

April 2007

Date: 3/12/07

Requested by: Frank Caplan

Address: 610 Flora Vista Dr.

Location of Tree: 610 Flora Vista Dr.

Tree Species: *Schinus terebinthifolius* **Common Name:** BRAZILIAN PEPPER

Requested Reason for Removal: This is a hazardous tree. There are outward signs of internal rot. The tree has dropped limbs and continues to be a hazard.

Species recommended by the Approved Plan:

Advisory Committee Recommendation: *Approve Removal:* *Deny Removal:*

Staff Recommendation: *Approve Removal:* *Deny Removal:*

Date Posted: 4/17/07

Comments: The Committee determined that this tree does not exhibit significant signs that it is unhealthy or that it poses a more significant risk to the neighborhood than the other Brazilian pepper trees planted on Flora Vista. The tree has been recently pruned and does not have excessive weight in the canopy so the risk of branch /tree failure is minimal at this time.
