This is a revised project. Changes to the project include elimination of a modification at the rear property line and architectural and landscape changes as requested by the Planning Commission and the Architectural Board of Review. The project consists of a one-lot subdivision to create a mixed-use development with two (2) three-story buildings consisting of seven residential condominium units, three with an attached commercial space, on a 14,750 square foot lot in the C-2 zone. The residential portion of the project would be comprised of four (4) one-bedroom and three (3) two-bedroom units between 700 and 1,700 square feet in size. Three of the units will have a small commercial office space and parking is proposed within seven vertically tandem parking garages. The proposal will result in 7,877 square feet of residential area, 686 square feet of commercial area and 1,890 square feet of garage space for a total of 10,453 square feet. There would also be two (2) uncovered guest spaces and three (3) uncovered commercial spaces. Approximately 200 cubic yards of grading is required.

The discretionary application required for this project is a Tentative Subdivision Map for a one-lot subdivision to create seven (7) residential condominiums units with three (3) attached commercial office spaces (SBMC 27.07 and 27.13).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15332 which provides for in-fill development projects in urban areas.
