

**STREET TREE MASTER PLAN  
SPECIES DESIGNATION CHANGE  
FOR ADOPTION**

---

*Date:* July 30, 2008

*Location:* 3700 Block San Remo Dr.

*Present Species Designation:* *Jacaranda mimosafolia*, Jacaranda

*Proposed Change to:*

1. *Arbutus 'Marina,'* Marina Strawberry Tree
2. *Prunus cerasifera, Krauter Vesuvius,* Krauter Vesuvius Purple Plum

*Existing Species Profile:*

A mixture of Purple Leaf Plums, one Brachychiton, and Jacarandas on the south side, Liquidambar trees on the north side.

*Reasons for Recommended Change:*

The existing Jacaranda trees are located under high voltage lines and have been repeatedly and severely topped. The existence of overhead wires warrants a smaller species.
