III. CONCEPT REVIEW:

ACTUAL TIME: 1:06 P.M.

APPLICATION OF KENNETH MARSHALL, AGENT FOR KELLOGG ASSOCIATES, 3714-3744 STATE STREET, APNS 053-300-023 AND -031, C-P/SD-2 AND R-4/SD-2 ZONES, AND C-P/SD-2 AND R-3/SD-2 ZONES, GENERAL PLAN DESIGNATION: COMMERCIAL/MEDIUM HIGH RESIDENTIAL (MST12-00443)

Concept Review of a revised development proposal for the approved Sandman Inn Redevelopment Project. The previously approved Project includes demolition of existing site development, and construction of 14,612 square feet of office/commercial space and 73 residential condominiums with underground parking. The current conceptual plan includes demolition of existing site development, and construction of 5,274 square feet of office space and 72 residential condominiums with at-grade parking.

The purpose of the concept review is to allow the Planning Commission and the public an opportunity to review the proposed project design at a conceptual level, and provide the Applicant and Staff with feedback and direction regarding the proposed land use and design. The opinions of the Planning Commission may change or there may be ordinance or policy changes that could affect the project that would result in requests for project design changes. **No formal action on the development proposal will be taken at the concept review, and the Planning Commission will not make a determination regarding environmental review of the proposed project.**

The discretionary applications that would be applicable to the conceptual project are:

1. A Lot Line Adjustment transferring 2.22 acres from APN 053-300-031 to APN 053-300-023.
2. A Tentative Subdivision Map (TSM) for a one-lot subdivision to create 73 residential condominium units and 2 commercial condominium units (SBMC Chapters 27.07 and 27.13).

The discretionary applications that were previously approved for the Sandman Inn Redevelopment Project are:

1. A Lot Line Adjustment transferring 2.22 acres from APN 053-300-031 to APN 053-300-023.
2. A Development Plan to allow construction of more than 10,000 square feet of total floor area in the C-P Zone (SBMC §28.54.120).
3. A Modification of the lot area requirements to allow one over-density unit (bonus density) (SBMC §28.92.110.A.2).
4. A Tentative Subdivision Map (TSM) for a one-lot subdivision to create 73 residential condominium units and 2 commercial condominium units (SBMC Chapters 27.07 and 27.13).

An Environmental Impact Report was certified for the approved Sandman Inn Redevelopment Project.

Allison De Busk, Project Planner, gave the Staff presentation.

Brian Cearnal, Architect, gave the Applicant presentation, joined by Gregory Parker, Investec Corporation.

Chair Lodge opened the public hearing at 2:12 P.M.

Paul Hernadi, Citizens Planning Association, summarized the written comments he submitted to the Planning Commission in his letter emailed December 17, 2012.

With no one else wishing to speak, the public hearing was closed at 2:19 P.M.

Commissioner's Comments:

- Many Commissioners appreciated the applicant retaining the best features of the previously approved project and felt that the proposed project is an improvement.
- Commissioners did not like the design of the front of the commercial buildings, which looked too linear, and suggested more articulation or undulation, possibly even including the use of second story elements.
- Many Commissioners stressed that pedestrian and vehicular connectivity is very important and the project should not preclude it.
- Commissioner Thompson appreciated that the time of excavation and the amount of export will be reduced significantly. Appreciates plants in the ground versus use of planters. Recommended keeping the option open for access from the Hitchcock stub, and ability to enter the project through signalized traffic intersection. Would like mature trees saved.

- Commissioner Jordan concurred with Commissioner Thompson's remarks and would like to see real pedestrian access through the site. Appreciates MTD improvements. Likes the one-story frontage on State Street with site lines to the mountains and appreciated the reduction of curb cuts.
- Commissioner Larson concurred with Commissioners Thompson and Jordan and would like permeable paving considered, now that the underground garage has been eliminated. Appreciates and encourages more 'green' elements.
- Commissioner Bartlett likes the main entry drive. Would like to see a pedestrian connection to the intersection. Recommended articulation of the State Street commercial by using a variable setback along the street, perhaps creating a few courtyard pockets. Would appreciate any preservation of mountain views from the State Street the State/Hitchcock intersection. Appreciates that the elimination of the underground parking lot allows landscaping to be planted in the ground, rather than in above-ground planters. If the project meets the average unit density ordinance, he would like to see parking reduced; consider shared guest parking with the commercial buildings after hours.
- Commissioner Campanella commented that a community benefit of the project is the broad market it will serve. Appreciated the revision to utilize more three story components of the buildings within the interior than two story, while reducing the building footprints and allowing for more open area.
- Commissioner Lodge appreciated the reduced commercial square footage and the associated reduction in traffic and parking.
