

CITY OF SANTA BARBARA

PARK AND RECREATION COMMISSION REPORT

AGENDA DATE: October 24, 2012

TO: Parks and Recreation Commission

FROM: Creeks Restoration/Water Quality Improvement Division, Parks and Recreation Department

SUBJECT: Creeks Division 2012 Report

RECOMMENDATION: That the Commission receive a presentation on the Creeks Restoration and Water Quality Improvement Division 2012 Report (2012 Report).

DISCUSSION:

The Creeks Restoration and Water Quality Improvement Division (Creeks Division) was created after the passage of Measure B in November 2000. Since that time, the Creeks Division has been making progress toward achieving the City's goals of clean water in our creeks and at our beaches, and restoration of our natural areas. The 2012 Report provides a summary of recently completed, and future, Creeks Division projects and programs.

The 2012 Report documents projects and program activities from 2001 through the present, with an emphasis on the past three years. It includes program revenue and expenditure information, as well as progress reports on clean water activities, creek restoration projects, and community education programs. The presentation to the Commission will highlight these activities.

The 2012 Report was provided to the Commission in the September 26, 2012, Commission packet. It is also available for review on the Creeks Division website (www.sbcreeks.com). Hard copies of the 2012 Report are available at the Creeks Division office in both English and Spanish.
