## NOTICE OF A MEETING OF THE PLANNING COMMISSION FOR PROJECT UPDATE

THURSDAY, MAY 17, 2012  
1:00 P.M.\* (SEE NOTE BELOW)  
CITY HALL – 735 ANACAPA STREET  
CITY COUNCIL CHAMBERS

### UPDATE OF PUBLIC WORKS DEPARTMENT, ENGINEERING DIVISION FOR LOWER MISSION CREEK FLOOD CONTROL PROJECT (MST2008-00360/CDP2008-00012)

The approved project would increase hydraulic capacity of Mission Creek from Canon Perdido to Cabrillo Boulevard. The creek channel would be widened and bridges would be removed and replaced with new bridges that provide additional floodwater capacity. Vertical creek banks would be constructed, creek banks would be restored, and fish passage features would be installed. Changes to the project include changes in creek width, the sequence of construction of project elements, creek bank configuration north of Highway 101, use of rock weirs, boulder clusters centered in the creek bed (instead of on the edge) for fish refuges, and replacing cobbles with sand for Goby breeding purposes.

The purpose of the project update is to allow the Planning Commission and the public an opportunity to be advised regarding refinements in the proposed project design required by permit conditions of approval, funding source and implementing agency changes, and by value engineering studies. **No formal action on the project will be taken.**

You are invited to attend this meeting and address your verbal comments to the Planning Commission. Written comments are also welcome and should be addressed to the Planning Commission Secretary, P.O. Box 1990, Santa Barbara, CA 93102-1990.
