
The proposed project involves replacement of approximately 859 square feet of an existing pool-level patio and 336 square feet of an existing upper-level patio with flagstone over concrete; replastering and coping of the existing swimming pool; and replacement of 423 square feet of gravel driveway with concrete. A Coastal Exemption was granted for replacement of a portion of the upper-level patio located at a distance greater than 50 feet from the bluff top and beyond the 75 year bluff retreat setback line (MST2007-00455). Both the pool-level patio and the upper-level patio were removed without the benefit of permits. Landscaping changes in the rear yard, including replacement of lawn with drought-tolerant plants, will be completed in accord with Planning Commission Resolution 005-02 and ABR-approved plans (MST2000-00612). The project site is located on a 1.3-acre lot in the Hillside Design District and Appealable Jurisdiction of the Coastal Zone. The site is currently developed with a 3,223 square foot single-family residence and 612 square foot attached garage.

The discretionary application required for this project is:

1. A Coastal Development Permit (CDP2008-00007) to allow the proposed development in the Appealable Jurisdiction of the City’s Coastal Zone (SBMC §28.44).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Guidelines Section 15301.

WHEREAS, the Planning Commission has held the required public hearing on the above application, and the Applicant was present.
