1. 720 W. Pedregosa St., *Corymbia ficifolia*, Red Flowering Gum – David A Chavez

Commissioner Nicolas Ferrara moved, seconded by Commissioner W. Scott Burns, and passed 7/0 to concur with the Street Tree Advisory Committee recommendation to conditionally approve the removal of the Red Flowering Gun tree at 720 W. Pedregosa Street.

**B. Approve the following Setback Tree removal requests.**

1. 2215 Alameda Padre Serra – *Corymbia citriodora*, Lemon-Scented Gum – Barbara and Jim Allen

Commissioner Rocky Jacobson moved, seconded by Commissioner Nicolas Ferrara, and passed 7/0 to concur with the Street Tree Advisory Committee recommendation to approve the Lemon-Scented Gum tree located at 2215 Alameda Padre Serra.

**C. Partially approve the following Setback Tree removal requests.**

1. 740 Flora Vista Dr. – (2) *Cupressus arizonica*, Arizona Cypress – Jeremiah and Julie Weiss

Commissioner Beebe Longstreet moved, seconded by Commissioner W. Scott Burns, and passed 7/0 to concur with the Street Tree Advisory Committee recommendation to allow the removal of the tree closest to the driveway and to preserve the tree furthest from the driveway at 740 Flora Vista Drive.

2. 3892 State St. – (1) *Melaleuca quinquenervia*, Cajeput Tree; (1) *Cedrus deodara*, Deodar Cedar

Commissioner Beebe Longstreet moved, seconded by Commissioner Nicolas Ferrara, and passed 7/0 to concur with the Street Tree Advisory Committee recommendation regarding the 3892 State Street.

**D. Deny the following Setback Tree removal request.**

1. 820 E. Canon Perdido St. - (2) *Pinus canariensis*, Canary Island Pine - Danielle Holzer

Mr. Downey highlighted this removal request. He said the owner wants to spruce up the area and as part of that process is requesting the removal of these two Canary Island Pine trees and install a new landscape. Mr. Downey said that the Street Tree Advisory Committee determined that the

removal of these trees would have a significant impact on the immediate neighborhood, and would like to see them incorporated into the new landscaping. He said the Street Tree Advisory Committee recommends the removal request be denied.

Mr. Burns stated that he works near the building and it has been upgraded significantly over the last few months. He further commented that he thought there were three or four trees there and that one had been removed, and asked Mr. Downey if that is the case. Mr. Downey said that during two site visits, he has not seen any evidence of any other trees.

Commissioner Ferrara asked whether the owner has a plan for the area, and asked why the trees do not fit into the plan. He further asked why the tree materially affects the neighborhood.

Mr. Downey said the trees have an impact due to their size.

Ms. Courtney Cochrane said she prepared the landscape plan and is speaking on behalf of Danielle Holzer. Ms. Cochrane said her plan is to replace the Canary Island Pine trees with Arbutus trees which will not tear up the sidewalk, which the Pine trees have. She further said the Pine trees interfere with the power lines and are extremely messy. Ms. Cochrane further described the proposed landscape plan.

Chair Wiscomb asked Ms. Cochrane to address the question of whether she tried to incorporate the trees into the landscape plan.

Ms. Cochrane stated that the owner wants to remove the trees, so she took the alternative of replacing them with smaller trees that do not interfere with sidewalks and are more colorful and a better scale for the property. Ms. Cochrane said the root system would be somewhat difficult to plant around, but she could try to work with it if the trees must remain.

Commissioner Casebeer commented that anytime a property owner is willing to invest in a comprehensive landscape plan, it will be a great contribution to the neighborhood, and could be an initiator for other property owners. He said he wants to preserve as much as the urban forest as possible. Mr. Casebeer asked whether Ms. Cochrane is replanting any other trees. Ms. Cochrane said she would like to replant the Arbutus unido, which reach about 20 feet. She said she could find another option, if the Commission would like something taller. Ms. Cochrane stated that the owner doesn't want to plant something that will tear up the sidewalk and also wants a tree that will stay away from the power lines. She said she would also like to plant some trees further back on the property.

Commissioner Trentacosti commented that one of the trees is very close

to the power lines. He asked what the Street Tree Advisory Committee's take on that was. Mr. Downey said that Southern California Edison is responsible for the maintenance of trees around their power lines. He said they will continue to maintain those trees for the safety of the lines. Mr. Downey said the Committee determined that if the trees were removed it would be a significant loss all at once in that area. He said the trees can be pruned to accommodate the lines.

Commissioner Jacobson commented that the trees look great and it would be nice if the trees were preserved and some sort of drought tolerant landscaping installed underneath.

Commissioner Ferrara commented that one tree is full, but the other seems to be 70% trunk. He said he would like to determine what trees could be put in place of them and maybe add more trees so that in five to ten years there are some really beautiful trees in that area instead of just the two trees, in order to really beautify that area.

Commissioner Longstreet expressed that the buildings would benefit from the enhanced landscaping in the front; a 20-foot tree is not going to take the place of these trees at all. She said she thinks the architecture is not stellar, and the trees soften some of the starkness of the buildings. Ms. Longstreet said she would like to see the landscaping go in; the trees need to be revisited in five years when there is growth and height from other trees. She said that at this point, to take out the only things in that area with height and replace them with things with no height is not a good idea. She encouraged that the applicant continue with their plan to look at some trees that will be able to grow up next to those, and then go in for removal, but not to clear cut it, as it will make a difference to the streetscape and the skyline aspects of the area.

Chair Wiscomb concurred. She said she looked at the power lines and said the trees are growing nicely. Ms. Wiscomb commended the applicant and landscape designer on the plan, but said in the end, the Commission must go back to the Municipal Code. She agreed with the Street Tree Advisory Committee and said the removal of the trees will materially affect the neighborhood. Ms. Wiscomb said the trees' stature is important to the street and expressed the hope that the applicant and landscape designer work around the trees and do a nice landscape incorporating them.

Commissioner Yi asked Mr. Downey to comment on the damage the roots have caused to the sidewalk. Mr. Downey explained the City Program. He said the City prunes roots and put sidewalks back down, and said it is something that could occur in this location and still preserve the trees. Mr. Downey said it is the Public Works Department's decision as to whether they are going to make those repairs at this site, unless the owner takes out permits to do it themselves.

**Commissioner Rocky Jacobson moved, seconded by Commissioner Beebe Longstreet, and passed 5/1 to concur with the Street Tree Advisory Committee recommendation to deny removal of the Canary Island Pine trees at 820 E. Canon Perdido Street.**

Commissioner Ferrera was opposed; Commissioner Casebeer abstained.

**E. Consider the following changes to the street tree master plan**

**1. 2300 - 2400 blocks of Santa Barbara Street**

**Commissioner W. Scott Burns moved, seconded by Commissioner Beebe Longstreet, and passed 7/0 to concur with the Street Tree Advisory Committee to add the Red Flowering Gum and Camphor Tree as co-designated species for the 2300 - 2400 blocks of Santa Barbara Street.**

**2. 800 block of East Carrillo Street**

**Commissioner Beebe Longstreet moved, seconded by Commissioner Nicolas Ferrara, and passed 7/0 to concur with the Street Tree Advisory Committee to add the Eucalyptus torquata, Coral Gum, as the co-designated species for the 800 block of East Carrillo Street.**

**7. Street Tree Master Plan Change for the 3100 - 3900 Blocks of State Street - For Action**
