CITY OF SANTA BARBARA PLANNING COMMISSION
RESOLUTION NO. 040-08
1242 SHORELINE DRIVE
COASTAL DEVELOPMENT PERMIT
NOVEMBER 20, 2008

APPLICATION OF JIM ZIMMERMAN, ARCHITECT, FOR JODY F. HERRICK, 1242 SHORELINE DRIVE, APN #045-202-009, E-3/SD-3 SINGLE FAMILY RESIDENTIAL AND COASTAL ZONES, GENERAL PLAN DESIGNATION: RESIDENTIAL – 5 UNITS PER ACRE (MST2008-00319)

The project consists of a proposal to demolish the existing, one-story, 792 square foot single family residence with 365 square foot attached garage, and construct a 1,955 square foot, two-story residence with a 450 square foot attached garage in the appealable jurisdiction of the Coastal Zone. The project includes relocating the driveway from Shoreline Drive to Santa Rosa Place and the relocation of a palm tree in the City parkway.

The discretionary applications required for this project are:

1. A Coastal Development Permit (CDP2008-00004) to allow the proposed development in the Appealable Jurisdiction of the City’s Coastal Zone (SBMC § 28.44);

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Guidelines Section 15301 (i)(1) demolition of small structures and 15303 new construction of small structures.

WHEREAS, the Planning Commission has held the required public hearing on the above application, and the Applicant was present.

WHEREAS, no one appeared to speak in favor of the application, and 2 people appeared to speak in opposition thereto, or with concerns, and the following exhibits were presented for the record:

1. Staff Report with Attachments, November 13, 2008
2. Site Plans
3. Correspondence received in opposition to, or with concerns about, the project:
   a. John and, Elsa Dunion, via email
   b. Wayne Cassriel, via email

NOW, THEREFORE BE IT RESOLVED that the City Planning Commission:

I. Approved the subject application making the following findings and determinations:
Coastal Development Permit (SBMC §28.44)

The project is consistent with the policies of the California Coastal Act, the City’s Local Coastal Plan, all implementing guidelines, and applicable provisions of the Code because the new residence and secondary dwelling unit would be compatible with the existing neighborhood, would not be visible from the beach, would not impact views from public view corridors, would not impact public access, and would not contribute to safety or drainage hazards on the site and is not located on a coastal bluff or on an archaeologically sensitive site.

II. Said approval is subject to the following conditions:

A. Design Review. The project is subject to the review and approval of the Single Family Design Board (SFDB). The SFDB shall not grant preliminary approval of the project until the following Planning Commission land use conditions have been satisfied.

1. Tree Removal and Replacement. All trees removed, except fruit trees and street trees approved for removal without replacement by the Parks Department, shall be replaced on-site on a one-for-one basis with minimum 15 gallon size tree(s) of an appropriate species or like species.

2. Screened Check Valve/Backflow. The check valve or anti-backflow devices for fire sprinkler and/or irrigation systems shall be provided in a location screened from public view or included in the exterior wall of the building.

3. Permeable Paving. Incorporate a permeable paving system for the project driveway that will allow a portion of the paved area runoff to percolate into the ground, except as necessary to meet Fire Department weight requirements. Materials in driveways and parking areas must be approved by the Public Works Director/Transportation Manager.

B. Recorded Conditions Agreement. Prior to the issuance of any Public Works permit or Building permit for the project on the Real Property, the Owner shall execute a written instrument, which shall be reviewed as to form and content by the City Attorney, Community Development Director and Public Works Director, recorded in the Office of the County Recorder, and shall include the following:

1. Approved Development. The development of the Real Property approved by the Planning Commission on November 20, 2008 is limited to 2,405 square feet of building area and the improvements shown on the Development Plan signed by the chairman of the Planning Commission on said date and on file at the City of Santa Barbara.

2. Uninterrupted Water Flow. The Owner shall provide for the uninterrupted flow of water onto the Real Property including, but not limited to, swales, natural watercourses, conduits and any access road, as appropriate.

3. Recreational Vehicle Storage Limitation. No recreational vehicles, boats, or trailers shall be stored on the Real Property unless enclosed or concealed from view as approved by the Single Family Design Board (SFDB).
4. **Landscape Plan Compliance.** The Owner shall comply with the Landscape Plan approved by the Single Family Design Board (SFDB). Such plan shall not be modified unless prior written approval is obtained from the SFDB. The landscaping on the Real Property shall be provided and maintained in accordance with said landscape plan. If said landscaping is removed for any reason without approval by the SFDB, the owner is responsible for its immediate replacement.

C. **Public Works Requirements Prior to Building Permit Issuance.** The Owner shall submit the following, or evidence of completion of the following to the Public Works Department for review and approval, prior to the issuance of a Building Permit for the project.

1. **Drainage Calculations.** The Owner shall submit drainage calculations prepared by a registered civil engineer or licensed architect demonstrating that the new development will not increase runoff amounts above existing conditions for a 25-year storm event. Any increase in runoff shall be retained on-site.

2. **Shoreline Drive and Santa Rosa Place Public Improvements.** The Owner shall submit building plans for construction of improvements along the property frontage on Shoreline Drive and Santa Rosa Place. As determined by the Public Works Department, the improvements shall include the following: remove and replace all cracked and uplifted sidewalk, City Standard residential driveway apron modified to meet Title 24 requirements, saw-cut and replace curb & gutter where damaged, preserve and/or reset survey monuments and contractor stamps, and provide adequate positive drainage from site. Any work in the public right-of-way requires a Public Works Permit.

3. **Drainage and Water Quality.** Project drainage shall be designed, installed, and maintained such that stormwater runoff from the first inch of rain from any storm event shall be retained and treated onsite in accordance with the City’s NPDES Storm Water Management Permit. Runoff should be directed into a passive water treatment method such as a bioswale, landscape feature (planter beds and/or lawns), infiltration trench, etc. Project plans for grading, drainage, stormwater treatment methods, and project development, shall be subject to review and approval by City Building Division and Public Works Department. Sufficient engineered design and adequate measures shall be employed to ensure that no significant construction-related or long-term effects from increased runoff, erosion and sedimentation, urban water pollutants, or groundwater pollutants would result from the project. The Owner shall maintain the drainage system and storm water pollution control methods in a functioning state.

4. **Water Rights Assignment Agreement.** The Owner shall assign to the City of Santa Barbara the exclusive right to extract ground water from under the Real Property in an *Agreement Assigning Water Extraction Rights*. Engineering Division staff will prepare said agreement for the Owner’s signature.
5. **Agreement to Construct and Install Improvements.** The Owner shall submit an executed Agreement to Construct and Install Improvements, prepared by the Engineering Division, an Engineer’s Estimate, signed and stamped by a registered civil engineer, and securities for construction of improvements prior to execution of the agreement.

6. **Encroachment Permits.** Any encroachment or other permits from the City or other jurisdictions (State, Flood Control, County, etc.) for the construction of improvements (including any required appurtenances) within their rights of way (easement).

7. **Approved Public Improvement Plans and Concurrent Issuance of Public Works Permit.** Upon acceptance of the approved public improvement plans, a Public Works permit shall be issued concurrently with a Building permit.

D. **Building Permit Plan Requirements.** The following requirements/notes shall be incorporated into the construction plans submitted to the Building and Safety Division for Building permits.

1. **Design Review Requirements.** Plans shall show all design, landscape and tree protection elements, as approved by the Single Family Design Board, outlined in Section A above.

2. **Trash Enclosure Provision.** A trash enclosure with adequate area for recycling containers (an area that allows for a minimum of 50 percent of the total capacity for recycling containers) shall be provided on the Real Property and screened from view from surrounding properties and the street.

3. **Conditions on Plans/Signatures.** The final Planning Commission Resolution shall be provided on a full size drawing sheet as part of the drawing sets. Each condition shall have a sheet and/or note reference to verify condition compliance. If the condition relates to a document submittal, indicate the status of the submittal (e.g., Archaeologist contract submitted to Community Development Department for review). A statement shall also be placed on the above sheet as follows: The undersigned have read and understand the above conditions, and agree to abide by any and all conditions which is their usual and customary responsibility to perform, and which are within their authority to perform.

E. **Construction Implementation Requirements.** All of these construction requirements shall be carried out in the field by the Owner and/or Contractor for the duration of the project construction.

1. **Sandstone Curb Recycling.** Any existing sandstone curb in the public right-of-way that is removed and not reused shall be salvaged and sent to the City Corporation Annex Yard.

2. **Construction Hours.** Construction (including preparation for construction work) is prohibited Monday through Friday before 7:00 a.m. and after 5:00 p.m., and all day on Saturdays, Sundays and holidays observed by the City of Santa Barbara, as shown below:

   - New Year’s Day
   - Martin Luther King’s Birthday
   - Presidents’ Day
   - Memorial Day
   - Independence Day
   - Labor Day
   - Thanksgiving Day
   - Following Thanksgiving Day
   - Christmas Day
   - January 1st*
   - 3rd Monday in January
   - 3rd Monday in February
   - Last Monday in May
   - July 4th*
   - 1st Monday in September
   - 4th Thursday in November
   - Friday following Thanksgiving Day
   - December 25th*

   *When a holiday falls on a Saturday or Sunday, the preceding Friday or following Monday, respectively, shall be observed as a legal holiday.

When, based on required construction type or other appropriate reasons, it is necessary to do work outside the allowed construction hours, contractor shall contact the Chief of Building and Safety to request a waiver from the above construction hours, using the procedure outlined in Santa Barbara Municipal Code §9.16.015 Construction Work at Night. Contractor shall notify all residents within 300 feet of the parcel of intent to carry out night construction a minimum of 48 hours prior to said construction. Said notification shall include what the work includes, the reason for the work, the duration of the proposed work and a contact number that is answered by a person, not a machine.

3. **Construction Parking/Storage/Staging.** Construction parking and storage shall be provided as follows:

   a. During construction, free parking spaces for construction workers and construction shall be provided on-site or off-site in a location subject to the approval of the Public Works Director. Construction workers are prohibited from parking within the public right-of-way, except as outlined in subparagraph b. below.
b. Parking in the public right of way is permitted as posted by Municipal Code, as reasonably allowed for in the 2006 Greenbook (or latest reference), and with a Public Works permit in restricted parking zones. No more than three (3) individual parking permits without extensions may be issued for the life of the project.

c. Storage or staging of construction materials and equipment within the public right-of-way shall not be permitted, unless approved by the Transportation Manager.

4. **Water Sprinkling During Grading.** The following dust control measures shall be required, and shall be accomplished using recycled water whenever the Public Works Director determines that it is reasonably available:

   a. Site grading and transportation of fill materials.

   b. Regular water sprinkling; during clearing, grading, earth moving or excavation.

   c. Sufficient quantities of water, through use of either water trucks or sprinkler systems, shall be applied on-site to prevent dust from leaving the site.

   d. Each day, after construction activities cease, the entire area of disturbed soil shall be sufficiently moistened to create a crust.

   e. Throughout construction, water trucks or sprinkler systems shall also be used to keep all areas of vehicle movement on-site damp enough to prevent dust raised from leaving the site. At a minimum, this will include wetting down such areas in the late morning and after work is completed for the day. Increased watering frequency will be required whenever the wind speed exceeds 15 mph.

5. **Expeditious Paving.** All roadways, driveways, sidewalks, etc., shall be paved as soon as possible. Additionally, building pads shall be laid as soon as possible after grading unless seeding or soil binders are used, as directed by the Building Inspector.

6. **Gravel Pads.** Gravel pads shall be installed at all access points to the project site to prevent tracking of mud on to public roads.

7. **Street Sweeping.** The property frontage and adjacent property frontages, and parking and staging areas at the construction site shall be swept daily to decrease sediment transport to the public storm drain system and dust.

8. **Construction Best Management Practices (BMPs).** Construction activities shall address water quality through the use of BMPs, as approved by the Building and Safety Division.
9. **Construction Equipment Maintenance.** All construction equipment, including trucks, shall be professionally maintained and fitted with standard manufacturers’ muffler and silencing devices.

F. **Prior to Certificate of Occupancy.** Prior to issuance of the Certificate of Occupancy, the Owner of the Real Property shall complete the following:

1. **Repair Damaged Public Improvements.** Repair any damaged public improvements (curbs, gutters, sidewalks, roadways, etc.) subject to the review and approval of the Public Works Department per SBMC §22.60.090. Where tree roots are the cause of the damage, the roots shall be pruned under the direction of a qualified arborist.

2. **Complete Public Improvements.** Public improvements, as shown in the improvement/building plans, including utility service undergrounding and installation of street trees.

3. **Cross-Connection Inspection.** The Owner shall request a cross connection inspection by the Public Works Water Reclamation/Cross Connection Specialist.

G. **Litigation Indemnification Agreement.** In the event the Planning Commission approval of the Project is appealed to the City Council, Applicant/Owner hereby agrees to defend the City, its officers, employees, agents, consultants and independent contractors (“City’s Agents”) from any third party legal challenge to the City Council’s denial of the appeal and approval of the Project, including, but not limited to, challenges filed pursuant to the California Environmental Quality Act (collectively “Claims”). Applicant/Owner further agrees to indemnify and hold harmless the City and the City’s Agents from any award of attorney fees or court costs made in connection with any Claim.

Applicant/Owner shall execute a written agreement, in a form approved by the City Attorney, evidencing the foregoing commitments of defense and indemnification within thirty (30) days of the City Council denial of the appeal and approval of the Project. These commitments of defense and indemnification are material conditions of the approval of the Project. If Applicant/Owner fails to execute the required defense and indemnification agreement within the time allotted, the Project approval shall become null and void absent subsequent acceptance of the agreement by the City, which acceptance shall be within the City’s sole and absolute discretion. Nothing contained in this condition shall prevent the City or the City’s Agents from independently defending any Claim. If the City or the City’s Agents decide to independently defend a Claim, the City and the City’s Agents shall bear their own attorney fees, expenses, and costs of that independent defense.
NOTICE OF COASTAL DEVELOPMENT PERMIT TIME LIMITS:

Pursuant to Section 28.44.230 of the Santa Barbara Municipal Code, work on the approved development shall commence within two years of the final action on the application, unless a different time is specified in the Coastal Development Permit. Up to three (3) one-year extensions may be granted by the Community Development Director in accordance with the procedures specified in Subsection 28.44.230.B of the Santa Barbara Municipal Code.

This motion was passed and adopted on the 20th day of November, 2008 by the Planning Commission of the city of Santa Barbara, by the following vote:

AYES: 5    NOES: 0    ABSTAIN: 0    ABSENT: 2 (Jostes, Thompson)

I hereby certify that this Resolution correctly reflects the action taken by the city of Santa Barbara Planning Commission at its meeting of the above date.

Julie Rodriguez, Planning Commission Secretary

Date

THIS ACTION OF THE PLANNING COMMISSION CAN BE APPEALED TO THE CITY COUNCIL WITHIN TEN (10) DAYS AFTER THE DATE THE ACTION WAS TAKEN BY THE PLANNING COMMISSION.
