III. NEW ITEM:

**ACTUAL TIME: 1:07 P.M.**

**APPLICATION OF BRIAN CEARNAL, ARCHITECT FOR VICTORIA STREET PARTNERS, LLC, 34 W. VICTORIA STREET, 039-131-016, C-2 COMMERCIAL ZONE, GENERAL PLAN DESIGNATION: OFFICES AND RESIDENTIAL (MST2009-00266)**

The project involves the redevelopment of a 1.35-acre site located at the northern corner of Victoria and Chapala Streets. The project includes demolition of the existing 20,125 square foot commercial building (formerly occupied by Vons supermarket) and associated parking lot, and the construction of a new mixed-use development containing 23,125 square feet of commercial space and 37 residential condominiums above an underground parking garage containing 78 parking stalls. Sixty-one bicycle parking stalls would be provided. The mural located on the existing building wall along Victoria Street is proposed to be relocated and incorporated into the new building along the Chapala Street façade as part of the project.

The commercial development would include approximately 14,703 square feet of market, 7,490 square feet of commercial/retail and 932 square feet of miscellaneous/accessory floor area, and 39 parking stalls. Two of the parking stalls would be reserved as “car-share” spaces.

The residential development includes 37 units (32 market-rate units and 5 inclusionary units) comprised of 5 studios, 29 one-bedroom units and 3 two-bedroom units, with 39 assigned parking stalls. The residential portion of the development also includes 7,577 square feet of accessory area that consists of two guest rooms, a club room, a lobby, individual storage units and miscellaneous accessory space.

Public improvements including new sidewalk, curb and gutter and street trees are required. Vehicular access to the underground parking garage would be provided from Chapala Street. Grading is anticipated to consist of approximately 20,000 cubic yards of cut.

The discretionary applications required for this project are:

1. A Development Plan to allocate 3,000 square feet of nonresidential square footage from the Minor and Small Addition categories (SBMC §28.87.300); and
2. A Tentative Subdivision Map for a one-lot subdivision to create thirty-seven (37) residential condominium units, and 23,125 square feet of commercial condominium space (that may be divided into as many as three condominium units) (SBMC 27.07 and 27.13).

The Environmental Analyst has determined that the project is exempt from further environmental review pursuant to the California Environmental Quality Act Guidelines Section 15332.

V. SUBSTANTIAL CONFORMANCE DETERMINATION REQUEST:

** ACTUAL TIME: 5:11 P.M. **

Commissioner Bartlett recused himself due to his firm doing work on a related project for the Applicant.
Commissioner Larson recused herself due to her husband working for Santa Barbara Cottage Hospital.

On March 24, 2005, the Santa Barbara Cottage Hospital (SBCH) Modernization Plan was approved by the Planning Commission, which is currently under construction. Due to recent changes in both state and federal law, requiring the hospital to maintain sufficient provisions and medical supplies to operate for 96 hours in the event of an emergency, the hospital is requesting a Substantial Conformance Determination. The request is to allow the expansion of the approved basement floor area by 10,600 square feet (s.f.) to accommodate the storage of such provisions. The proposal does not increase the building’s footprint. The request would require City Council to approve an allocation of 10,600 s.f. of new non-residential square footage under SBMC§28.87.300 under the dual designation of Community Priority and Economic Development.

The Community Development Director will ultimately make a determination as to whether the proposed changes are in substantial conformance with the approved project. The purpose of the discussion is to allow the Planning Commission an opportunity to review the proposed changes to the approved project and provide input to the Community Development Director with regard to the Substantial Conformance Determination request, and to provide a recommendation to the City Council with regard to the square footage allocations.

Required Applications

The discretionary applications required for this project are:

1. A Substantial Conformance Determination that the additional construction of 10,600 square feet of nonresidential development is consistent with the previously approved the Development Plan Approval (SBMC §28.87.300 & 28.94.050); and

2. Recommendation to City Council to allocation 10,600 s.f. of additional non-residential square footage to the project under Economic Development with a dual designation as a Community Priority.

The Planning Commission certified the Final Environmental Impact Report (FEIR) for the project on March 24, 2005 pursuant to the California Environmental Quality Act Guidelines Section 15091. An addendum to the certified FEIR was prepared pursuant to California Environmental Quality Act Guidelines Section 15164.
