

Pool Closure:

Los Baños del Mar and West Beach Wading Pools

June 21-August 29, 2008

CITY OF SANTA BARBARA
**Parks
 & Recreation**
Enriching People's Lives

- Location:** 401 Shoreline Drive, Santa Barbara, CA
- Facility Use:** Adult Lap Swim, Youth Swim Lessons, Family Recreation Swim, Santa Barbara Swim Club Age Group and Masters swimming, and Santa Barbara City College Marine Diving, P.E swimming and Water Polo classes.
- Background:** The deep end pool wall has a leak located between the pool gutter and the deck, which has been an area of concern for the past ten years. Five separate attempts using alternative methods to seal the areas have failed, causing pool staff to lower the water level to reduce the amount of water lost on a daily basis. The lowering of the water level is only a temporary measure because it impacts other pool operations.
- Project Scope:** The existing deep end pool wall will be removed and rebuilt. Additional funding has been dedicated to repair and re-plaster the entire pool shell. Aquatic staff are also using this opportunity to standardize the pool ladders to be interchangeable and allow for the step treads to be replaced when worn. Additionally staff will use this closure to address many of the minor facility concerns that are difficult to accomplish while the pool is operational.
- Project Timeline:** The summer months were chosen to allow for the project to be completed without weather delays and allow for modified swim programming at the Santa Barbara High School pool to minimize the impacts for all of our patrons and user groups.
- Alternate Schedule:** During the closure, the modified aquatic programming on the reverse side of this notice will be observed; however, prior to the closure, if more pool time becomes available, then revised schedules will be available at Los Baños Pool.
