**FROM:** Treasury Division, Finance Department

**SUBJECT:** December 31, 2016, Investment Report And December 31, 2016, Fiscal Agent Report

**RECOMMENDATION:** That Council:

- B. Accept the December 31, 2016, Fiscal Agent Report.

**DISCUSSION:**

On a quarterly basis, staff submits a comprehensive report on the City's portfolio and related activity pursuant to the City's Annual Statement of Investment Policy. The current report covers investment activity for the three-month period of October through December 2016.

Treasury yields were higher by the end of the quarter. As shown in the table to the right, the change in Treasury yields ranged from an increase of 17 basis points on the 6-month Treasury note to an increase of 85 basis points on the 10-year Treasury note. All maturities saw significant increases in Treasury yield, including the 5-Year note which showed an increase of 79 basis points during the quarter.

The City generally invests in securities of one to five years in duration. Within this duration, interest rates ranged from 0.85% to 1.93% for Treasury securities at the end of the quarter. The Federal Reserve has been signaling its desire to raise the Federal Funds rate for some time, which in turn influences Treasury yields. In December 2015, the Federal Reserve increased the Federal Funds rate for the first time in seven years and

raised rates again by .25% at the December 2016 meeting. Even with a higher Federal Funds rate and a corresponding rise in Treasury yields for all maturities, it will take several years before the City realizes a material increase in interest earnings, as existing securities mature and are replaced with higher-yielding securities.

### Investment Activity

As shown in the Investment Activity table below, the City invested \$18 million during the quarter. The purchases consisted of \$12 million in “AAA” rated Federal Agency callable securities (identified by a call date), and \$6 million in “AAA” rated Federal Agency bullet securities. The purchases replaced \$9 million in Federal Agency securities that were called, \$2 million in Money Market FedFunds, and \$2 million in Federal Agency securities that matured over the quarter. In addition, the portfolio also received \$146,614 in a semi-annual principal payment on the Airport promissory note at the end of December. The outstanding balance on the Airport promissory note is \$4.629 million (see Attachment 1).

### Summary of Cash and Investments

The book rate of return, or portfolio yield, measures the rate of return of actual earnings generated from the portfolio. As shown in the table to the right, during the quarter the City’s book rate of return increased by 5.7 basis points from 1.119 percent at September 30, 2016 to 1.176 percent at December 31, 2016.

Mo. Ended	Yield	Days to Maturity
9/30/2016	1.119%	549
10/31/2016	1.093%	519
11/30/2016	1.110%	525
12/31/2016	1.176%	575

The portfolio’s average days to maturity, including the long-term Airport promissory note, increased by 26 days from 549 to 575 days. Excluding the Airport note, the portfolio’s average days to maturity is 460 days, reflecting reinvestment of maturities and calls

during the quarter in the one-to-five year range in accordance with the City's Annual Statement of Investment Policy. The Annual Statement of Investment Policy requires that the average days to maturity on the portfolio not exceed 2.5 years, excluding any investments with a final maturity longer than 5 years that were separately authorized by Council, such as the Airport promissory note.

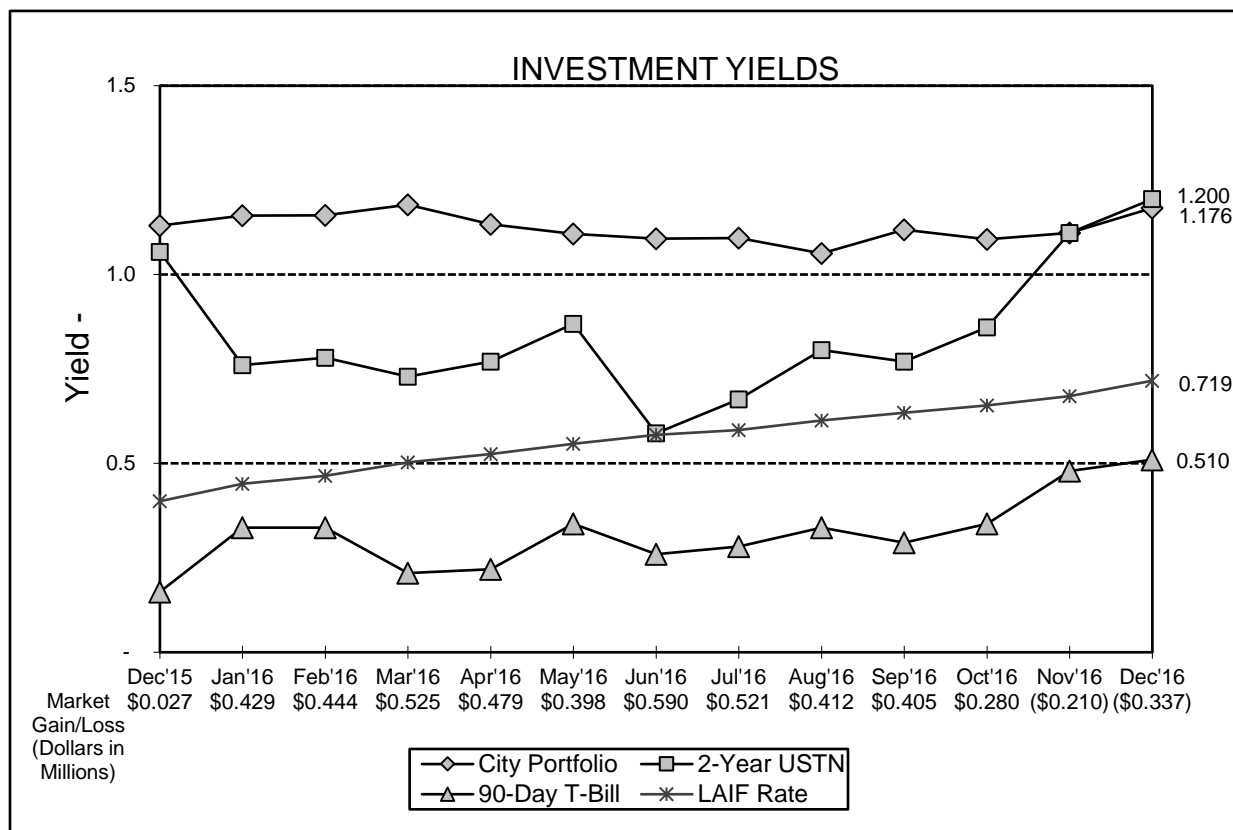

The average LAIF rate at which the City earned interest for funds invested was at 0.68 percent for the quarter ended December 31, 2016; an increase of 8 basis points from the previous quarter. The City's LAIF holdings at the end of the quarter were \$60 million. Staff expects to reinvest a portion of the LAIF balances in fixed-term or callable securities during the next quarter.

### Credit Quality on Corporate Notes

There were no credit quality changes to the four corporate issuers of the medium-term notes held in the portfolio (i.e., Berkshire Hathaway, Inc., General Electric Capital Corp, Toyota Motor Credit, and Wells Fargo Bank, NA), and the ratings of all corporate notes remain within the City's Investment Policy guidelines of "A" or better.

### Portfolio Market Gains/Losses

As shown in the Investment Yields chart below, the City's portfolio rate continues to be in line with the three benchmark measures (the 90-day T-Bill, 2-year T-Note and LAIF).

As of December 31, 2016, the City's portfolio rate exceeds the 90-day Treasury Bill and LAIF rates and is 2.4 basis points below the 2-year Treasury Note rate. These benchmarks serve as indicators of the City's performance. Trends over time that substantially deviate from these benchmarks would warrant further analysis and review. At December 31, 2016, the portfolio had an overall unrealized market loss of approximately \$337,000.

On a quarterly basis, staff reports the five securities with the largest percentage of unrealized losses. However, because securities in the City's portfolio are held to maturity, no market losses would be realized.
