Re. 2122 Bath Street, Jesmary Lane street tree designation change.

Dear Tree Advisory Committee members,

We are working on a project located at the corner of NE corner of Bath and Jesmary Lane in the Oak Park neighborhood. The proposal involves the conversion of the detached garage facing Jesmary Lane to habitable space. We would like to remove the paved area in front of the garage door and convert this space into a parkway area with a street tree.

There are no street trees, sidewalks, curbs or gutters on Jesmary Lane; the only parkway area is alongside the subject property, where we would like to add (2) or (3) trees as shown in the attached site plan.

The width of the parkway space will be 5'-6" wide in front of the garage and about 5'-10" elsewhere. We are interested in a medium-size specimen with lacey-type canopy, like a Jacaranda –subject to your Committee's and Public Works' final determination.

Please feel free to contact me at (805) 962-3578 or alex@pujo.net for additional information. We look forward to working with you.

H. Alexander Pujo
