Owner: City of Santa Barbara

Applicant: Jessica Grant, Public Works

Contact: Taylor Berryman, Public Works

(The California State East Cabrillo Boulevard Parkway Historic District, designed by the Olmsted Brothers is on the City’s List of Potential Historic Resources as a Potential Historic District. Proposal for pedestrian and bicyclist safety improvements from the Beachway at Skater's Point off Cabrillo Boulevard west along the Beachway to the entrance to Stearns Wharf, in order to reduce conflict points between pedestrians and cyclists by encouraging pedestrian use of the Cabrillo sidewalk and cyclists to use the Beachway. The project includes reconstruction of the sidewalks and Beachway around the Stearns Wharf restroom, and reorienting the Beachway toward the ocean by six feet on the northeast side of the Stearns Wharf crosswalk. A second, pedestrian-only crosswalk will be installed northwest of the existing shared crosswalk, and green bicycle stenciling will be painted on the Beachway. A pervious sidewalk will be constructed at an angle connecting the Stearns Wharf sidewalk to Cabrillo Boulevard’s sidewalk so that pedestrians do not damage the Chase Palm Park grass, and the pervious concrete will have a perpendicular path connecting to the women's restroom. Project also involves new signage, and landscape improvements, including removal of two concrete connections between the skate park’s perimeter sidewalk and the Beachway, to be replaced with planter beds, and installing new planter boxes at the terminus of the Cabrillo Boulevard Bridge rail to further define the separation of the sidewalk from the multiuse path.)

Project Design Approval and Final Approval are requested. Project was last reviewed on July 24, 2019.

Actual time: 4:27 p.m.

Present: Taylor Berryman, Project Engineer, City of Santa Barbara; and Laura Yanez; Supervising Engineer, City of Santa Barbara

Public comment opened at 4:38 p.m., and as no one wished to speak, it closed.

**Motion:** Project Design Approval and Final Approval with the following condition and findings:

1. On page 4, the Commission would like to see Senegal Date Palms planted on the west substantial side.
2. As required for Historic Resources in section 22.22.037 of the Municipal Code, the project will not cause a substantial adverse change in the significance of the historic resource.
3. The Commission finds that the Compatibility Analysis Criteria generally have been met (per SBMC 22.22.145.B.) as follows:
   a. The project fully complies with all applicable City Charter and Municipal Code requirements. The project’s design is consistent with design guidelines applicable to its location within the City.
   b. The design of the project is compatible with desirable architectural qualities and characteristics that are distinctive of Santa Barbara and of the particular neighborhood surrounding the project.
   c. The size, mass, bulk, height, and scale of the project are appropriate for its location and neighborhood.
   d. The design of the project is appropriately sensitive to adjacent Landmarks or other nearby designated historic resources.
   e. The design of the project responds appropriately to established scenic public vistas.
   f. The project includes an appropriate amount of open space and landscaping.

Action: Lenvik/Drury, 5/0/0. (Mahan, Edmunds, and Ooley absent.) Motion carried.

The ten-day appeal period was announced.
