Pursuant to the State of California Public Resources Code and the "Guidelines for Implementation of the California Environmental Quality Act of 1970," as amended to date, this Final Mitigated Negative Declaration has been prepared for the following project:

**PROJECT LOCATION: 1722 State Street**

**PROJECT PROPONENT: Jan R. Hochhauser, Hochhauser Blatter Architecture and Planning**

**PROJECT DESCRIPTION:** The project involves the construction of a 69,799 square foot (gross) three-story building that would provide both residential and commercial uses. The project would provide 12 residential condominium units (29,837 total square feet), and 15,576 square feet of area to be used for commercial condominiums. Parking for the residential units and commercial uses would be provided in a 24,386 square foot below-grade parking area. Eight (8) of the market rate units would have two-bedrooms and would range between 1,771 and 2,349 net square feet in size. Two (2) of the market rate units would have three bedrooms and would range between 1,988 and 2,680 net square feet in area. Of the two affordable units, one would have two bedrooms (976 net square feet) and the other would have three bedrooms (1,179 net square feet).

A variety of commercial uses could be located in the proposed project, including a mix of specialty retail, general office and medical-dental office space. The project would provide a net total of 9,100 square feet of commercial floor space.
