RESIDENTIAL, 12 UNITS/ACRE (MST2004-00678)**

The lot is currently developed with a three-bedroom 920 square foot residence (Unit 1), and a two-bedroom 1,034 square foot residence (unit two) over two two-car garages. A Modification was previously granted to allow Unit 2 and the garages to encroach into the required rear yard setback. The discretionary applications required for this project are:

2. Condominium Conversion Permit to convert two (2) residential units to two (2) condominium units (SBMC§28.88).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15301 (existing facilities).

WHEREAS, the Planning Commission has held the required public hearing on the above application, and the Applicant was present.

WHEREAS, no one appeared to speak in favor of the application, and no one appeared to speak in opposition thereto, and the following exhibits were presented for the record:

1. Staff Report with Attachments, January 11, 2006
2. Site Plans

NOW, THEREFORE BE IT RESOLVED that the City Planning Commission:

- I. Approved the subject application making the following findings and determinations:

A. The Tentative Map (SBMC §27.07.100)

The Tentative Subdivision Map is consistent with the General Plan and the Zoning Ordinance of the City of Santa Barbara. The site is physically suitable for the proposed condominium

conversion and additions, the project is consistent with the density provisions of the Municipal Code and the General Plan, and the proposed use is consistent with the vision for this neighborhood of the General Plan. The design of the project will not cause substantial environmental damage, and associated improvements will not cause serious public health problems.

B. Condominium Conversion (SBMC§28.88.120)

1. All provisions of the Condominium Conversion Ordinance are met and the project will not be detrimental to the health, safety, and general welfare of the community.
2. The proposed conversion is consistent with the General Plan of the City of Santa Barbara and with the density requirement of its Land Use Element.
3. The proposed conversion will conform to the Santa Barbara Municipal Code in effect at the time the application was deemed complete, except as otherwise provided in the Condominium Conversion Ordinance.
4. The overall design (including project amenities) and physical condition of the conversion will result in a project, which is aesthetically attractive, safe, and of quality construction.
5. The units have not been "affordable rental units" therefore; affordability restrictions do not apply to the project.
6. The project is exempt from the provisions of Section 28.88.130 because the project consists of fewer than four units.
7. The Applicant has declared that the existing residence is owner-occupied and therefore, no tenants occupy the units.
