meet any of the significance criteria that would make it eligible for listing at the local,

state, or national level. Therefore, 208 West De La Guerra Street is not a significant resource for the purposes of environmental review. The house at 815 De La Vina Street meets significance criteria that make it eligible to be designated a Structure of Merit and for listing in the California Register of Historical Resources and National Register of Historic Places. Except for the sandstone hitching post on De La Vina Street, the other improvements on the property including the landscape, are not significant contributors to the property's historic significance. Therefore, the house 815 De La Guerra Street is a significant resource for the purposes of environmental review, and a Phase 2 Historic Structures/Sites Report is recommended. The report found that a substantially intact streetscape is not present on the 200 block of East De La Guerra Street or the 800 block of De La Vina Street.)

Actual time: 2:37 p.m.

Present: Tim Hazeltine, Historian; and Megan Arciniega, Associate Planner, City of Santa Barbara

Staff comments: Ms. Plummer stated that the project is listed as a revised project because there is a new architect and a new firm representing the owners. The project is still listed under the original project number which is why the project is described as a fifth concept review; however, the project is relatively new in terms of the project configuration.

Public comment opened at 2:43 p.m., and as no one wished to speak, it closed.

Motion: Accept the report as submitted.

Action: Mahan/Drury, 7/0/0. (Hausz absent.) Motion carried.

(B. Fifth Concept Review. Comments Only. Planning Commission review is required. Project was last reviewed on December 13, 2017.)

Actual time: 2:53 p.m.

Present: Brian Cearnal, Architect, Cearnal Collective; Trish Allen, Agent, SEPPS; and Megan Arciniega, Associate Planner, City of Santa Barbara

Public comment opened at 3:00 p.m.

The following people expressed opposition or concerns:

1. Don Sharpe expressed that moving the house is a good option but took issue with the upper additions of the proposed project and requested a copy of the Historic Structures Report.
2. Matt Williams objected to the lack of neighborhood compatibility, the proposed third and fourth stories, parking density in the immediate neighborhood, and requested the project remain at the two-story level.
3. Kellam de Forest concurred with the issue of the proposed third- and fourth-stories and the lack of neighborhood compatibility.
4. Jackie Ellis also spoke about the lack of adequate parking, guest parking on-site, and street parking density in the surrounding neighborhood.
5. Correspondence with concern from Don Elconin was read into the record.

Public comment opened at 3:07 p.m.

Motion: Continue indefinitely with comments:

1. The Commission appreciates the changes made so far and the direction of the proposed project.
2. Commission supports the relocation of the Ott house to the corner because it features the historic house and it sets the tone for enhancing the experience of the resource
3. Study the scale of the project so that it is compatible with the neighborhood in style, massing, and composition.
4. There was no support for the 4th story.
5. A majority of the Commission supports the setbacks as shown for the new buildings.
6. A majority of the Commission find that the Ott house should be set back as much as possible.
7. The Commission required that the project return with a neighborhood massing model study, a few blocks in every direction.

Action: Mahan/Drury, 7/0/0. (Hausz absent.) Motion carried.

(A. Review of a Historic Structures/Sites Report, prepared by Post/Hazeltine Associates. Actual time: 3:54 p.m.

Present: Pamela Post and Tim Hazeltine, Historians; and Serena McClintick, Designer, Harrison Design

Staff comments: Ms. Hernandez agreed with the conclusions of the report that the building qualifies as a City Landmark and clarified that the rear door is not original and that was not noted in the HSSR. Based on the conclusions of the report, all five of the Crocker Row houses qualify

for designation, none of which are designated at this time and the designation sub-committee should discuss how best to approach the designations.

Public comment opened at 3:59 p.m.

1. Kellam De Forest stated that the report was excellent and suggested a one-unit historic district for all five of the houses of Crocker Row.

Public comment opened at 4:12 p.m.

The following people expressed opposition or concerns:

1. Correspondence with concerns from Phil and Melinda McKenna was acknowledged.

Public comment closed at 4:14 p.m.

Motion: Continue indefinitely with comments:

1. The Commission makes the finding that the Neighborhood Preservation Ordinance criteria have been met as stated in Subsection 22.69.050 of the City of Santa Barbara Municipal Code, with positive comments regarding the project's consistency and appearance; neighborhood compatibility; quality of architecture and materials; landscaping; protection of public health, safety, and welfare; compliance with good neighborhood guidelines; and preservation of public views.

2. The Commission supports the restoration and concept of the sunroom; however, it asks that the design be restudied to be more appropriate.
3. The Commission supports the restoration of the roof with terracotta tile as it is appropriate because it matches the material originally on the building.
4. The Commission supports the redesign of the garden in the back.
5. The Commission supports the modifications to the back of the house and the addition of the windows and doors.
6. Support the new garage because it emulates the design of the original building.
7. Specify which trees will be removed, trunk size, and species.
8. The Commission supports removal of the front yard fountain and the reconstruction to one that is more appropriate to the house.

Action: Drury/Mahan, 6/0/0. (Grumbine and Hausz absent.) Motion carried.

(The project consists of a proposal to subdivide an existing 1.06 acre parcel into four (4) lots in the RS-6, Single Residential Zone and Low Density Residential (Max 5 Dwelling Units/Acre) General Plan designation. The proposed lots vary in size from 9,000 to 15,566 square feet. The proposal includes development of one new primary dwelling unit on three of the four proposed lots, subject to review by the Single Family Design Board (SFDB). Proposed lot three (3) includes an existing one-story residential adobe, subject to review by the Historic Landmarks Commission (HLC). The existing adobe residence is deemed eligible to be designated a historic resource by the City Urban Historian. The application includes demolition of the "as-built" non-permitted additions, resulting in a 975 square foot residence to remain. An option is included for a new 400 square foot garage. The proposed total of 1,375 square feet, including a two-car garage, located on a 12,648 square foot lot, is 40% of the required floor-to-lot area ratio (FAR). Site improvements for the subdivision include demolition of the existing detached garage and detached accessory buildings, site grading (990 cubic yards of cut and 540 cubic yards of fill), removal/relocation of Oak trees, and paving to create a new shared driveway easement connecting the proposed four lots to Cota Street. The existing driveway to Diana Road will remain. The project requires Planning Commission review for a Tentative Subdivision Map (TSM) and includes a request for Street Frontage Modifications and Public Street Waiver. The application will address all violations identified in ENF2017-00868.)

(A. Review of a Phase I Historic Structures/Sites Report, prepared by Post/Hazeltine Associates.
